Praise for Building an Innovative Learning Organization:

"The true heartbeat of competitive advantage is learning ... the ability to live the learning in real time, apply that learning to drive exceptional performance, and teach that application to others. Russell Sarder, our most passionate CEO of Learning, understands this because he has lived it in his business and in his life. Building an Innovative Learning Organization takes us deep into the heartbeat of learning to deliver greater value for our businesses while we grow greater value within ourselves."

—Roseanna DeMaria, Former Chief Learning Officer at Merrill Lynch

"To succeed in today's turbo-charged environment, organizations must innovatively learn. Sarder's book incorporates the best ideas of leaders from around the world and skillfully crafts them into a highly practical narrative that enables readers to build their own innovative learning organizations. This book will become a classic."

—Dr. Michael Marquardt, President of the World Institute for Action Learning, Professor at George Washington University

CGRC - Certified in Governance, Risk and Compliance

CGRC - Certified in Governance, Risk and Compliance Certification Prep.

40 Hours | \$3,495

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/08/2023 – 05/12/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/02/2023 – 10/06/2023

Formerly known as CAP – Certification and Accreditation Professional Certification Prep.

If you want to advance your career and demonstrate that you understand risk management, enroll in this Certified Authorization Professional training offered by NetCom Learning, the official (ISC)2 training partner. The Certified in Governance, Risk and Compliance (CGRC) certification course is designed for the information security practitioner who champions system security commensurate with an organization's mission and risk tolerance while meeting legal and regulatory requirements. The CGRC training course conceptually mirrors the National Institute of Standards and Technology (NIST) system authorization process in compliance with the Office of Management and Budget (OMB) Circular A-130, Appendix III. Prepare for the CGRC Certification and Accreditation Professional exam with this CGRC training course made specifically for information security professionals who are staunch advocates of system security.

What's Included -

- 5 days instructor-led training
- (ISC)2 Official CGRC e-Book
- (ISC)2 Official CGRC Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized CGRC Instructor
- (ISC)2 Official CGRC Certificate of completion
- (ISC)2 Official CGRC Exam Voucher

Note: This is to declare that it is a DoD approved course.

Adobe Acrobat

Acrobat Fundamentals: An Introduction to Acrobat DC

24 Hours | \$1,495

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
08/09/2023 – 08/11/2023
10/11/2023 – 10/13/2023

In this course, you'll get an excellent overview of how to convert your work into Adobe Portable Document Format (PDF) using Adobe Acrobat. You will learn to use Acrobat's cross-platform capabilities to distribute your documents efficiently without sacrificing the original design. You will learn how to incorporate text, notes, graphics, movies, and links to the Internet. You will gain an excellent understanding of the menu and tools in Acrobat and be able to use Acrobat at a high level of efficiency.

Adobe Acrobat Pro DC: Advanced

8 Hours | \$495

Schedules

04/05/2023 – 04/05/2023
05/05/2023 – 05/05/2023
06/09/2023 – 06/09/2023
08/11/2023 – 08/11/2023
10/13/2023 – 10/13/2023

As a business professional, you have some experience using Adobe Acrobat. Now you're ready to take further advantage of all the features of Acrobat Pro DC to bring your documents to the next level. Whether you are creating PDFs for commercial printing or for viewing digital versions on a range of platforms, Adobe Acrobat Pro DC enables you to output your content so your audience will be able to access and view the document just the way you intended.

In this course, you will use Adobe Acrobat Pro DC to convert technical documents to PDF files, enhance PDF documents, create interactive PDF forms, and prepare PDF files for commercial printing.

Adobe Acrobat XI Pro Combo

16 Hours | \$1,198

Schedules

03/21/2023 – 03/21/2023
03/23/2023 – 03/23/2023
04/21/2023 – 04/21/2023
04/24/2023 – 04/24/2023
05/22/2023 – 05/22/2023
05/23/2023 – 05/23/2023
06/23/2023 – 06/23/2023
06/26/2023 – 06/26/2023

08/09/2023 – 08/09/2023
10/04/2023 – 10/04/2023
10/10/2023 – 10/10/2023

Communicating ideas and information is the cornerstone of organizational operations. And electronic forms of communication have made the transfer of knowledge quick, easy, and inexpensive.

The ability to harness the potential of electronic forms of communication is critical in nearly every type of organization. But in many, if not most, organizations, people work with a wide variety of devices running on different of platforms. And sometimes what works well or looks good on one device won't work at all on another device. Or your carefully designed and formatted document may end up looking like a jumbled mess on someone else's computer.

So, how do you balance the need to communicate ideas to large groups of people with the enormous diversity found in today's electronic devices? The answer: you don't have to. Adobe created the Portable Document Format as a solution to incompatible document formats.

Adobe Acrobat XI Pro puts the power of the Portable Document Format, literally, at your fingertips. By taking advantage of the functionality and features available in Acrobat, you will ensure the integrity of your electronic documents regardless of who views them, on what devices, or with what operating systems. And that will give the confidence and peace of mind that comes with knowing that what you meant to communicate is what your document recipients will see.

Adobe Acrobat XI Pro: Part 1

8 Hours | \$599

Schedules

03/21/2023 – 03/21/2023
04/21/2023 – 04/21/2023

Adobe After Effects

Advanced Adobe After Effects CC

16 Hours | \$1,195

Schedules

03/13/2023 – 03/14/2023
04/17/2023 – 04/18/2023
05/22/2023 – 05/23/2023
06/26/2023 – 06/27/2023
08/21/2023 – 08/22/2023
10/23/2023 – 10/24/2023

In advanced course designed for videographers, graphic artists, and animators with experience using Adobe After Effects, the standard for motion graphics and compositions in the TV and film industries, you will learn to incorporate text, graphics, and effects into your movies. Upon completion of this course, you will have an excellent understanding of the menu and tools in After Effects, and you'll be able to use the program with a high level of efficiency.

Introduction to Adobe After Effects CC

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/11/2023 – 04/13/2023
05/09/2023 – 05/11/2023
06/13/2023 – 06/15/2023
07/12/2023 – 07/14/2023
09/13/2023 – 09/15/2023
11/15/2023 – 11/17/2023

After Effects CC software lets you deliver cinematic visual effects and motion graphics faster than ever before with new Global Performance Cache. Extend your creativity with built-in text and shape extrusion, new mask feathering options. Get into motion graphics – come learn what After Effects CC can do!

Adobe Audition

Audition Fundamentals: An Introduction to Audition CC

24 Hours | \$1,495

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/11/2023 – 07/13/2023
09/12/2023 – 09/14/2023
11/14/2023 – 11/16/2023

Adobe Audition CC software delivers the cross-platform tools that video and film professionals, broadcast engineers, and audio specialists need for recording, editing, mixing, creating soundtracks, and restoring audio. A new, high-performance audio playback engine drastically speeds up operation; enables work on multiple simultaneous audio and multitrack files; and allows effects, noise reduction, and audio sweetening processing in the background.

Adobe Captivate

Adobe Captivate – Beyond the Essentials

16 Hours | \$1,195

Schedules

03/14/2023 – 03/15/2023
04/18/2023 – 04/19/2023
05/16/2023 – 05/17/2023
06/20/2023 – 06/21/2023
07/12/2023 – 07/13/2023
09/13/2023 – 09/14/2023
11/08/2023 – 11/09/2023

This course is a continuation of the concepts covered in Captivate Essentials – An Introduction to Captivate. In this course you will fine-tune those concepts by learning about object styles, master slides, themes and advanced actions. You will be able to personalize your presentations with variables and branching scenarios that will help decide the best path for the learner. You will learn to make your presentations Section 508-compliant with accessibility text and closed captions. Finally, you will learn how to transform your presentations from e-Learning to mLearning (mobile learning).

Adobe Captivate Essentials – An Introduction to Captivate

24 Hours | \$1,495

Schedules

03/21/2023 – 03/23/2023
04/25/2023 – 04/27/2023
05/23/2023 – 05/25/2023
06/27/2023 – 06/29/2023
08/23/2023 – 08/25/2023
10/25/2023 – 10/27/2023

Captivate Essentials – An Introduction to Captivate is a three-day course designed to teach the core Adobe Captivate skills needed to create interactive e-Learning and m-Learning content. By following step-

by-step instructions, you will learn how to create a soft-skills lesson from scratch. You will learn to record and produce software demonstrations, and interactive training simulations. This course will take you through three e-Learning projects: a demonstration, a simulation and a SCORM-compliant quiz.

Creating Responsive Projects with Captivate

16 Hours | \$1,295

Schedules

03/14/2023 – 03/15/2023
04/18/2023 – 04/19/2023
05/16/2023 – 05/17/2023
06/20/2023 – 06/21/2023
08/07/2023 – 08/08/2023
10/02/2023 – 10/03/2023

This course builds upon the concepts covered in Captivate – Beyond the Essentials. In this course you will explore how to create responsive projects that adapt to fit any screen size, whether it be mobile, tablet or desktop. With mobile learning becoming a large percentage of e-Learning, it is important to understand how to adapt your projects to this new environment.

You begin by exploring the responsive interface within Captivate. You then take a look at the HTML5 environment and its benefits and limitations. You move on to create custom breakpoints and adapt project content to accommodate these breakpoints. You will learn how to control themes, styles, and content for various screens sizes. You will learn the benefits of using smart positioning for content when building projects for multiple screen sizes. You will explore how to modify non-responsive content to adapt to a responsive design. Finally, learn how to take advantage of tools for testing responsive projects.

Adobe ColdFusion

Advanced ColdFusion 10 Development

24 Hours | \$1,495

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/12/2023 – 07/14/2023
09/27/2023 – 09/29/2023
11/15/2023 – 11/17/2023

Advanced ColdFusion 10 Development provides ColdFusion application developers with the knowledge and hands-on practice that they need to build, maintain, and scale effective web applications. Topics include using the Application Framework, creating advanced queries, manipulating complex data in arrays and structures, structuring your code with ColdFusion Components, gracefully handling errors and exceptions, encapsulating your user-interface with custom tags, leveraging external Java code libraries, and creating highly interactive interfaces using Flash Forms. It includes optional content on exposing and reusing application functionality as web services and working with XML documents. This course focuses on creating and delivering scalable and well-performing applications.

Fast Track to ColdFusion 10

24 Hours | \$1,495

Schedules

03/22/2023 – 03/24/2023
04/26/2023 – 04/28/2023
05/24/2023 – 05/26/2023
06/28/2023 – 06/30/2023
07/17/2023 – 07/19/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

Fast Track to ColdFusion 10 is a 3-day course that provides experienced Web developers with the knowledge and hands-on practice they need to start building and maintaining dynamic and interactive Web applications using ColdFusion 10.

Adobe Dreamweaver

Dreamweaver Fundamentals: An Introduction to Dreamweaver CC

32 Hours | \$1,750

Schedules

03/27/2023 – 03/30/2023
05/01/2023 – 05/04/2023
06/05/2023 – 06/08/2023
08/07/2023 – 08/10/2023
10/23/2023 – 10/26/2023

Adobe Dreamweaver CC web design software provides an intuitive visual interface for making and editing HTML websites and mobile apps. This course will provide web designers with the knowledge and hands-on practice they need to build and manage professional websites.

Adobe Experience Manager (AEM)

Create and Manage Correspondence using Adobe Experience Manager

8 Hours | \$900

Schedules

03/13/2023 – 03/13/2023
05/12/2023 – 05/12/2023
08/09/2023 – 08/09/2023
10/10/2023 – 10/10/2023

This course will cover topics necessary for correspondence managers, and users to be successful in the creation, assembly, and delivery of secure, personalized, and interactive correspondences. Topics include organizing correspondence assets, uploading schemas, creating and maintaining data dictionaries and their metadata, working with document fragments, creating letters with editable assets, and working with signature images.

Adobe Illustrator

Adobe Illustrator CC Advanced

16 Hours | \$1,195

Schedules

04/05/2023 – 04/06/2023
07/18/2023 – 07/19/2023
09/19/2023 – 09/20/2023
11/14/2023 – 11/15/2023

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this course, which is a combination of Adobe Certified Instructor-led demonstration and hands-on practice, you will learn the advanced techniques of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe Illustrator Fundamentals: An Introduction to Illustrator CC

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/11/2023 – 04/13/2023
05/09/2023 – 05/11/2023
06/13/2023 – 06/15/2023
08/21/2023 – 08/23/2023
10/16/2023 – 10/18/2023

Adobe Illustrator CC is an essential design tool for anyone who needs to express ideas visually in print, on the web, and in any other medium. In this three-day course, you will get a thorough overview of the interface, tools, and features of Illustrator CC. You will learn, step-by-step, the key techniques, as well as tips and tricks, for working in Illustrator CC. In this combination of instructor-led demonstration and hands-on practice led by Adobe certified instructors, you will learn the basics of working with Illustrator CC so that you can incorporate visual effects into your workflow.

Adobe InDesign

Adobe InDesign CC Advanced

16 Hours | \$1,195

Schedules

03/21/2023 – 03/22/2023
04/18/2023 – 04/19/2023
05/23/2023 – 05/24/2023
06/27/2023 – 06/28/2023
07/10/2023 – 07/11/2023
09/18/2023 – 09/19/2023
11/13/2023 – 11/14/2023

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages. It works seamlessly with Adobe Photoshop and Adobe Illustrator, providing a

single integrated design environment that doesn't interrupt your creative process.

InDesign CC Advanced course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe InDesign Fundamentals: An Introduction to InDesign CC

24 Hours | \$1,495

Schedules

04/05/2023 – 04/07/2023
05/10/2023 – 05/12/2023
06/14/2023 – 06/16/2023
08/23/2023 – 08/25/2023
10/25/2023 – 10/27/2023

Adobe InDesign CC software speaks the language of professional designers, delivering unparalleled creative freedom, productivity, and precision for designing superb pages. It works seamlessly with Adobe Photoshop and Adobe Illustrator, providing a single integrated design environment that doesn't interrupt your creative process.

Adobe InDesign CC course provides a thorough overview of the interface, the tools, the features, and the production tips for page layout and design using InDesign.

Adobe LightRoom

Lightroom Fundamentals: An Introduction to Lightroom

16 Hours | \$1,195

Schedules

03/08/2023 – 03/09/2023
04/12/2023 – 04/13/2023
05/10/2023 – 05/11/2023
06/14/2023 – 06/15/2023
08/21/2023 – 08/22/2023
10/23/2023 – 10/24/2023

Adobe Lightroom 5 softwares help you bring out the best in your photographs, whether you're perfecting one image, searching for ten, processing hundreds, or organizing thousands. This course is designed for novice photo editors to learn the basics of Adobe Photoshop Lightroom 5.

Adobe Photoshop

Adobe Photoshop CC Advanced – Web and Video

16 Hours | \$1,195

Schedules

03/16/2023 – 03/17/2023
04/20/2023 – 04/21/2023
05/25/2023 – 05/26/2023
06/29/2023 – 06/30/2023
07/12/2023 – 07/13/2023
09/13/2023 – 09/14/2023
11/08/2023 – 11/09/2023

Photoshop CC Advanced – Web and Video course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop. This class is aimed at the Photoshop professional who needs to enhance their knowledge to work with web and video images more effectively.

Adobe Photoshop CC Advanced: Print and Photography

16 Hours | \$1,195

Schedules

03/21/2023 – 03/22/2023
04/18/2023 – 04/19/2023
05/23/2023 – 05/24/2023
06/27/2023 – 06/28/2023
07/25/2023 – 07/26/2023
09/12/2023 – 09/13/2023
11/21/2023 – 11/22/2023

Photoshop CC Advanced: Print and Photography course provides a thorough overview for experienced users who wish to further their effectiveness on Photoshop CC. The course trains photographers and designers how to catalogue their work as well as how to enhance their photographs.

Adobe Photoshop CS6 – Part 1

16 Hours | \$790

Schedules

03/22/2023 – 03/23/2023
04/26/2023 – 04/27/2023
05/24/2023 – 05/25/2023
06/28/2023 – 06/29/2023
07/10/2023 – 07/11/2023
09/18/2023 – 09/19/2023
11/13/2023 – 11/14/2023

Adobe Photoshop CS6: Part 1 focuses on basic features of Photoshop so that the student can navigate the environment and use the Photoshop tools to work with photographic images.

Adobe Photoshop Fundamentals: An Introduction to Photoshop CC

24 Hours | \$1,495

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
08/09/2023 – 08/11/2023
10/11/2023 – 10/13/2023

An Introduction to Photoshop CC course provides a thorough overview of the interface, the tools, the features, tricks, and tips for using Photoshop CC.

Adobe Premiere Pro

Adobe Premiere Pro for Experienced Editors

16 Hours | \$2,195

Schedules

03/28/2023 – 03/29/2023
04/25/2023 – 04/26/2023
05/30/2023 – 05/31/2023
06/27/2023 – 06/28/2023
08/15/2023 – 08/16/2023
10/10/2023 – 10/11/2023

In this intermediate level class, students will go step-by-step through the entire editing process in Premiere Pro, from file creation all the way through output. Along the way they will learn the ins-and-outs of file management, essential and intermediate editing techniques, color correction, audio mixing and repairing, titling and effects, and delivering their video onto tape, the web, and mobile devices. They will learn to work within the Adobe ecosystem as well, getting up to speed on time saving tools such as Dynamic Link.

Introduction to Premiere Pro CC

24 Hours | \$1,695

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/17/2023 – 07/19/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

In this three-day course, you will get a thorough overview of the interface, tools, features, and production flow for Premiere Pro CC. The course is an ideal combination of instructor-led demonstration and hands-on practice to introduce you to Adobe Premiere Pro software, a revolutionary 64-bit nonlinear video-editing application. You will learn powerful real-time video and audio editing tools that give you precise control over virtually every aspect of your production.

Premiere Pro CC Advanced

16 Hours | \$1,495

Schedules

03/16/2023 – 03/17/2023
04/20/2023 – 04/21/2023
05/25/2023 – 05/26/2023
06/29/2023 – 06/30/2023
08/22/2023 – 08/23/2023
10/17/2023 – 10/18/2023

This course provides a thorough overview of the interface, tools, features, and production flow for using Premiere Pro. The course is an ideal combination of instructor-led demonstration and hands-on practice for getting to know this revolutionary nonlinear video-editing application.

Adobe RoboHelp

Adobe RoboHelp 20

24 Hours | \$1,495

Schedules

03/08/2023 – 03/10/2023
04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/14/2023 – 06/16/2023
08/21/2023 – 08/23/2023
10/16/2023 – 10/18/2023

This Course teaches you the essential RoboHelp skills needed to create and deliver user assistance (software/application help systems, operations manuals, policies, and procedures... the list is endless). This training provides step-by-step instructions guide you through the process of creating new RoboHelp projects and topics from scratch.

Learn to import content from Microsoft Word and HTML files. Improve the navigation of your content by adding hyperlinks, indexes, and glossaries. Increase your production efficiency by learning about, creating, utilizing, and editing cascading style sheets, variables, snippets, conditional build tags and expressions, master pages, and output skins. Learn how to control the look of final output via Skins and presets. Deliver content that can be consumed on any kind of device including desktops, laptops, smartphones, and tablets by generating output files such as Responsive HTML5, Frameless, HTMLHelp, and even eBooks.

Adobe XD

Adobe XD CC 2019

16 Hours | \$1,800

Schedules

03/27/2023 – 03/28/2023
05/01/2023 – 05/02/2023
06/12/2023 – 06/13/2023
08/07/2023 – 08/08/2023
10/02/2023 – 10/03/2023

Creative professionals, web designers, and UX professionals seeking the fastest, easiest, most comprehensive way to learn Adobe XD (2020 release) choose Adobe XD Classroom. The 11 project-based lessons in this training users step-by-step through key techniques in XD for designing and prototyping cutting edge content for websites, mobile apps, and presentations.

User Experience Design

24 Hours | \$2,700

Schedules

03/06/2023 – 03/08/2023
04/03/2023 – 04/05/2023
05/08/2023 – 05/10/2023
06/12/2023 – 06/14/2023
07/11/2023 – 07/13/2023
09/12/2023 – 09/14/2023
11/14/2023 – 11/16/2023

User Experience Design encompasses the entire user journey, so it is a multidisciplinary role. However, there are clear delineations between UI Design and User Experience as a whole. This training focuses on the required knowledge needed to implement good UX without the additional layer of UI design. This course will cover the Why, What, and How of product use as well as how to sketch wireframes and build testable prototypes.

Agile Project Management

PMI Agile Certified Practitioner (PMI-ACP)

24 Hours | \$1,795

Schedules

03/08/2023 – 03/10/2023
04/10/2023 – 04/12/2023
05/10/2023 – 05/12/2023
06/12/2023 – 06/14/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

If you're experienced using agile approaches, have good collaboration skills, eagerly embrace complexity and thrive on rapid response times, then your talents are in demand.

The Project Management Institute Agile Certified Practitioner (PMI-ACP) formally recognizes your knowledge of agile principles and your skill with agile techniques. It will make you shine even brighter to your employers, stakeholders, and peers. The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you. Check out more PMI Courses

What you will receive:

- Expert-led lectures
- Real-life examples
- 24 PMI PDUs (Based on course delivery & assignment hours)
- Tips and tricks to conquer the exam
- Assistance with the PMI application process.

Autodesk 3ds Max

Autodesk 3ds Max 2021: Fundamentals

32 Hours | \$2,195

Schedules

07/24/2023 – 07/27/2023
09/25/2023 – 09/28/2023
11/13/2023 – 11/16/2023

The Autodesk 3ds Max 2020 Fundamentals course provides a thorough introduction to the Autodesk 3ds Max 2020 software that will help new users make the most of this sophisticated application, as well as broaden the horizons of existing, self-taught users. The course instructs you on how to effectively use the software interface and navigate through the scenes. It explores the creation of 3D objects and how to bring in objects from other software such as Autodesk Revit, AutoCAD, and Civil 3D. Additionally, it teaches you to prepare the scenes for renderings by adding materials, lights, and cameras. Finally, the course covers an understanding of various renderers included with the software as well as image creation and animation techniques.

The practices in this course are primarily geared towards real-world tasks encountered by users of the Autodesk 3ds Max software in the Architecture, Interior Design, and Civil Engineering industries. Advanced topics such as character modeling, character animation, and rigging, are not covered in this course.

Autodesk 3ds Max 2022: Fundamentals

32 Hours | \$2,195

Schedules

03/06/2023 – 03/09/2023
04/10/2023 – 04/13/2023
05/08/2023 – 05/11/2023
06/05/2023 – 06/08/2023
07/17/2023 – 07/20/2023
08/21/2023 – 08/24/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

The Autodesk 3ds Max 2022: Fundamentals course provides a thorough introduction to the Autodesk 3ds Max 2022 software that will help new users make the most of this sophisticated application, as well as broaden the horizons of existing, self-taught users.

This Autodesk 3ds Max 2022: Fundamentals training instructs you on how to effectively use the software interface and navigate through the scenes. It explores the creation of 3D objects and how to bring in objects from other software such as Autodesk Revit, AutoCAD, and Civil 3D. Additionally, it teaches you to prepare the scenes for renderings by adding materials, lights, and cameras. Finally, the guide covers an understanding of various renderers included with the software, as well as image creation and animation techniques.

The practices in this course are primarily geared towards real-world tasks encountered by users of the Autodesk 3ds Max software in the Architecture, Interior Design, and Civil Engineering industries. Advanced topics such as character modeling, character animation, and rigging are not covered in this guide.

Autodesk 3ds Max 2023: Fundamentals

32 Hours | \$1,995

Schedules

03/14/2023 – 03/17/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/13/2023 – 06/16/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Autodesk 3ds Max 2023: Fundamentals course provides a thorough introduction to the Autodesk 3ds Max 2023 software that will help new users make the most of this sophisticated application, as well as broaden the horizons of existing, self-taught users. The course instructs you on how to effectively use the software interface and navigate through the scenes. It explores the creation of 3D objects and how to bring in objects from other software such as Autodesk Revit, AutoCAD, and Civil 3D. Additionally, it teaches you to prepare the scenes for renderings by adding materials, lights, and cameras. Finally, the course covers an understanding of various renderers included with the software, as well as image creation and animation techniques.

The practices in this course are primarily geared towards real-world tasks encountered by users of the Autodesk 3ds Max software in the Architecture, Interior Design, and Civil Engineering industries. Advanced topics such as character modeling, character animation, and rigging are not covered in this training.

Autodesk Advance Steel

Autodesk Advance Steel Fundamentals

32 Hours | \$1,495

Schedules

04/10/2023 – 04/13/2023
05/15/2023 – 05/18/2023
06/12/2023 – 06/15/2023
07/10/2023 – 07/13/2023
09/18/2023 – 09/21/2023
11/13/2023 – 11/16/2023

The Autodesk Advance Steel software is a powerful 3D modeling application that streamlines the fabrication process through the use of a 3D model, which is used to create fabrication drawings, Bill of Materials (BOM) lists, and files for Numerical Control (NC) machines.

Since structural steel projects are extremely complex, the Autodesk Advance Steel software is also complex.

***Course description shown for Autodesk Advance Steel 2021 Topics, curriculum, and/or prerequisites may change depending on software version.**

Autodesk AutoCAD

AutoCAD 2021 Level 1: Essentials

24 Hours | \$1,645

Schedules

07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The objective of AutoCAD 2021 Level 1: Essentials is to enable you to create, modify, and work with a 2D drawing in the AutoCAD software. Even at this fundamental level, the AutoCAD software is one of the most sophisticated computer applications that you are likely to encounter. Therefore, learning to use it can be challenging.

This course covers the essential core topics for working with the AutoCAD software. The strategy is to start with a few basic tools that enable you to create and edit a simple drawing, and then continue to develop those tools. More advanced tools are introduced throughout the course.

The AutoCAD 2021 Level 1: Essentials course is designed for those using AutoCAD 2021 with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

AutoCAD 2021 Level 2: Beyond the Basics

16 Hours | \$1,099

Schedules

07/19/2023 – 07/20/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/15/2023 – 11/16/2023

The AutoCAD 2021: Beyond the Basics continues on from the topics covered in the AutoCAD 2021: Essentials. It covers more sophisticated techniques that extend your mastery of the software. For example, here you go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

The AutoCAD 2021 Level 2: Beyonds the Basics course is designed for those using AutoCAD 2021 with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

AutoCAD 2021 Level 3: Advanced

24 Hours | \$1,645

Schedules

07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2021 Level 3: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software. This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

AutoCAD 2021: 3D Drawing and Modeling

24 Hours | \$1,645

Schedules

07/11/2023 – 07/13/2023
09/12/2023 – 09/14/2023
11/14/2023 – 11/16/2023

The AutoCAD 2021: 3D Drawing and Modeling course introduces users who are proficient with the 2D commands in the AutoCAD software to the concepts and methods of 3D modeling. This course provides a thorough grounding in the fundamentals of 3D and explores the main features of the advanced 3D Modeling workspace in the AutoCAD software.

Note: This learning course is designed for those using Autodesk AutoCAD 2019 with a Windows operating system. This learning course is not designed for the Autodesk AutoCAD for Mac software.

AutoCAD 2022: 3D Drawing and Modeling

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/04/2023 – 04/06/2023
05/09/2023 – 05/11/2023
06/06/2023 – 06/08/2023
07/18/2023 – 07/20/2023
08/15/2023 – 08/17/2023
09/19/2023 – 09/21/2023
10/10/2023 – 10/12/2023
11/14/2023 – 11/16/2023

The AutoCAD 2022: 3D Drawing and Modeling course is designed for those using AutoCAD 2022 with a Windows operating system. This training is not designed for the AutoCAD for Mac software.

The AutoCAD 2022: 3D Drawing and Modeling training introduces users, who are proficient with the 2D commands in the AutoCAD software, to the concepts and methods of 3D modeling. The course provides a thorough grounding in the fundamentals of 3D and explores the main features of the advanced 3D Modeling workspace in the AutoCAD software.

AutoCAD 2022: Update for AutoCAD 2020 & 2021 Users

8 Hours | \$1,095

Schedules

03/15/2023 – 03/15/2023
04/19/2023 – 04/19/2023
05/17/2023 – 05/17/2023
06/21/2023 – 06/21/2023

The AutoCAD 2022: Update for AutoCAD 2020 & 2021 Users course describes the new and enhanced features introduced in the AutoCAD 2021 and AutoCAD 2022 software releases. The topics covered range from the general improvements and basic command enhancements to advanced sharing commands and other collaboration tools.

Among the many changes in these releases is the redesign of the Start tab and the capability of having separate multiple drawing windows open at the same time. The working of the Trim and Extend commands have been made much simpler and many improvements have been made to the Blocks palette for easier insertion of blocks. New content collaboration tools (such as the Count command, Share drawing, Trace command, Version History, and Autodesk Docs) added to the software are discussed in this training.

AutoCAD 2023: 3D Drawing and Modeling

24 Hours | \$1,495

Schedules

03/06/2023 – 03/08/2023
04/03/2023 – 04/05/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2023: 3D Drawing and Modeling Course is designed for those using AutoCAD 2023 with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

The AutoCAD 2023: 3D Drawing and Modeling course introduces users, who are proficient with the 2D commands in the AutoCAD software, to the concepts and methods of 3D modeling. The training provides a thorough grounding in the fundamentals of 3D and explores the main features of the advanced 3D Modeling workspace in the AutoCAD software.

AutoCAD 2023: Advanced

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/04/2023 – 04/06/2023
05/09/2023 – 05/11/2023
06/06/2023 – 06/08/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2023: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software.

This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

AutoCAD Map 3D 2021: Essentials

24 Hours | \$2,199

Schedules

07/10/2023 – 07/12/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

Learn about the features and functions of AutoCAD Map 3D 2010, including how to create, manage, and analyze mapping data. The class guides students through the fundamental and advanced features of AutoCAD Map 3D 2010. This class primarily focuses on the drawing-based features within AutoCAD Map 3D.

Autodesk AutoCAD 2022 Level 1: Essentials

24 Hours | \$1,495

Schedules

03/20/2023 – 03/22/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/26/2023 – 06/28/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The AutoCAD 2022: Essentials course is designed for AutoCAD 2022 software running on Windows. This course is not designed for the AutoCAD for Mac.

The objective of AutoCAD 2022: Essentials is to enable you to create, modify, and work with a 2D drawing in the AutoCAD software.

The AutoCAD 2022: Essentials course covers the essential core topics for working with the AutoCAD software. The training begins with learning the basic tools for creating and editing 2D drawings. It then continues to explore the tools used to annotate drawings by adding text, hatching, dimensions, and tables. More advanced tools, such as working with blocks and setting up layouts, are introduced to improve your efficiency with the software.

Autodesk AutoCAD 2022 Level 2: Intermediate

16 Hours | \$995

Schedules

03/23/2023 – 03/24/2023
04/27/2023 – 04/28/2023
05/25/2023 – 05/26/2023
06/29/2023 – 06/30/2023
07/17/2023 – 07/18/2023
08/21/2023 – 08/22/2023
09/18/2023 – 09/19/2023
10/16/2023 – 10/17/2023
11/14/2023 – 11/15/2023

The Autodesk AutoCAD 2022: Beyond the Basics course is designed for AutoCAD 2022 software running on Windows. This course is not designed for the AutoCAD for Mac. The training continues on from the topics covered in the AutoCAD 2022: Essentials course. It covers more sophisticated techniques that extend your mastery of the software. For example, here you go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

Autodesk AutoCAD 2022 Level 3: Advanced

24 Hours | \$1,645

Schedules

03/21/2023 – 03/23/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2022: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software. This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

Autodesk AutoCAD 2023 Level 1: Essentials

24 Hours | \$1,645

Schedules

03/08/2023 – 03/10/2023
04/05/2023 – 04/07/2023
05/10/2023 – 05/12/2023
06/07/2023 – 06/09/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

This training covers the essential core topics for working with the AutoCAD software. The course begins with learning the basic tools for creating and editing 2D drawings. It then continues to explore the tools used to annotate drawings by adding text, hatching, dimensions, and tables. Not every

command or option is covered, because the intent is to show the essential tools and concepts, such as:

- Understanding the AutoCAD workspace and user interface
 - Using basic drawing, editing, and viewing tools
 - Organizing drawing objects on layers
 - Using reusable symbols (blocks)
 - Preparing a layout to be plotted
 - Adding text, hatching, and dimensions
- The AutoCAD 2023: Essentials course is not recommended for users that have completed the AutoCAD 2023: Fundamentals course, as content for Essentials is already covered in the Fundamentals course.

Autodesk AutoCAD 2023 Level 2: Beyond the Basics

16 Hours | \$1,315

Schedules

03/13/2023 – 03/14/2023
04/03/2023 – 04/04/2023
05/08/2023 – 05/09/2023
06/05/2023 – 06/06/2023
07/18/2023 – 07/19/2023
08/15/2023 – 08/16/2023
09/19/2023 – 09/20/2023
10/10/2023 – 10/11/2023
11/14/2023 – 11/15/2023

The AutoCAD 2023: Beyond the Basics course continues on from the topics covered in the AutoCAD 2023: Essentials training. It covers more sophisticated techniques that extend your mastery of the software. For example, here you go beyond the basic skill of using a template to understand the process of setting up a template, creating annotation styles, and how to work with external references.

Autodesk AutoCAD Electrical

AutoCAD Electrical 2021 Fundamentals with NFPA Standards

24 Hours | \$1,645

Schedules

07/10/2023 – 07/12/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

The AutoCAD Electrical 2021: Fundamentals with NFPA Standards course is designed for those using AutoCAD Electrical 2021 with a Windows operating system.

The AutoCAD Electrical 2021: Fundamentals with NFPA Standards training covers the indispensable core topics for working with the AutoCAD Electrical software. In this training, you will learn how to use many of the powerful electrical drawing creation tools in the AutoCAD Electrical software. You will create schematic drawings (ladder logic and point to point), panel drawings, and PLC-I/O circuits using automated commands for symbol insertion, component tagging, wire numbering, and drawing modification. In addition, you are introduced to methods of customizing AutoCAD Electrical symbols, circuits, and databases. Other topics covered include titleblock linking, reporting tools, templates, and project files.

AutoCAD Electrical 2022: Fundamentals with NFPA Standards

24 Hours | \$1,495

Schedules

03/08/2023 – 03/10/2023
04/05/2023 – 04/07/2023
05/10/2023 – 05/12/2023
06/07/2023 – 06/09/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD Electrical 2022: Fundamentals with NFPA Standards course covers the indispensable core topics for working with the AutoCAD Electrical software. In this course, you will learn how to use many of the powerful electrical drawing creation tools in the AutoCAD Electrical software. You will create schematic drawings (ladder logic and point to point), panel drawings, and PLC-I/O circuits using automated commands for symbol insertion, component tagging, wire numbering, and drawing modification. In addition, you are introduced to methods of customizing AutoCAD Electrical symbols, circuits, and databases. Other topics covered include titleblock linking, reporting tools, templates, and project files.

Autodesk AutoCAD Mechanical

AutoCAD 2023: 3D Drawing and Modeling

24 Hours | \$1,495

Schedules

03/06/2023 – 03/08/2023
04/03/2023 – 04/05/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2023: 3D Drawing and Modeling Course is designed for those using AutoCAD 2023 with a Windows operating system. This course is not designed for the AutoCAD for Mac software.

The AutoCAD 2023: 3D Drawing and Modeling course introduces users, who are proficient with the 2D commands in the AutoCAD software, to the concepts and methods of 3D modeling. The training provides a thorough grounding in the fundamentals of 3D and explores the main features of the advanced 3D Modeling workspace in the AutoCAD software.

AutoCAD 2023: Advanced

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/04/2023 – 04/06/2023
05/09/2023 – 05/11/2023
06/06/2023 – 06/08/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The AutoCAD 2023: Advanced course introduces advanced techniques and teaches you to be proficient in your use of the AutoCAD software.

This is done by teaching you how to recognize the best tool for the task, the best way to use that tool, and how to create new tools to accomplish tasks more efficiently.

AutoCAD Mechanical 2021: Essentials

32 Hours | \$2,195

Schedules

07/11/2023 – 07/14/2023
09/12/2023 – 09/15/2023
11/14/2023 – 11/17/2023

Learn core topics necessary for using AutoCAD Mechanical software!

This four-day AutoCAD online course provides you with relevant knowledge for accelerating the mechanical design process.

You develop skills for creating, manipulating geometry, automatically acquiring bills of materials, generating mechanical components, and performing design calculations. Altogether, the training enables you to maximize AutoCAD Mechanical's productivity benefits.

Autodesk Civil 3D

Autodesk Civil 3D 2021: Fundamentals

32 Hours | \$2,195

Schedules

07/24/2023 – 07/27/2023
09/25/2023 – 09/28/2023
11/13/2023 – 11/16/2023

This course is designed for Civil Engineers and Surveyors who want to take advantage of the Autodesk Civil 3D software's interactive, dynamic design functionality. The Autodesk Civil 3D software permits the rapid development of alternatives through its model-based design tools. You will learn techniques enabling you to organize project data, work with points, create and analyze surfaces, model road corridors, create parcel layouts, perform grading and volume calculation tasks, and lay out pipe networks.

Autodesk Civil 3D 2022 Grading

16 Hours | \$1,095

Schedules

03/09/2023 – 03/10/2023
04/13/2023 – 04/14/2023
05/11/2023 – 05/12/2023
06/15/2023 – 06/16/2023
07/13/2023 – 07/14/2023
08/10/2023 – 08/11/2023
09/14/2023 – 09/15/2023
10/12/2023 – 10/13/2023
11/16/2023 – 11/17/2023

The Autodesk Civil 3D 2022 software supports a wide range of civil engineering tasks and creates intelligent relationships between objects. The Autodesk Civil 3D 2022 Grading course is recommended for users that are required to create site grading plans using the Autodesk Civil 3D software. This Autodesk Civil 3D 2022 Grading training is also suited for managers who require an

overview and understanding of this aspect of the Autodesk Civil 3D software.

Users use feature lines, grading tools, and corridors to create a commercial site containing a parking lot, building pads, pond, and simple sewage lagoon. An existing road has been included in the survey and a survey team collected the existing conditions. Users also work on a residential site to grade a small subdivision for proper grading of each lot.

Autodesk Civil 3D 2022: Fundamentals

32 Hours | \$1,995

Schedules

03/13/2023 – 03/16/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/26/2023 – 06/29/2023
07/17/2023 – 07/20/2023
08/21/2023 – 08/24/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

The Autodesk Civil 3D 2022: Fundamentals course is designed for Civil Engineers and Surveyors who want to take advantage of the Autodesk Civil 3D software - interactive, dynamic design functionality. The Autodesk Civil 3D software permits the rapid development of alternatives through its model-based design tools. You will learn techniques enabling you to organize project data, work with points, create and analyze surfaces, model road corridors, create parcel layouts, perform grading and volume calculation tasks, and lay out pipe networks.

Autodesk Civil 3D 2022: Fundamentals for Grading Optimization

8 Hours | \$1,095

Schedules

03/16/2023 – 03/16/2023
04/20/2023 – 04/20/2023
05/18/2023 – 05/18/2023
06/22/2023 – 06/22/2023
07/14/2023 – 07/14/2023
08/11/2023 – 08/11/2023
09/15/2023 – 09/15/2023
10/13/2023 – 10/13/2023
11/17/2023 – 11/17/2023

The Autodesk Civil 3D 2022 software supports a wide range of civil engineering tasks and creates intelligent relationships between objects. Grading Optimization for Civil 3D has been provided by Autodesk as an alternative approach to designing grading solutions than those that are available in standard Civil 3D. It works in tandem with Civil 3D but is a separate application which processes many iterations of the grading parameters assigned in Civil 3D to create a grading solution.

The Autodesk Civil 3D 2022: Fundamentals for Grading Optimization Course is designed for users that will be using Grading Optimization for Civil 3D. In this Course, you will create a commercial site containing a pond, a parking lot, and building pads. For the existing surface, a survey team collected the existing conditions, including the Mission Avenue to the north of the site. Additionally, a series of proposed roads (Civil 3D corridors) have been created and included in the existing surface. You will also work on a residential site to grade a small subdivision for proper grading of each lot. The resulting grading can then be refined using the traditional Civil 3D grading tools, such as feature lines, grading tools, and corridors.

Autodesk Civil 3D 2022: Fundamentals for Surveyors

16 Hours | \$1,095

Schedules

03/13/2023 – 03/14/2023
04/03/2023 – 04/04/2023
05/08/2023 – 05/09/2023
06/05/2023 – 06/06/2023
07/12/2023 – 07/13/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/08/2023 – 11/09/2023

The Autodesk Civil 3D 2022: Fundamentals for Surveyors course is for surveyors and survey technicians that do not necessarily need all of the functionality that is taught in the Autodesk Civil 3D: Fundamentals course. This Autodesk Civil 3D 2022: Fundamentals for Surveyors training equips the surveyor with the basic knowledge required to use Autodesk Civil 3D efficiently in a typical daily workflow. Learn how to import converted field equipment survey data into a standardized environment in Autodesk Civil 3D and to use the automation tools to create an Existing Conditions Plan.

Data collection and traverses are also covered. Other topics that help in increasing efficiency include styles, correct AutoCAD drafting techniques, the methodology required to create linework effectively for variables used in defining symbology, surfaces, categorizing points, and using online maps.

Autodesk Civil 3D 2023: Beyond the Basics

16 Hours | \$1,195

Schedules

03/20/2023 – 03/21/2023
04/17/2023 – 04/18/2023
05/15/2023 – 05/16/2023
06/26/2023 – 06/27/2023
07/25/2023 – 07/26/2023
08/22/2023 – 08/23/2023
09/12/2023 – 09/13/2023
10/17/2023 – 10/18/2023
11/21/2023 – 11/22/2023

The Autodesk Civil 3D 2023: Beyond the Basics course is designed for civil engineers and surveyors who want to continue exploring the Autodesk Civil 3D software - interactive, dynamic design functionality.

It continues on from the topics covered in the Autodesk Civil 3D 2023: Essentials course and covers more sophisticated techniques that extend your mastery of the software.

This course looks at configuring the software, Civil 3D's styles and settings, alternative ways to create surfaces, and creating parcels. It also goes beyond the basics for more advanced corridor and pipe network design. Finally, it covers customizing sheet set properties and performing quantity take-offs and visualization.

Autodesk Civil 3D 2023: Essentials

24 Hours | \$1,645

Schedules

03/20/2023 – 03/22/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/26/2023 – 06/28/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The Autodesk Civil 3D 2023: Essentials course is designed for civil engineers and surveyors who want to take advantage of the Autodesk Civil 3D software - interactive, dynamic design functionality. The Autodesk Civil 3D software permits the rapid development of alternatives through its model-based design tools. You will learn techniques enabling you to organize project data, work with points, create and analyze surfaces, model road corridors, perform grading and volume calculation tasks, and lay out pipe networks.

Autodesk Civil 3D 2023: Fundamentals for Land Developers

16 Hours | \$1,095

Schedules

04/11/2023 – 04/12/2023
05/09/2023 – 05/10/2023
06/13/2023 – 06/14/2023
07/11/2023 – 07/12/2023
08/08/2023 – 08/09/2023

The Autodesk Civil 3D 2023 software supports a wide range of civil engineering tasks and creates intelligent relationships between objects. The Autodesk Civil 3D 2023: Fundamentals for Land Developers (Grading) course is recommended for users that are required to create site grading plans using the Autodesk Civil 3D software. This training is

also suited for managers who require an overview and understanding of this aspect of the Autodesk Civil 3D software.

Users use feature lines, grading tools, and corridors to create a commercial site containing a parking lot, building pads, pond, and simple sewage lagoon. An existing road has been included in the survey and a survey team collected the existing conditions.

Autodesk Civil 3D 2023: Fundamentals for Surveyors

16 Hours | \$1,095

Schedules

04/06/2023 – 04/07/2023
05/11/2023 – 05/12/2023
06/08/2023 – 06/09/2023
07/13/2023 – 07/14/2023
08/10/2023 – 08/11/2023
09/07/2023 – 09/08/2023
10/12/2023 – 10/13/2023
11/09/2023 – 11/10/2023

The Autodesk Civil 3D 2023: Fundamentals for Surveyors course is for surveyors and survey technicians that do not necessarily need all of the functionality that is taught in the Autodesk Civil 3D: Fundamentals training. This course equips the surveyor with the basic knowledge required to use Autodesk Civil 3D efficiently in a typical daily workflow. You will learn how to import converted field equipment survey data into a standardized environment in Autodesk Civil 3D and to use the automation tools to create an Existing Conditions Plan.

Data collection and traverses are also covered. Other topics that help in increasing efficiency include styles, correct AutoCAD drafting techniques, the methodology required to create linework effectively for variables used in defining symbology, surfaces, categorizing points, and using online maps.

Autodesk Fusion 360

Autodesk Fusion 360: Introduction to Parametric Modeling

24 Hours | \$1,645

Schedules

03/21/2023 – 03/23/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/16/2023 – 10/18/2023
11/13/2023 – 11/15/2023

Learn parametric design philosophy using Autodesk Fusion 360!

The three-day Autodesk Fusion 360 course provides you with the knowledge and skills necessary for designing models using the Fusion 360 software.

Autodesk Fusion 360: Introduction to Parametric Modeling is also the recommended training for earning the Autodesk Certified User (ACU) certification in Autodesk Fusion 360.

Autodesk Fusion 360: Introduction to Sculpting with T-Spline Surfaces

16 Hours | \$1,429

Schedules

03/15/2023 – 03/16/2023
04/19/2023 – 04/20/2023
05/17/2023 – 05/18/2023
06/21/2023 – 06/22/2023
07/12/2023 – 07/13/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/08/2023 – 11/09/2023

The Autodesk Fusion 360 software combines locally installed and cloud-based tools. It enables users to use parametric modeling and surface modeling techniques to create 3D designs. The Autodesk Fusion 360: Introduction to Sculpting with T-Spline Surfaces guide focuses on surface modeling and how to effectively use the FORM contextual environment of the DESIGN workspace. Through a hands-on, practice-intensive curriculum, you will learn the key skills and knowledge required to create organic, highly shaped, and visually appealing models.

Autodesk InfraWorks

Autodesk InfraWorks 2021: Fundamentals

24 Hours | \$1,645

Schedules

07/17/2023 – 07/19/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

The Autodesk InfraWorks 2021.1: Fundamentals course is designed for people using either of the following software packages:

Autodesk InfraWorks

Autodesk Architecture, Engineering and Construction Collection

The training provides you with a fundamental knowledge of the accelerated design process that uses data-rich 3D models with high-end visualizations. This enables you to create, evaluate, and better communicate 3D site plan proposals for faster approvals.

Autodesk InfraWorks 2022: Fundamentals

24 Hours | \$1,495

Schedules

03/22/2023 – 03/24/2023
04/19/2023 – 04/21/2023
05/24/2023 – 05/26/2023
06/21/2023 – 06/23/2023
07/17/2023 – 07/19/2023
08/21/2023 – 08/23/2023
09/18/2023 – 09/20/2023
10/16/2023 – 10/18/2023
11/13/2023 – 11/15/2023

The Autodesk InfraWorks 2022: Fundamentals course is designed for people using either of the following software packages:

- Autodesk InfraWorks

-Autodesk Architecture, Engineering and Construction Collection.

The course provides you with a fundamental knowledge of the accelerated design process that uses data-rich 3D models with high-end visualizations. This enables you to create, evaluate, and better communicate 3D site plan proposals for faster approvals.

Autodesk InfraWorks 2023: Fundamentals

24 Hours | \$1,495

Schedules

04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/14/2023 – 08/16/2023
09/11/2023 – 09/13/2023
10/16/2023 – 10/18/2023
11/13/2023 – 11/15/2023

This Course provides you with a fundamental knowledge of the accelerated design process that uses data-rich 3D models with high-end visualizations. This enables you to create, evaluate, and better communicate 3D site plan proposals for faster approvals.

Autodesk Inventor

Autodesk Inventor 2021 Advanced Assembly Modeling

24 Hours | \$1,645

Schedules

07/17/2023 – 07/19/2023
09/18/2023 – 09/20/2023
11/13/2023 – 11/15/2023

The Autodesk Inventor 2021: Advanced Assembly Modeling course builds on the skills acquired in the Autodesk Inventor 2021: Introduction to Solid Modeling and Autodesk Inventor 2021: Advanced Part Modeling course to take you to a higher level of productivity when creating and working with assemblies.

You begin by focusing on the Top-Down Design workflow. You learn how tools are used to achieve this workflow using Derive, Multi-Body Design, and Layouts. Other topics include model simplification tools, Positional and Level of Detail Representations, iMates and iAssemblies, Frame Generator, Design Accelerator, and file management and duplication techniques. A chapter has also been included about the Autodesk Inventor Studio to teach you how to render, produce, and animate realistic images.

Autodesk Inventor 2021 Advanced Part Modeling

16 Hours | \$1,095

Schedules

07/13/2023 – 07/14/2023
09/14/2023 – 09/15/2023
11/09/2023 – 11/10/2023

Autodesk Inventor 2021: Advanced Part Modeling is the second in a series of courses on the Autodesk Inventor software that is published by ASCENT. The goal of this course is to build on the skills acquired in the Autodesk Inventor: Introduction to Solid

Modeling learning course by taking users to a higher level of productivity when designing part models using the Autodesk Inventor software.

In this course, the user considers various approaches to part design. Specific advanced part modeling techniques covered include multi-body design, advanced lofts, advanced sweeps, coils, generative shape design, surface modeling, and freeform modeling. Material aimed at increasing efficiency includes iFeatures for frequently used design elements, iParts for similar designs, and how to work with imported data. The course also covers some miscellaneous drawing tools, such as custom sketched symbols, working with title blocks and borders, and documenting iParts.

Autodesk Inventor 2021: Cable and Harness Design

16 Hours | \$1,209

Schedules

08/21/2023 – 08/22/2023
10/16/2023 – 10/17/2023

The Autodesk Inventor 2021: Cable and Harness Design learning course provides instructions in the use of the Autodesk Inventor Cable and Harness environment. Through a hands-on, practice-intensive curriculum, students acquire the knowledge needed to design physical cables and harnesses for electrical systems in almost any kind of product or machine. With specific tools to incorporate cable and harness into digital prototypes, the Autodesk Inventor Cable and Harness Design software enables you to calculate accurate path lengths, avoid small-radius bends, and help ensure that electrical components fit into the mechanical assembly before manufacturing.

Autodesk Inventor 2021: Introduction for Experienced 3D CAD Users

24 Hours | \$1,649

Schedules

08/08/2023 – 08/10/2023

10/10/2023 – 10/12/2023

This hands-on, practice-intensive course is developed so that new users in the Autodesk Inventor software can benefit from a shorter, introductory-level guide. You are taught how to find and use the modeling tools associated with familiar modeling strategies that are used in other 3D CAD software. You will acquire the knowledge required to complete the process of creating models from conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2021: Introduction to Solid Modeling

40 Hours | \$3,295

Schedules

08/14/2023 – 08/18/2023

10/23/2023 – 10/27/2023

The Autodesk Inventor 2021: Introduction to Solid Modeling course provides you with an understanding of the parametric design philosophy through a hands-on, practice-intensive curriculum. You will learn the key skills and knowledge required to design models using Autodesk Inventor, starting with conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2021: Sheet Metal Design

16 Hours | \$1,649

Schedules

08/09/2023 – 08/10/2023

10/11/2023 – 10/12/2023

The Autodesk Inventor 2021: Sheet Metal Design course introduces the concepts and techniques of sheet metal modeling with the Autodesk Inventor software.

The structure of this course follows the typical stages of using the Autodesk Inventor software. That is, to create and edit sheet metal parts, generate flat patterns, and document the designs in drawings.

Autodesk Inventor 2021: Tube and Pipe Design

16 Hours | \$1,209

Schedules

08/15/2023 – 08/16/2023

10/10/2023 – 10/11/2023

The Autodesk Inventor 2021: Tube and Pipe Design learning course instructs you on the use of the Inventor Tube and Pipe environment. Through a hands-on, practice-intensive curriculum, you will acquire the knowledge needed to design routed elements, including tubing, piping, and flexible hose. With specific tools to incorporate tube and pipe runs into digital prototypes, the Inventor Tube and Pipe environment provides rules-based routing tools that select the correct fittings and helps the pipe run to comply with your standards for segment length, round-off increments, and bend radius, that you will learn to maximize.

Autodesk Inventor 2021: Working with 3D Annotations & Model-Based Definition

8 Hours | \$1,209

Schedules

08/16/2023 – 08/16/2023
10/12/2023 – 10/12/2023

Autodesk Inventor 2021: Working with 3D Annotations & Model-Based Definition teaches experienced Autodesk Inventor users how to create 3D annotations to support the visual presentation of annotations and a Model-based Definition (MBD) workflow.

The geometry designed in a 3D CAD modeling environment is created perfectly. During the manufacturing stage, it is not possible to achieve the same perfection. Variations in size, feature location, and orientation are unavoidable. This course instructs how to use the tools in Autodesk Inventor 2021 to create 3D annotations that communicate dimensional and GD&T data, hold/thread notes, surface texture requirements, and informational text-based annotations, all of which aim to improve manufacturing accuracy.

Autodesk Inventor 2022 Advanced Assembly Modeling

24 Hours | \$1,495

Schedules

03/06/2023 – 03/08/2023
04/03/2023 – 04/05/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The Autodesk Inventor 2022 Advanced Assembly Modeling course builds on the skills acquired in the Autodesk Inventor 2022: Introduction to Solid Modeling and Autodesk Inventor 2022: Advanced Part Modeling training to take you to a higher level of productivity when creating and working with assemblies.

Autodesk Inventor 2022 Advanced Part Modeling

16 Hours | \$995

Schedules

03/20/2023 – 03/21/2023
04/17/2023 – 04/18/2023
05/15/2023 – 05/16/2023
06/26/2023 – 06/27/2023
07/13/2023 – 07/14/2023
08/10/2023 – 08/11/2023
09/14/2023 – 09/15/2023
10/12/2023 – 10/13/2023
11/16/2023 – 11/17/2023

Autodesk Inventor 2022: Advanced Part Modeling is the second in a series of guides on the Autodesk Inventor software that is published by ASCENT. The goal of this course is to build on the skills acquired in the Autodesk Inventor: Introduction to Solid Modeling training by taking users to a higher level of productivity when designing part models using the Autodesk Inventor software.

In this course, the user considers various approaches to part design. Specific advanced part modeling techniques covered include bending and unwrapping model geometry, multi-body design, advanced lofts, advanced sweeps, coils, generative shape design, surface modeling, and freeform modeling. Material aimed at increasing efficiency includes iFeatures for frequently used design elements, model states and iParts for similar designs, and how to work with imported data.

Autodesk Inventor 2022: Fundamentals for CAM Users

16 Hours | \$995

Schedules

03/21/2023 – 03/22/2023
04/18/2023 – 04/19/2023
05/16/2023 – 05/17/2023
06/27/2023 – 06/28/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Autodesk Inventor 2022: Fundamentals for CAM Users course is intended to provide accelerated introductory training in the Autodesk Inventor software for users that will be primarily using the Inventor CAM functionality. This hands-on, practice-intensive training is developed to instruct users with the basic modeling and assembly skills that they may need to create or work with files that will be set up for manufacturing with Inventor CAM.

This course does not cover the Inventor CAM functionality. For Inventor CAM training, you should refer to the Autodesk Inventor 2022 CAM: Milling Fundamentals course. If more extensive Inventor modeling experience is required, it is recommended that you refer to the Autodesk Inventor 2022: Introduction to Solid Modeling training.

Autodesk Inventor 2022: Introduction for Experienced 3D CAD Users

24 Hours | \$1,495

Schedules

03/07/2023 – 03/09/2023
04/04/2023 – 04/06/2023
05/09/2023 – 05/11/2023
06/06/2023 – 06/08/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The Autodesk Inventor 2022: Introduction for Experienced 3D CAD Users course is intended to provide accelerated introductory training in the Autodesk Inventor software. This training is designed for users that have 3D modeling design experience with other 3D CAD software packages (e.g., CATIA, Pro/ENGINEER, Creo Parametric, NX, SolidWorks, etc.).

By leveraging the experience users gain in working with other 3D modeling software packages, this hands-on, practice-intensive course is developed so that new users in the Autodesk Inventor software can benefit from a shorter, introductory-level training. You are taught how to find and use the modeling tools associated with familiar modeling strategies that are used in other 3D CAD software. You will acquire the knowledge required to complete the process of creating models from conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2022: Introduction to Solid Modeling

40 Hours | \$2,995

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Autodesk Inventor 2022: Introduction to Solid Modeling course provides you with an understanding of the parametric design philosophy through a hands-on, practice-intensive curriculum. You will learn the key skills and knowledge required to design models using Autodesk Inventor, starting with conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2022: Sheet Metal Design

16 Hours | \$1,499

Schedules

03/14/2023 – 03/15/2023
04/11/2023 – 04/12/2023
05/16/2023 – 05/17/2023
06/13/2023 – 06/14/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Autodesk Inventor 2022: Sheet Metal Design course introduces the concepts and techniques of sheet metal modeling with the Autodesk Inventor software.

The structure of the training follows the typical stages of using the Autodesk Inventor software. That is, to create and edit sheet metal parts, generate flat patterns, and document the designs in drawings.

Autodesk Inventor 2022: Update for 2020/2021 Users

8 Hours | \$1,095

Schedules

03/17/2023 – 03/17/2023
04/21/2023 – 04/21/2023
05/19/2023 – 05/19/2023
06/23/2023 – 06/23/2023

The Autodesk Inventor 2022: Update for 2020/2021 Users course introduces the new concepts and modeling techniques that have been added to the 2021 and 2022 releases of the Autodesk Inventor software. The Autodesk Inventor 2022: Update for 2020/2021 Users training covers enhancements to the most commonly used environments and contains practices for applying the new concepts.

Autodesk Inventor 2023: Advanced Assembly Modeling

24 Hours | \$1,645

Schedules

03/21/2023 – 03/23/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The Autodesk Inventor 2023: Advanced Assembly Modeling course builds on the skills acquired in the

Autodesk Inventor 2023: Introduction to Solid Modeling and Autodesk Inventor 2023: Advanced Part Modeling training to take you to a higher level of productivity when creating and working with assemblies.

You begin by focusing on the Top-Down Design workflow. You learn how tools are used to achieve this workflow using Derive, Multi-Body Design, and Layouts. Other topics include model simplification tools, positional representations, model states, iMates and iAssemblies, Frame Generator, Design Accelerator, and file management and duplication techniques. A chapter has also been included about the Autodesk Inventor Studio that explains how to render, produce, and animate realistic images.

Autodesk Inventor 2023: Advanced Part Modeling

16 Hours | \$1,095

Schedules

03/14/2023 – 03/15/2023
05/16/2023 – 05/17/2023
06/13/2023 – 06/14/2023
07/18/2023 – 07/19/2023
08/15/2023 – 08/16/2023
09/19/2023 – 09/20/2023
10/17/2023 – 10/18/2023
11/21/2023 – 11/22/2023

Autodesk Inventor 2023: Advanced Part Modeling is the second in a series of course on the Autodesk Inventor software that is published by ASCENT. The goal of this course is to build on the skills acquired in the Autodesk Inventor: Introduction to Solid Modeling learning training by taking users to a higher level of productivity when designing part models using the Autodesk Inventor software.

In Autodesk Inventor 2023: Advanced Part Modeling, the user considers various approaches to part design. Specific advanced part modeling techniques covered include bending and unwrapping model

geometry, multi-body design, advanced lofts, advanced sweeps, coils, generative shape design, surface modeling, and freeform modeling. Material aimed at increasing efficiency includes iFeatures for frequently used design elements, model states and iParts for similar designs, and how to work with imported data. The course also covers some miscellaneous drawing tools, such as custom sketched symbols, working with title blocks and borders, and documenting iParts.

Autodesk Inventor 2023: Fundamentals for CAM Users

16 Hours | \$1,095

Schedules

03/21/2023 – 03/22/2023
04/18/2023 – 04/19/2023
05/16/2023 – 05/17/2023
06/27/2023 – 06/28/2023
07/25/2023 – 07/26/2023
08/22/2023 – 08/23/2023
09/12/2023 – 09/13/2023
10/17/2023 – 10/18/2023
11/21/2023 – 11/22/2023

The Autodesk Inventor 2023: Fundamentals for CAM Users is a hands-on, practice-intensive course designed to equip CAM users with basic modeling and assembly skills in Inventor that are required prior to setting up models in Inventor CAM for manufacturing. Note that this course does not cover any Inventor CAM functionality and is solely intended to provide introductory training in specific Inventor topics that are relevant only for CAM users. For instructions on Inventor CAM functionality, please refer to the Autodesk Inventor CAM: Milling Fundamentals training. Also, if extensive Inventor modeling experience is required, it is recommended that you refer to the Autodesk Inventor 2023: Introduction to Solid Modeling course.

Autodesk Inventor 2023: iLogic

16 Hours | \$995

Schedules

03/08/2023 – 03/09/2023
04/12/2023 – 04/13/2023
05/10/2023 – 05/11/2023
06/14/2023 – 06/15/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Autodesk Inventor 2023: iLogic course teaches you how to use the iLogic functionality that exists in the Autodesk Inventor 2023.1 software. In this practice-intensive curriculum, you will acquire the knowledge required to use iLogic to automate Autodesk Inventor designs.

In this Training, you will learn how iLogic functionality furthers the use of parameters in a model by adding an additional layer of intelligence. By setting criteria in the form of established rules, you learn how to capture design intent, enabling you to automate the design workflow to meet various design scenarios in part, assembly, and drawing files.

Autodesk Inventor 2023: Introduction for Experienced 3D CAD

24 Hours | \$1,645

Schedules

03/22/2023 – 03/24/2023
04/19/2023 – 04/21/2023
05/24/2023 – 05/26/2023
06/21/2023 – 06/23/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

The Autodesk Inventor: Introduction for Experienced 3D CAD Users course is intended for users with prior 3D modeling design experience in other 3D CAD software packages (e.g., CATIA, Pro/ENGINEER, Creo Parametric, NX, SolidWorks, etc.) who need to learn Autodesk Inventor. Users transitioning from 2D software packages (e.g., AutoCAD, MicroStation) to Inventor should refer to the Autodesk Inventor Introduction to Solid Modeling course.

The Autodesk Inventor: Introduction for Experienced 3D CAD Users training has been designed so that users, who have prior 3D modeling design experience but are new to Autodesk Inventor, can benefit from a shorter, introductory-level, accelerated course. This hands-on, practice-intensive curriculum provides instructions on how to use Inventor modeling tools while leveraging your knowledge of 3D CAD modeling strategies from other 3D CAD software.

Autodesk Inventor 2023: Introduction to Solid Modeling

40 Hours | \$3,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/02/2023 – 10/06/2023
11/13/2023 – 11/17/2023

The Autodesk Inventor 2023: Introduction to Solid Modeling course provides you with an understanding of the parametric design philosophy through a hands-on, practice-intensive curriculum. You will learn the key skills and knowledge required to design models using Autodesk Inventor, starting with conceptual sketching, through to solid modeling, assembly design, and drawing production.

Autodesk Inventor 2023: Sheet Metal Design

16 Hours | \$1,195

Schedules

03/15/2023 – 03/16/2023
04/19/2023 – 04/20/2023
05/17/2023 – 05/18/2023
06/21/2023 – 06/22/2023
07/18/2023 – 07/19/2023
08/15/2023 – 08/16/2023
09/19/2023 – 09/20/2023
10/17/2023 – 10/18/2023
11/21/2023 – 11/22/2023

The Autodesk Inventor 2023: Sheet Metal Design course introduces the concepts and techniques of sheet metal modeling with the Autodesk Inventor software.

The structure of the course follows the typical stages of using the Autodesk Inventor software.

Autodesk Inventor CAM 2021: Milling Fundamentals

16 Hours | \$1,209

Schedules

08/07/2023 – 08/08/2023
10/02/2023 – 10/03/2023

The Autodesk Inventor CAM 2021: Milling Fundamentals course focuses on instructing new users on how to use the Inventor CAM add-on to create milling toolpaths. The course begins with an introduction to the overall Inventor interface and explains how to manipulate your 3D model to change its orientation and view display. Through additional hands-on, practice-intensive curriculum, you will learn the key skills and knowledge required to take the 3D model, set it up in the CAM environment, and assign the 2D and 3D milling toolpaths needed to generate the CNC code required by milling machines.

Autodesk Inventor Nastran 2021.1 Essentials

16 Hours | \$1,095

Schedules

08/09/2023 – 08/10/2023
10/11/2023 – 10/12/2023

The Autodesk Inventor Nastran 2021.1: Essentials course instructs you in the use of the Autodesk Inventor Nastran software. This training was written using the 2021.1.0.407 build of the software. The software is a finite element analysis (FEA) tool that is embedded directly in the Autodesk Inventor software as an Add-In. It is powered by the Autodesk Nastran solver and offers simulation capabilities specifically tailored for designers and analysts as a tool for predicting the physical behavior of parts or assemblies under various boundary conditions. Through a hands-on, practice-intensive curriculum, students acquire the knowledge required to work in the Autodesk Inventor Nastran environment to setup and conduct FEA analyzes on part and assembly models.

Autodesk Naviswork

Autodesk Navisworks 2021: Fundamentals

24 Hours | \$1,645

Schedules

08/14/2023 – 08/16/2023
10/23/2023 – 10/25/2023

The Autodesk Navisworks 2021: Fundamentals course teaches you how to better predict project outcomes, reduce conflicts and changes, and achieve lower project risk using the Autodesk Navisworks Manage software in a BIM workflow.

Building Information Modeling (BIM) encompasses the entire building life cycle. BIM includes all phases of the design process, from model creation to construction and ending at operations and maintenance. Using a BIM workflow, you will learn how a design changes throughout the BIM process and how the changes affect the BIM model.

Autodesk Navisworks 2022: Fundamentals

24 Hours | \$1,645

Schedules

03/08/2023 – 03/10/2023
04/05/2023 – 04/07/2023
05/10/2023 – 05/12/2023
06/07/2023 – 06/09/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The Autodesk Navisworks 2022: Fundamentals course teaches you how to use the Autodesk Navisworks Manage software in a BIM workflow to better predict project outcomes, reduce conflicts, minimize changes, and lower project risks.

The training provides instructions on how to consolidate civil, architectural, structural, and MEP models into a single BIM model and check for conflicts. It also discusses how to use the Review and Markup tools to communicate issues across disciplines, the Quantification module to create estimates for building material, and the TimeLiner, Animator, and Clash Detective to simulate construction and to identify any constructibility issues and on-site clashes. Finally, it describes how to use the Rendering feature of the software to better communicate design intent to the project team and other stakeholders.

This course is designed for new and experienced users of the Autodesk Navisworks software in multiple disciplines.

Autodesk Navisworks 2023: Fundamentals

24 Hours | \$1,645

Schedules

04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/14/2023 – 06/16/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The Autodesk Navisworks 2023: Fundamentals Course teaches you how to use the Autodesk Navisworks Manage software in a BIM workflow to better predict project outcomes, reduce conflicts, minimize changes, and lower project risks.

The Training provides instructions on how to consolidate civil, architectural, structural, and MEP models into a single BIM model and check for conflicts. It also discusses how to use the Review and Markup tools to communicate issues across disciplines, the Quantification module to create

estimates for building material, and the TimeLiner, Animator, and Clash Detective to simulate construction and to identify any constructibility issues and on-site clashes. Finally, it describes how to use the Rendering feature of the software to better communicate design intent to the project team and other stakeholders.

This course is designed for new and experienced users of the Autodesk Navisworks software in multiple disciplines.

Autodesk Plant Design

Autodesk Introduction to Plant Design 2021

32 Hours | \$2,195

Schedules

07/18/2023 – 07/21/2023

09/05/2023 – 09/08/2023

11/14/2023 – 11/17/2023

In this training, learn how to use the AutoCAD P&ID 2021, AutoCAD Plant 3D 2021, and Autodesk Navisworks 2021 software products to complete a plant design project. This course comprises of five chapters including lessons, exercises, and review questions. The training provides a comprehensive overview that includes all common workflows for plant design plus a focus on project setup and administration.

Autodesk Revit

Autodesk Revit 2021: Fundamentals for MEP

32 Hours | \$2,195

Schedules

08/22/2023 – 08/25/2023

10/24/2023 – 10/27/2023

To take full advantage of Building Information Modeling, the Autodesk Revit 2021 Fundamentals for MEP course has been designed to teach the concepts and principles of creating 3D parametric models of MEP system from engineering design through construction documentation.

This course is intended to introduce users to the software's user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The course will also familiarize users with the tools required to create, document, and print the parametric model. The examples and practices are designed to take the users through the basics of a full MEP project from linking in an architectural model to construction documents.

Get Started Now! FREE 5-Hour Autodesk Revit e-Learning Bundle – Learn On-Demand.

Autodesk Revit 2021: Fundamentals for Structure

32 Hours | \$2,195

Schedules

08/08/2023 – 08/11/2023
10/03/2023 – 10/06/2023

The Autodesk Revit 2021: Fundamentals for Structure course has been designed to teach the concepts and principles of creating 3D parametric models of structural buildings from engineering design through construction documentation.

This course is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model. The examples and practices are designed to take you through the basics of a full structural project, from linking in an architectural model to construction documents.

Autodesk Revit 2022 BIM Management: Template and Family Creation

16 Hours | \$1,095

Schedules

03/08/2023 – 03/09/2023
04/12/2023 – 04/13/2023
05/10/2023 – 05/11/2023
06/14/2023 – 06/15/2023
07/11/2023 – 07/12/2023
08/08/2023 – 08/09/2023
09/12/2023 – 09/13/2023
10/17/2023 – 10/18/2023
11/14/2023 – 11/15/2023

Building Information Modeling (BIM) is an approach to the entire building life cycle. Autodesk Revit is a powerful BIM program for architecture, MEP, and structure that supports the ability to coordinate, update, and share design data with team members throughout the design construction and management phases of a building - life. A key component in managing the BIM process is to establish a company foundation for different types of projects by creating standard templates and custom family elements. Having this in place makes the process of any new project flow smoothly and efficiently.

The objective of the Autodesk Revit 2022 BIM Management: Template and Family Creation course is to enable users who have worked with the software to expand their knowledge in setting up office standards with templates that include annotation styles, preset views, sheets, and schedules, as well as creating custom system, in-place, and component families.

This training contains practices that are specific to each discipline.

Autodesk Revit 2022: Fundamentals for Architecture & Structure

32 Hours | \$5,428

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The course streamlines the

design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

To take full advantage of Building Information Modeling, the Autodesk Revit 2022 Structure Fundamentals course has been designed to teach the concepts and principles from building design through construction documentation using the Autodesk Revit 2022 Structure software. Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

This course is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model.

Autodesk Revit 2022: Fundamentals for Interior Design

32 Hours | \$2,195

Schedules

03/06/2023 – 03/09/2023
04/10/2023 – 04/13/2023
05/08/2023 – 05/11/2023
06/05/2023 – 06/08/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Autodesk Revit 2022: Fundamentals for Interior Design course teaches interior designers how to

complete an interior design project using Autodesk Revit. Users will create a full 3D interior design project using non-structural objects, including interior walls, doors, windows, components, floors, and ceilings. This training takes users through the design development process using Revit, including how to navigate the user interface, use the basic drawing, editing, and viewing tools, design and develop a model, and create final construction documents to present designs to stakeholders.

Autodesk Revit 2022: Fundamentals for MEP

32 Hours | \$2,195

Schedules

03/13/2023 – 03/16/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/26/2023 – 06/29/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

To take full advantage of Building Information Modeling, the Autodesk Revit 2022: Fundamentals for MEP course has been designed to teach the concepts and principles of creating 3D parametric models of MEP system from engineering design through construction documentation.

This training is intended to introduce users to the software - user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The course will also familiarize users with the tools required to create, document, and print the parametric model.

Autodesk Revit 2022: Fundamentals for Structure

32 Hours | \$1,995

Schedules

07/17/2023 – 07/20/2023
08/21/2023 – 08/24/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

To take full advantage of Building Information Modeling, the Autodesk Revit 2022: Fundamentals for Structure course has been designed to teach the concepts and principles of creating 3D parametric models of structural buildings from engineering design through construction documentation.

This training is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model. The examples and practices are designed to take you through the basics of a full structural project, from linking in an architectural model to construction documents.

Autodesk Revit 2023 BIM Management: Template and Family Creation

16 Hours | \$1,429

Schedules

07/25/2023 – 07/26/2023
08/22/2023 – 08/23/2023
09/12/2023 – 09/13/2023
10/17/2023 – 10/18/2023
11/21/2023 – 11/22/2023

Building Information Modeling (BIM) is an approach to the entire building life cycle. Autodesk Revit is a powerful BIM program for architecture, MEP, and

structure that supports the ability to coordinate, update, and share design data with team members throughout the design construction and management phases of a building - life. A key component in managing the BIM process is to establish a company foundation for different types of projects by creating standard templates and custom family elements. Having this in place makes the process of any new project flow smoothly and efficiently.

The objective of the Autodesk Revit 2022 BIM Management: Template and Family Creation course is to enable users who have worked with the software to expand their knowledge in setting up office standards with templates that include annotation styles, preset views, sheets, and schedules, as well as creating custom system, in-place, and component families.

This course contains practices that are specific to each discipline.

Autodesk Revit 2023: Fundamentals for Architecture

32 Hours | \$1,995

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

The objective of the Autodesk Revit 2023: Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

Autodesk Revit 2023: Fundamentals for Structure

32 Hours | \$1,995

Schedules

07/18/2023 – 07/21/2023
08/15/2023 – 08/18/2023
09/05/2023 – 09/08/2023
10/03/2023 – 10/06/2023
11/14/2023 – 11/17/2023

This Course is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model. The examples and practices are designed to take you through the basics of a full structural project, from linking in an architectural model to construction documents.

Autodesk Revit Architecture

Autodesk Revit 2021: Fundamentals for Architecture

32 Hours | \$2,195

Schedules

08/21/2023 – 08/24/2023
10/23/2023 – 10/26/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

The objective of the Autodesk Revit 2021: Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

This course prepares you for the Autodesk Certified Professional in Revit for Architectural Design Exam.

09/05/2023 – 09/08/2023
10/03/2023 – 10/06/2023
11/14/2023 – 11/17/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

The objective of the Autodesk Revit 2022: Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

Autodesk Revit 2022: Fundamentals for Architecture & Structure

32 Hours | \$5,428

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The course streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

To take full advantage of Building Information Modeling, the Autodesk Revit 2022 Structure Fundamentals course has been designed to teach the concepts and principles from building design

through construction documentation using the Autodesk Revit 2022 Structure software. Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

This course is intended to introduce you to the user interface and the basic building components of the software that makes Autodesk Revit a powerful and flexible structural modeling tool. The goal is to familiarize you with the tools required to create, modify, analyze, and document a parametric model. The examples and practices are designed to take you through the basics of a full structural project, from linking in an architectural model, to construction documents.

Autodesk Revit 2022: Fundamentals for Interior Design

32 Hours | \$2,195

Schedules

03/06/2023 – 03/09/2023
04/10/2023 – 04/13/2023
05/08/2023 – 05/11/2023
06/05/2023 – 06/08/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Autodesk Revit 2022: Fundamentals for Interior Design course teaches interior designers how to complete an interior design project using Autodesk Revit. Users will create a full 3D interior design project using non-structural objects, including interior walls, doors, windows, components, floors,

and ceilings. This training takes users through the design development process using Revit, including how to navigate the user interface, use the basic drawing, editing, and viewing tools, design and develop a model, and create final construction documents to present designs to stakeholders.

This course is applicable for interior designers focused on non-structural interior design projects. For instructional content focused on architectural projects, consider the Autodesk Revit 2022: Fundamentals for Architecture course.

Autodesk Revit 2023 Architecture: Conceptual Design and Visualization

8 Hours | \$1,095

Schedules

07/14/2023 – 07/14/2023
08/11/2023 – 08/11/2023
09/15/2023 – 09/15/2023
10/13/2023 – 10/13/2023
11/17/2023 – 11/17/2023

As architects and designers start a project, they frequently think about the overall massing of a building or the area of the footprint. The Autodesk Revit software, using its powerful Building Information Modeling (BIM) engine, includes tools for creating mass elements that can be modified into many shapes. You can then apply walls, roofs, and floors to them to continue designing. You can use space planning tools to set up areas for rooms and colors to mark the different areas. For presentations, you can create, embellish, and render perspective views.

The objective of the Autodesk Revit 2023 Architecture: Conceptual Design and Visualization course is to enable users who have worked with the Autodesk Revit software to expand their knowledge in the area of conceptual design, including massing studies, space planning, visualization, and rendering.

Autodesk Revit 2023: Fundamentals for Architecture

32 Hours | \$1,995

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Autodesk Revit software is a powerful Building Information Modeling (BIM) program that works the way architects think. The program streamlines the design process through the use of a central 3D model, where changes made in one view update across all views and on the printable sheets.

The objective of the Autodesk Revit 2023: Fundamentals for Architecture course is to enable you to create a full 3D architectural project model, including walls, doors, windows, components, floors, ceilings, roofs, and stairs, using the basic tools that the majority of architectural users need. This includes how to navigate the user interface and use the basic drawing, editing, and viewing tools. The final part of the course focuses on creating construction documents.

Autodesk Vault

Autodesk Vault Basic 2023: Essentials

24 Hours | \$1,495

Schedules

03/06/2023 – 03/08/2023
04/03/2023 – 04/05/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

The Autodesk Vault Basic 2023: Essentials learning course introduces Autodesk Vault Basic 2023 to end users and CAD administrators. Autodesk Vault Basic is the foundation module of the data management solution from Autodesk, enabling users to consolidate and organize all product information securely for easy reference, sharing, and reuse purposes.

This learning course is intended for users and CAD administrators who need to access their design files from Autodesk Vault Basic. It focuses on capabilities for managing design files and related documentation. Hands-on exercises are included to reinforce how to manage the design workflow process using Autodesk Vault Basic.

Autodesk Vault Professional 2021: Data Management for Autodesk Inventor Users

8 Hours | \$545

Schedules

08/08/2023 – 08/08/2023

10/11/2023 – 10/11/2023

Autodesk Vault Professional 2021: Data Management for Autodesk Inventor Users introduces the Autodesk Vault Professional 2021 software to Autodesk Inventor users. This course is intended for Autodesk Inventor users who need to access their design files from the Autodesk Vault software. It provides an introduction to the Autodesk Vault Professional software and focuses on Autodesk Vault's features for managing design projects with the Autodesk Inventor software from a user's perspective.

You can use the Autodesk Vault Professional 2021 software and should use the Autodesk Inventor 2021 software to complete the exercises in this course. Note that this course does not cover administrative functionality. Hands-on exercises are included to reinforce how to manage the design workflow process using the Autodesk Vault Professional software. Included with this course is a training Vault that can be used alongside a production Vault, to ensure that both Vaults can be accessed from the Autodesk Vault software.

Autodesk Vault Professional 2022 Data Management for Autodesk Inventor Users

8 Hours | \$545

Schedules

07/14/2023 – 07/14/2023

08/11/2023 – 08/11/2023

09/12/2023 – 09/12/2023

10/16/2023 – 10/16/2023

11/13/2023 – 11/13/2023

Autodesk Vault Professional 2022: Data Management for Autodesk Inventor Users introduces the Autodesk Vault Professional 2022 software to Autodesk Inventor users. This course is intended for Autodesk Inventor users who need to access their design files from the Autodesk Vault software. It provides an introduction to the Autodesk Vault Professional software and focuses on Autodesk Vault's features for managing design projects with the Autodesk Inventor software from a user's perspective.

You can use the Autodesk Vault Professional 2022 software and should use the Autodesk Inventor 2022 software to complete the exercises in this course. Note that this training does not cover administrative functionality. Hands-on exercises are included to reinforce how to manage the design workflow process using the Autodesk Vault Professional software. This is a training Vault that can be used alongside a production Vault, to ensure that both Vaults can be accessed from the Autodesk Vault software.

Autodesk Vault Professional 2023: Data Management for Autodesk Inventor Users

8 Hours | \$995

Schedules

03/21/2023 – 03/21/2023

04/18/2023 – 04/18/2023

05/23/2023 – 05/23/2023

06/20/2023 – 06/20/2023

07/10/2023 – 07/10/2023

08/07/2023 – 08/07/2023

09/12/2023 – 09/12/2023

10/10/2023 – 10/10/2023

11/13/2023 – 11/13/2023

Autodesk Vault Professional 2023: Data Management for Autodesk Inventor Users introduces the Autodesk Vault Professional 2023 software to Autodesk Inventor users. This course is

intended for Autodesk Inventor users who need to access their design files from the Autodesk Vault software. It provides an introduction to the Autodesk Vault Professional software and focuses on Autodesk Vault’s features for managing design projects with the Autodesk Inventor software from a user’s perspective.

You can use the Autodesk Vault Professional 2023 software and should use the Autodesk Inventor 2023 software to complete the exercises in this course. Note that this training does not cover administrative functionality. Hands-on exercises are included to reinforce how to manage the design workflow process using the Autodesk Vault Professional software. Included with this guide is a training Vault that can be used alongside a production Vault, to ensure that both Vaults can be accessed from the Autodesk Vault software.

AWS Architect

Advanced Architecting on AWS

24 Hours | \$2,095

Schedules

03/20/2023 – 03/22/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/13/2023 – 11/15/2023

Take the Advanced Architecting on AWS course and practically learn how to address architectural challenges on the AWS cloud.

Advanced Architecting on AWS training covers how to build complex solutions that incorporate data services, governance, and security on AWS. It introduces specialized AWS services, including AWS

Direct Connect and AWS Storage Gateway to support hybrid architectures. The course also covers best practices for designing and building scalable, elastic, secure, and highly available applications on AWS.

By enrolling in the Advanced Architecting on AWS course, you will learn best practices for building scalable, elastic, secure, and highly available applications on AWS.

Note: Lab time available only for class duration and not beyond. Additional lab charges applicable for - repeat students. - parDownload AWS Certification Path and plan your training to get AWS Certified Solutions Architect-Professional Certification. Fill the form and contact our team to learn more about AWS certified solutions architect online training.

Start your AWS Solutions Architect Professional training journey with official AWS e-Learning courses.

Get access to some of the popular e-Learning courses:

- Introduction to Amazon Virtual Private Cloud (VPC)
- Introduction to Amazon Elastic Compute Cloud (EC2)
- Architecting Serverless Solutions on AWS
- Introduction to AWS Fargate

Advanced AWS Well-Architected Best Practices

8 Hours | \$695

Schedules

03/22/2023 – 03/22/2023
05/25/2023 – 05/25/2023
07/14/2023 – 07/14/2023

Advanced AWS Well-Architected Best Practices course provides a deep dive into Amazon Web

Services (AWS) best practices to help you perform effective and efficient AWS Well-Architected Framework Reviews. Interact with a knowledgeable instructor and understand the phases of a review, including how to prepare, run, and get guidance after a review has been performed. Attendees should have familiarity with the AWS concepts, terminology, services, and tools that are covered in the intermediate, 200-level AWS Well-Architected Best Practices. This course provides an AWS Well-Architected Framework Review simulation and instructor-led group exercises and discussions regarding prioritizing and solution risks. The content focuses on teaching learners how to prepare proposals on high and medium-risk issues using the AWS Well-Architected Tool.

Get access to AWS Digital Training and learn at your own pace. Explore AWS Well-Architected Framework – Cost Optimization Pillar, AWS Well-Architected Framework – Operational Excellence Pillar, AWS Well-Architected Framework – Performance Efficiency Pillar and more. START NOW

Architecting on AWS

24 Hours | \$2,095

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/06/2023 – 09/08/2023
10/11/2023 – 10/13/2023
11/06/2023 – 11/08/2023

Take the Architecting on AWS course and get a practical learning experience on designing and building cutting-edge solutions on the AWS cloud.

The Architecting on AWS course focuses on the fundamentals of building IT infrastructure on the AWS platform. You will learn how to optimize AWS Cloud through an understanding of various AWS services and how they fit into cloud-based solutions. Best practices and cloud infrastructure design patterns are covered in this training to help you architect optimal IT solutions on the AWS Cloud. Build and explore a variety of infrastructures through guided discussions and hands-on activity.

In the Architecting on AWS training, you will learn to identify services and features to build resilient, secure, and highly available IT solutions in the AWS Cloud, through a series of use case scenarios and practical learning. AWS Expert Instructors emphasize best practices using the AWS Well-Architected Framework and guide you through the process of designing optimal IT solutions, based on real-life scenarios. At the end of the course, you will apply what you have learned and practice building a solution with confidence.

The AWS Architect training is recommended for earning the AWS Certified Solutions Architect-Associate certification.

Start your AWS cloud architect training journey with official AWS free e-Learning courses.

Learn some of the popular AWS cloud architecting concepts:

Introduction to Amazon EC2

Amazon Elastic Load Balancer – Application

Amazon Route 53

Architecting on AWS – Accelerator

40 Hours | \$3,895

Schedules

04/24/2023 – 04/28/2023
06/26/2023 – 06/30/2023
08/21/2023 – 08/25/2023
10/23/2023 – 10/27/2023

This course covers all aspects of how to architect for the cloud over four-and-a-half-days. It covers topics from Architecting on AWS and Advanced Architecting on AWS to offer an immersive course in cloud architecture. You will learn how to design cloud architectures, starting small and working to large-scale enterprise level designs and everything in between. Starting with the Well-Architected Framework, you will learn important architecting information for AWS services including: compute, storage, database, networking, security, monitoring, automation, optimization, benefits of de-coupling applications and serverless, building for resilience, and understanding costs.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

AWS Cloud Financial Management for Builders

24 Hours | \$2,095

Schedules

05/22/2023 – 05/24/2023
08/21/2023 – 08/23/2023
11/27/2023 – 11/29/2023

Manage cloud cost effectively. Learn the techniques and best practices to optimize cloud cost from experts

This course is for individuals who seek an understanding of how to manage, optimize, and predict costs as you run workloads on AWS. You learn how to implement architectural best practices, explore cost optimization strategies, and design patterns to help you architect cost-efficient solutions on AWS.

AWS Well-Architected Best Practices

8 Hours | \$695

Schedules

04/14/2023 – 04/14/2023
06/09/2023 – 06/09/2023
08/11/2023 – 08/11/2023
10/17/2023 – 10/17/2023

Learn how to evaluate cloud architectures and implement the best design practices. Improve the security, reliability, performance efficiency, operational excellence and optimize cost of your AWS architectures. The Well-Architected Framework enables you to make informed decisions about your customers - architectures and understand the impact of design decisions on the cloud. By using the Well-Architected Framework, you will understand the risks in your architecture and ways to mitigate them. This course is designed to provide a deep dive into the AWS Well-Architected Framework and its 5 pillars. Learners can understand the Well-Architected review process, and how to use the AWS Well-Architected tool to conduct reviews.

Note:

- Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.
- The aligned AWS Certified Solutions Architect – Associate certification is approved by Army Credentialing Assistance (CA).

Exam Readiness Intensive Workshop: AWS Certified Solutions Architect – Associate

40 Hours | \$3,500

Schedules

03/13/2023 – 03/17/2023
05/15/2023 – 05/19/2023
07/24/2023 – 07/28/2023
09/25/2023 – 09/29/2023

This five-day, instructor-led course helps busy architects get away from the day-to-day to get focused and ready for their AWS Certified Solutions Architect – Associate exam. Attendees learn the fundamentals of building IT infrastructure on AWS, so they can build scalable and resilient solutions in the cloud, by spending the first 3 days on the Architecting on AWS course. They - I start getting in the exam readiness mindset with bonus end of module quizzes. Next, they - I learn strategies to answer exam questions and avoid common mistakes with the Exam Readiness: AWS Certified Solutions Architect – Associate half-day course. The course broadens attendees - ¢ knowledge of AWS services with deep dives into Amazon Redshift, Amazon Kinesis, and AWS Key Management Service, and then concludes with two quizzes and an instructor guided

AWS Big Data

Building Batch Data Analytics Solutions on AWS

8 Hours | \$695

Schedules

03/22/2023 – 03/22/2023
04/18/2023 – 04/18/2023
05/23/2023 – 05/23/2023
06/21/2023 – 06/21/2023
07/18/2023 – 07/18/2023
08/22/2023 – 08/22/2023
09/19/2023 – 09/19/2023
10/17/2023 – 10/17/2023
11/28/2023 – 11/28/2023

Building Batch Data Analytics Solutions on AWS course is designed to develop the in-house skills required to support managed data analytics services in the cloud.

In Building Batch Data Analytics Solutions on AWS course, you will learn to build batch data analytics solutions using Amazon EMR, an enterprise-grade Apache Spark, and Apache Hadoop managed service. In this training you will learn how Amazon EMR integrates with open-source projects such as Hive, Hue, and HBase, and with AWS services such as AWS Glue and AWS Lake Formation. The course addresses data collection, ingestion, cataloging, storage, and processing components in the context of Spark and Hadoop. You will learn to use EMR Notebooks to support both analytics and machine learning workloads. You will also learn to apply security, performance, and cost management best practices to the operation of Amazon EMR. The course prepares you for the AWS Data Analytics certification.

Note: Lab time is available only for class duration and not beyond. Additional lab charges apply for - repeat students.

Building Data Analytics Solutions Using Amazon Redshift

8 Hours | \$695

Schedules

03/24/2023 – 03/24/2023
04/20/2023 – 04/20/2023
05/25/2023 – 05/25/2023
06/23/2023 – 06/23/2023
07/20/2023 – 07/20/2023
08/24/2023 – 08/24/2023
09/21/2023 – 09/21/2023
10/19/2023 – 10/19/2023
11/30/2023 – 11/30/2023

Note: The Big Data on AWS course is scheduled to retire on June 30, 2022. Following are the replacement recommendations for Big data on AWS:

- **Building Data Lakes on AWS**
- **Building Batch Data Analytics Solutions on AWS**
- **Building Data Analytics Solutions using Amazon Redshift**

Get practical training on building and operating data analytics pipelines using Amazon Redshift. The Building Data Analytics Solutions Using Amazon Redshift course uses an Amazon Redshift data warehouse as part of the data analytics solution. You will get exposure to the data collection, ingestion, cataloging, storage, and processing components of the analytics pipeline. You will design and build data analytics solutions for data warehousing use cases. You will learn how a data warehouse can be integrated into a data lake or a modern data architecture. In this training, you will also learn to apply best practices to support security, performance, and cost optimization of Amazon Redshift. Aspirants who have knowledge of building data lakes on AWS can take up the course and pursue their career goals.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Building Data Lakes on AWS

8 Hours | \$695

Schedules

03/21/2023 – 03/21/2023
04/17/2023 – 04/17/2023
05/22/2023 – 05/22/2023
06/20/2023 – 06/20/2023
07/17/2023 – 07/17/2023
08/21/2023 – 08/21/2023
09/18/2023 – 09/18/2023
10/16/2023 – 10/16/2023
11/27/2023 – 11/27/2023

Note: The Big Data on AWS course is scheduled to retire on June 30, 2022. Following are the replacement recommendations for Big data on AWS:

- **Building Data Lakes on AWS**
- **Building Batch Data Analytics Solutions on AWS**
- **Building Data Analytics Solutions using Amazon Redshift**

Data lakes can provide powerful business insights. Learn how to build and secure data lakes on AWS with hands-on training. Building Data Lakes on AWS course will teach you how to develop an operational data lake that supports analysis of both structured and unstructured data. You will learn the components and functionality of the services

involved in creating a data lake. In Building Data Lakes on AWS course, you will use AWS Lake Formation to build a data lake, AWS Glue to build a data catalog, and Amazon Athena to analyze data. The course lectures and labs further support you with the exploration of several common data lakes.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Building Modern Data Analytics Solutions on AWS

32 Hours | \$2,775

Schedules

03/21/2023 – 03/24/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/21/2023 – 08/24/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/27/2023 – 11/30/2023

The Building Modern Data Analytics Solutions on AWS collection of one-day, intermediate level instructor-led courses dives deep into Amazon Lake Formation, Amazon Glue, Amazon EMR, Amazon Kinesis, and Amazon Redshift and the current thinking in building and operating data analytics pipelines to turn data into insights.

Wherever you or your customers are at in the data modernization journey, our Building Modern Data Analytics Solutions on AWS collection of courses let

you select the right training to meet your specific learning needs.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Start your AWS Big Data journey by accessing Official AWS e-Learning for FREE. Learn AWS Analytics Services Overview, Introduction to Amazon Athena, Introduction to Amazon Kinesis Analytics, and more.

Building Streaming Data Analytics Solutions on AWS

8 Hours | \$695

Schedules

03/23/2023 – 03/23/2023
04/19/2023 – 04/19/2023
05/24/2023 – 05/24/2023
06/22/2023 – 06/22/2023
07/19/2023 – 07/19/2023
08/23/2023 – 08/23/2023
09/20/2023 – 09/20/2023
10/18/2023 – 10/18/2023
11/29/2023 – 11/29/2023

In this course, you will learn to build streaming data analytics solutions using AWS services, including Amazon Kinesis and Amazon Managed Streaming for Apache Kafka (Amazon MSK). Amazon Kinesis is a massively scalable and durable real-time data streaming service. Amazon MSK offers a secure, fully managed, and highly available Apache Kafka service. You will learn how Amazon Kinesis and Amazon MSK integrate with AWS services such as AWS Glue and AWS Lambda. The course addresses the streaming data ingestion, stream storage, and stream processing components of the data analytics pipeline. You will also learn to apply security, performance, and cost management best practices to the operation of Kinesis and Amazon MSK.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Data Warehousing on AWS

24 Hours | \$2,095

Schedules

03/27/2023 – 03/29/2023
04/17/2023 – 04/19/2023
05/22/2023 – 05/24/2023
06/12/2023 – 06/14/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/11/2023 – 09/13/2023
10/18/2023 – 10/20/2023
11/13/2023 – 11/15/2023

Learn how to make the most of your business data by developing cutting-edge AWS data warehousing solutions

Data Warehousing on AWS introduces you to concepts, strategies, and best practices for designing a cloud-based data warehousing solution using Amazon Redshift, the petabyte-scale data warehouse in AWS. This course demonstrates how to collect, store, and prepare data for the data warehouse by using AWS services such as Amazon DynamoDB, Amazon EMR, Amazon Kinesis, and Amazon S3. Additionally, this course demonstrates how to use Amazon QuickSight to perform analysis on your data.

Note: Lab time available only for class duration and not beyond. Additional lab charges apply for - repeat students.

Exam Readiness: AWS Certified Data Analytics – Specialty

8 Hours | \$695

Schedules

03/31/2023 – 03/31/2023
06/23/2023 – 06/23/2023
09/22/2023 – 09/22/2023

Take the AWS Data Analytics certification exam with confidence. Learn how to interpret the questions and answer. A valuable training session that gives you insights about the AWS certification exam.

The AWS Certified Data Analytics – Specialty course, validates your ability to design, implement, deploy, and maintain data analytic solutions. In this course, you - I learn about the logistics of the exam and the mechanics of exam questions, and you - I explore the exam - technical domains.

You - I also learn key test-taking strategies and will put them into action by working through multiple study questions. Once you - e honed your skills, you - I have the chance to take a quiz that will help you assess your areas of strength and weakness so that you - I know what to emphasize in your pre-exam studies.

Planning and Designing Databases on AWS

24 Hours | \$2,095

Schedules

04/17/2023 – 04/19/2023
06/26/2023 – 06/28/2023
08/28/2023 – 08/30/2023
10/23/2023 – 10/25/2023

Master the art of designing databases for your AWS cloud workloads. Explore all the AWS features and services available for building databases.

In this course, you will learn about the process of planning and designing both relational and nonrelational AWS databases. It will teach you how to use workload requirements to define database design considerations and also explore the features and capabilities of the eight AWS database services. By the end of the course, you will be able to determine which AWS database service is right for your workloads and design the database to meet your requirements.

This course leads to AWS Certified Database – Specialty Certification.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

AWS Developer

Advanced Developing on AWS

24 Hours | \$2,095

Schedules

04/18/2023 – 04/20/2023
06/20/2023 – 06/22/2023
08/14/2023 – 08/16/2023
10/18/2023 – 10/20/2023

The Advanced Developing on AWS course uses the real-world scenario of taking a legacy, on-premises monolithic application and refactoring it into a serverless microservices architecture. This three-day advanced course covers advanced development topics such as architecting for a cloud-native environment; deconstructing on-premises, legacy applications and repackaging them into Cloud-based cloud-native architectures; and applying the tenets of the Twelve-Factor Application methodology.

Note: Lab time is available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Developing on AWS

24 Hours | \$2,095

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/14/2023 – 08/16/2023
09/06/2023 – 09/08/2023
10/11/2023 – 10/13/2023
11/06/2023 – 11/08/2023

Developing on AWS course teaches experienced developers how to programmatically interact with AWS services to build web solutions. It guides you through a high-level architectural discussion on resource selection and dives deep into developing on AWS using the AWS Software Development Kits (AWS SDKs) and Command Line Interface (AWS CLI) to build and deploy your cloud applications. You will build a sample application during this course, learning how to set up permissions to the development environment, add business logic to process data using AWS core services, configure user authentications, deploy to AWS cloud, and debug to resolve application issues. This training includes code examples to help you implement the design patterns and solutions discussed in the course. The labs reinforce key course content and help you to implement solutions using the AWS SDK for Python, .Net and Java, the AWS CLI, and the AWS Management Console.

Note: Lab time is available only for class duration & not beyond it. Additional lab charges apply for - repeat students.

Start your Developing on AWS learning journey with official AWS free e-Learning courses. Get access to Introduction to AWS Development Tools Services Overview, AWS Application Services Overview, Introduction to AWS CodeBuild and other courses. START NOW

Developing Serverless Solutions on AWS

24 Hours | \$2,095

Schedules

03/20/2023 – 03/22/2023
05/22/2023 – 05/24/2023
09/11/2023 – 09/13/2023
11/13/2023 – 11/15/2023

The Developing Serverless Solutions on AWS course gives developers exposure to and practice with best practices for building serverless applications using AWS Lambda and other services in the AWS serverless platform. Developing Serverless Solutions on AWS training will use AWS frameworks to deploy a serverless application in hands-on labs that progress from simpler to more complex topics. You will use AWS documentation throughout the course to develop authentic methods for learning and problem-solving beyond the classroom.

Note: Lab time is available only for class duration & not beyond it. Additional lab charges apply for - repeat students.

Start your AWS Developer journey by accessing Official AWS e-Learning for FREE. Learn AWS Development Tools Services Overview, AWS Application Services Overview, Introduction to AWS CodeBuild and more.

Running Containers on Amazon Elastic Kubernetes Service (Amazon EKS)

24 Hours | \$2,095

Schedules

04/24/2023 – 04/26/2023
06/26/2023 – 06/28/2023
08/21/2023 – 08/23/2023
10/16/2023 – 10/18/2023

Master the art of building and securing cloud environments through Amazon EKS clusters.

Amazon EKS makes it easy for you to run Kubernetes on AWS without needing to install, operate, and maintain your own Kubernetes control plane. In this course, you will learn container management and orchestration for Kubernetes using Amazon EKS.

You will build an Amazon EKS cluster, configure the environment, deploy the cluster, and then add applications to your cluster. You will manage container images using Amazon Elastic Container Registry (ECR) and learn how to automate application deployment. You will deploy applications using CI/CD tools. You will learn how to monitor and scale your environment by using metrics, logging, tracing, and horizontal/vertical scaling. You will learn how to design and manage a large container environment by designing for efficiency, cost, and resiliency. You will configure AWS networking services to support the cluster and learn how to secure your Amazon EKS environment.

Note: Lab time is available only for class duration & not beyond. Additional lab charges apply for - repeat students.

AWS DevOps

DevOps Engineering on AWS

24 Hours | \$2,095

Schedules

03/20/2023 – 03/22/2023
04/17/2023 – 04/19/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/24/2023 – 07/26/2023
08/28/2023 – 08/30/2023
09/25/2023 – 09/27/2023
10/23/2023 – 10/25/2023
11/27/2023 – 11/29/2023

AWS DevOps Engineering on AWS teaches you how to use the combination of DevOps cultural philosophies, practices, and tools to increase your organization - ability to develop, deliver, and maintain applications and services at high velocity on AWS. This DevOps Engineer course covers Continuous Integration (CI), Continuous Delivery (CD), infrastructure as code, microservices, monitoring and logging, and communication and collaboration. Hands-on labs give you experience building and deploying AWS CloudFormation templates and CI/CD pipelines that build and deploy applications on Amazon Elastic Compute Cloud (Amazon EC2), serverless applications, and container-based applications. Labs for multi-pipeline workflows and pipelines that deploy to multiple environments are also included.

This AWS DevOps course leads to AWS Certified DevOps Engineer – Professional Certification

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

AWS Essentials

AWS Cloud Essentials for Business Leaders

4 Hours | \$695

Schedules

03/22/2023 – 03/22/2023
05/17/2023 – 05/17/2023
07/21/2023 – 07/21/2023
09/20/2023 – 09/20/2023
11/17/2023 – 11/17/2023

Note: AWS Cloud Essentials for Business Leaders is the replacement course for AWS Business Essentials.

In AWS Cloud Essentials for Business Leaders course, you will learn the fundamental concepts of cloud computing and how a cloud strategy can help companies meet business objectives. It explores the advantages and possibilities of cloud computing. This training also introduces addresses concepts such as security and compliance to help facilitate better discussions with line of business (LOB) professionals, information technology (IT) LoB, IT leaders, and executives. This AWS Cloud Training for Business Leaders can open new opportunities and pave the path for innovation.

Start your AWS Essentials journey by accessing Official AWS e-Learning for FREE. Learn AWS Foundations: Getting Started with the AWS Cloud Essentials, Migrating to AWS: A high level introduction, Introduction to Amazon Elastic Compute Cloud (EC2) and more.

AWS Cloud Essentials for Business Leaders – Financial Services

4 Hours | \$695

Schedules

04/21/2023 – 04/21/2023
06/23/2023 – 06/23/2023
08/18/2023 – 08/18/2023
10/20/2023 – 10/20/2023

Business leaders who want to learn the fundamentals of cloud computing and find out how AWS delivers value to businesses in the financial services domain can take the course.

In AWS Cloud Essentials for Business Leaders – Financial Services course, you will learn the fundamental concepts of cloud computing and how a cloud strategy can help companies in the financial services industries (FSI) meet business objectives. It explores the advantages and possibilities of cloud computing in banking, insurance, capital markets, payments, and financial technology. The course addresses concepts such as security, fraud detection, analytics, and compliance to help facilitate discussions with line of business (LOB) professionals, information technology (IT) leaders, and executives.

Start your AWS Essentials journey by accessing Official AWS e-Learning for FREE. Learn AWS Foundations: Getting Started with the AWS Cloud Essentials, Migrating to AWS: A high level introduction, Introduction to Amazon Elastic Compute Cloud (EC2) and more.

AWS Cloud for Finance Professionals

16 Hours | \$1,400

Schedules

04/24/2023 – 04/25/2023
06/26/2023 – 06/27/2023
08/21/2023 – 08/22/2023
10/23/2023 – 10/24/2023

Get insights on managing cloud spend efficiently from an expert instructor.

In this course, you will learn how finance professionals can use Amazon Web Services (AWS) to adopt the cloud in a fiscally responsible manner. You will gain foundational knowledge to help you manage, optimize, and plan cloud spend. In this course, you will learn how to influence your organization - builders to be more accountable and cost-conscious. Finally, you will consider how you can use AWS to innovate in your finance organization.

Note: Lab time available only for class duration & not beyond. Additional Labs charges apply for - repeat students.

Start your AWS Essentials journey by accessing Official AWS e-Learning for FREE. Learn AWS Foundations: Getting Started with the AWS Cloud Essentials, Migrating to AWS: A high level introduction, Introduction to Amazon Elastic Compute Cloud (EC2) and more.

AWS Cloud Practitioner Essentials

8 Hours | \$695

Schedules

03/06/2023 – 03/06/2023
04/03/2023 – 04/03/2023
05/01/2023 – 05/01/2023
06/05/2023 – 06/05/2023
07/03/2023 – 07/03/2023
08/01/2023 – 08/01/2023
09/06/2023 – 09/06/2023
10/02/2023 – 10/02/2023
11/02/2023 – 11/02/2023

Take the AWS Cloud Practitioner Essentials course and start your cloud learning journey. Get a good understanding of how cloud computing can be utilized to innovate and transform business processes. This AWS Cloud Practitioner Essentials course is for individuals who seek an overall understanding of the Amazon Web Services (AWS) Cloud, independent of specific technical roles. You will learn about AWS Cloud concepts, AWS services, security, architecture, pricing, and support to build your AWS Cloud knowledge. This course also helps you prepare for the AWS Certified Cloud Practitioner exam. The AWS Cloud Practitioner training will be delivered by AWS Authorized Instructors (AAI – Champion level instructors) who possess extensive domain knowledge and over a decade of training experience. The AWS Cloud Practitioner training allows individuals to gain fundamental knowledge of getting started with the cloud, using its features, building in the cloud, and utilizing the AWS cloud deployment effectively.

Note:

- The aligned AWS Certified Cloud Practitioner certification is approved by Army Credentialing Assistance (CA).

Start your AWS Cloud Practitioner training journey by accessing AWS e-Learning courses for FREE.

AWS Security Essentials

8 Hours | \$695

Schedules

03/17/2023 – 03/17/2023
04/14/2023 – 04/14/2023
05/12/2023 – 05/12/2023
06/16/2023 – 06/16/2023
07/17/2023 – 07/17/2023
08/14/2023 – 08/14/2023
09/18/2023 – 09/18/2023
10/23/2023 – 10/23/2023
11/13/2023 – 11/13/2023

AWS Security Essentials covers fundamental AWS cloud security concepts, including AWS access control, data encryption methods, and how network access to your AWS infrastructure can be secured. Based on the AWS Shared Security Model, you learn where you are responsible for implementing security in the AWS Cloud and what security-oriented services are available to you and why and how the security services can help meet the security needs of your organization.

AWS Security certification training allows IT and security professionals to understand and demonstrate fundamental knowledge of AWS cloud security practices.

AWS Security Essentials training enables you to dive deep, ask questions, work through solutions, and get feedback from AWS-accredited instructors with deep technical knowledge. This is a fundamental level course and is a part of the AWS Security learning path.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for “repeat students”.

AWS Technical Essentials

8 Hours | \$695

Schedules

03/06/2023 – 03/06/2023
04/05/2023 – 04/05/2023
05/05/2023 – 05/05/2023
06/02/2023 – 06/02/2023
07/06/2023 – 07/06/2023
08/02/2023 – 08/02/2023
09/07/2023 – 09/07/2023
10/03/2023 – 10/03/2023
11/03/2023 – 11/03/2023

Take the AWS Technical Essentials course and get hands-on practical exposure to core AWS services. It is a great starting point to begin your cloud learning journey as an IT professional.

AWS Technical Essentials training introduces you to essential AWS services and common solutions. The course covers the fundamental AWS concepts related to compute, database, storage, networking, monitoring, and security. You will start working in AWS through hands-on course experiences. The AWS Technical Essentials course covers the concepts necessary to increase your understanding of AWS services, so that you can make informed decisions about solutions that meet business requirements. Throughout the course, you will gain information on how to build, compare, and apply highly available, fault tolerant, scalable, and cost-effective cloud solutions.

The AWS Tech Essentials training is an interactive session delivered by AWS Authorized Instructors with extensive domain knowledge.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Migrating to AWS

24 Hours | \$2,095

Schedules

05/15/2023 – 05/17/2023
08/14/2023 – 08/16/2023
11/13/2023 – 11/15/2023

The Migrating to AWS course is for individuals who seek an understanding of how to plan and migrate existing workloads to the AWS Cloud. In Migrating to AWS training you will learn about various cloud migration strategies and how to apply each step of the migration process, including portfolio discovery, application migration planning and design, conducting a migration, and post-migration validation and application optimization. Hands-on labs reinforce learning, and each lab is designed to provide you with the understanding and foundation necessary to complete migration tasks in your organization.

Note: Lab time available only for class duration and not beyond. Additional lab charges apply for repeat students. - parDownload AWS Certification Roadmap. Check out more on AWS Certifications

AWS Machine Learning

Amazon SageMaker Studio for Data Scientists

24 Hours | \$2,095

Schedules

04/19/2023 – 04/21/2023
06/14/2023 – 06/16/2023
08/21/2023 – 08/23/2023
10/30/2023 – 11/01/2023

Amazon SageMaker Studio helps data scientists prepare, build, train, deploy, and monitor high-quality machine learning (ML) models quickly by bringing together a broad set of capabilities purpose-built for ML. This course prepares experienced data scientists to leverage the tools that are part of SageMaker Studio to improve productivity at every step of the ML lifecycle.

Deep Learning on AWS

8 Hours | \$695

Schedules

03/22/2023 – 03/22/2023
05/31/2023 – 05/31/2023
07/24/2023 – 07/24/2023
09/18/2023 – 09/18/2023
11/20/2023 – 11/20/2023

Learn how to deploy self-teaching systems in the AWS cloud.

Deep Learning on AWS course, you - I learn about AWS - · deep learning solutions, including scenarios where deep learning makes sense and how deep learning works. You - I learn how to run deep learning models on the cloud using Amazon SageMaker and the MXNet framework. You - I also learn to deploy your deep learning models using services like AWS Lambda while designing intelligent systems on AWS.

Note: Lab time is available only for class duration & not beyond it. Additional lab charges apply for - repeat students.

Exam Readiness: AWS Certified Machine Learning – Specialty

4 Hours | \$695

Schedules

05/26/2023 – 05/26/2023

08/18/2023 – 08/18/2023

Prepare for the AWS Certified Machine Learning - Specialty certification examination. Get expert insights on how to approach the AWS certification examination and the tips for preparation.

The AWS Certified Machine Learning – Specialty exam validates your ability to design, implement, deploy, and maintain Machine Learning (ML) solutions for given business problems. Join this half-day, intermediate-level training to learn how to prepare for the exam by exploring the exam’s topic areas including data engineering, exploratory data analysis, modeling, and machine learning implementation and operations.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.

MLOps Engineering on AWS

24 Hours | \$2,095

Schedules

04/24/2023 – 04/26/2023

06/26/2023 – 06/28/2023

09/19/2023 – 09/21/2023

Building, training, and deployment of Machine Learning Models can now be done more efficiently with DevOps style practices. Take the MLOps Engineering on AWS course.

MLOps Engineering on AWS course builds upon, and extends the DevOps practices prevalent in software development to the process of creating ML models. The course stresses the importance of data, model, and code to successful ML deployments. It will demonstrate the use of tools, automation, processes, and teamwork in addressing the challenges associated with hand-offs between data engineers, data scientists, software developers, and operations.

In this MLOps Engineering on AWS training you will also discuss the use of tools and processes to monitor and act when the model prediction in production starts to drift from agreed-upon key performance indicators.

Note: Lab time available only for class duration and not beyond. Additional lab charges apply for - repeat students.

Practical Data Science with Amazon SageMaker

8 Hours | \$695

Schedules

03/24/2023 – 03/24/2023
04/21/2023 – 04/21/2023
05/29/2023 – 05/29/2023
06/23/2023 – 06/23/2023
07/21/2023 – 07/21/2023
08/18/2023 – 08/18/2023
09/15/2023 – 09/15/2023
10/23/2023 – 10/23/2023
11/17/2023 – 11/17/2023

Practical Data Science with Amazon SageMaker course, you will learn how to solve a real-world use case with Machine Learning (ML) and produce actionable results using Amazon SageMaker. This course walks you through the stages of a typical data science process for Machine Learning, from analyzing and visualizing a dataset to preparing the data and feature engineering. Individuals will also learn practical aspects of model building, training, tuning, and deployment with Amazon SageMaker. Real-life use case includes customer retention analysis to inform customer loyalty programs.

Note: Lab time is available only for class duration & not beyond. Additional lab charges apply for – repeat students.

The Machine Learning Pipeline on AWS

32 Hours | \$2,775

Schedules

03/27/2023 – 03/30/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/11/2023 – 09/14/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

Solve real business problems by developing AWS machine learning solutions.

The Machine Learning Pipeline on AWS course explores how to use the machine learning (ML) pipeline to solve a real business problem in a project-based learning environment. Students will learn about each phase of the pipeline from instructor presentations and demonstrations and then apply that knowledge to complete a project solving one of three business problems: fraud detection, recommendation engines, or flight delays. By the end of the course, students will have successfully built, trained, evaluated, tuned, and deployed an ML model using Amazon SageMaker that solves their selected business problem.

Note: Lab time is available only for class duration and not beyond it. Additional lab charges apply for - repeat students.

AWS Security

AWS Security Essentials

8 Hours | \$695

Schedules

03/17/2023 – 03/17/2023
04/14/2023 – 04/14/2023
05/12/2023 – 05/12/2023
06/16/2023 – 06/16/2023
07/17/2023 – 07/17/2023
08/14/2023 – 08/14/2023
09/18/2023 – 09/18/2023
10/23/2023 – 10/23/2023
11/13/2023 – 11/13/2023

AWS Security Essentials covers fundamental AWS cloud security concepts, including AWS access control, data encryption methods, and how network access to your AWS infrastructure can be secured. Based on the AWS Shared Security Model, you learn where you are responsible for implementing security in the AWS Cloud and what security-oriented services are available to you and why and how the security services can help meet the security needs of your organization.

AWS Security Essentials training enables you to dive deep, ask questions, work through solutions, and get feedback from AWS-accredited instructors with deep technical knowledge. This is a fundamental level course and is a part of the AWS Security learning path.

Note: Lab time available only for class duration & not beyond. Additional lab charges apply for “repeat students”.

AWS Security Governance at Scale

8 Hours | \$695

Schedules

03/24/2023 – 03/24/2023
05/19/2023 – 05/19/2023
07/21/2023 – 07/21/2023
09/22/2023 – 09/22/2023
11/17/2023 – 11/17/2023

Security is foundational to AWS. Governance at scale is a new concept for automating cloud governance that can help companies retire manual processes in account management, budget enforcement, and security and compliance. By automating common challenges, companies can scale without inhibiting agility, speed, or innovation. In addition, they can provide decision makers with the visibility, control, and governance necessary to protect sensitive data and systems. In this course, you will learn how to facilitate developer speed and agility, and incorporate preventive and detective controls. By the end of this training, you will be able to apply governance best practices.

Note:

- Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.
- The aligned AWS Certified Security – Specialty certification is approved by Army Credentialing Assistance (CA).

Start your AWS Security journey by accessing Official AWS e-Learning for FREE. Learn Securing Your AWS Cloud, Introduction to Data Encryption, Understanding Amazon EBS Volume Encryption and more – GET STARTED

Exam Readiness: AWS Certified Security – Specialty

4 Hours | \$695

Schedules

06/30/2023 – 06/30/2023

Note: Exam Readiness: AWS Certified Security – Specialty is scheduled to retire on July 10th, 2023.

The AWS Certified Security Specialty exam validates technical skills and experience in securing and hardening workloads and architectures on the AWS platform. Attendees with two or more years of hands-on experience designing and deploying cloud architecture on AWS should join this half-day, course to learn how to prepare and succeed in the exam. We will help you prepare for the exam by exploring the exam - topic areas and mapping them to specific areas to study. We will review sample exam questions in each topic area, teaching you how to interpret the concepts being tested so that you can better eliminate incorrect responses.

Security Engineering on AWS

24 Hours | \$2,095

Schedules

03/20/2023 – 03/22/2023

04/17/2023 – 04/19/2023

05/15/2023 – 05/17/2023

06/26/2023 – 06/28/2023

07/18/2023 – 07/20/2023

08/15/2023 – 08/17/2023

09/19/2023 – 09/21/2023

10/24/2023 – 10/26/2023

11/14/2023 – 11/16/2023

Get Security Engineering on AWS training and make effective use of AWS services to secure your cloud infrastructure. Stay compliant and gain a competitive advantage in your industry.

This AWS Security Engineering course demonstrates how to efficiently use AWS security services to stay secure in the AWS Cloud. The AWS Security Engineering training focuses on the security practices that AWS recommends for enhancing the security of your data and systems in the cloud. This AWS Security course highlights the security features of AWS key services including compute, storage, networking, and database services. In the AWS security certification preparation, you will also learn how to leverage AWS services and tools for automation, continuous monitoring, and logging, and responding to security incidents.

The Security Engineering on AWS training is recommended for earning the AWS Certified Security-Specialty certification.

Note: Lab time is available only for class duration & not beyond. Additional lab charges apply for - repeat students.

Start your AWS Security Engineer certification and learning journey with official AWS free e-Learning courses. Get access to Securing Your AWS Cloud, Introduction to Data Encryption, Understanding Amazon EBS Volume Encryption and more and other courses. START NOW

AWS Specialty

AWS Cloud Financial Management for Builders

24 Hours | \$2,095

Schedules

05/22/2023 – 05/24/2023
08/21/2023 – 08/23/2023
11/27/2023 – 11/29/2023

Manage cloud cost effectively. Learn the techniques and best practices to optimize cloud cost from experts

This course is for individuals who seek an understanding of how to manage, optimize, and predict costs as you run workloads on AWS. You learn how to implement architectural best practices, explore cost optimization strategies, and design patterns to help you architect cost-efficient solutions on AWS.

Start your AWS Specialty journey by accessing Official AWS e-Learning for FREE. Learn Amazon Virtual Private Cloud (VPC), Introduction to Amazon Elastic Load Balancer – Application, Networking Ninja to Cloud Ninja and more.

AWS SysOps

Systems Operations on AWS

24 Hours | \$2,095

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/06/2023 – 09/08/2023
10/11/2023 – 10/13/2023
11/06/2023 – 11/08/2023

Note: As of Feb 21, 2023 Systems Operations on AWS course will be renamed to Cloud Operations on AWS, with minor course outline changes.

Create automatable, repeatable deployments of networks and systems on the AWS platform! Systems Operations on AWS course teaches systems operators and anyone performing system operations functions how to install, configure, automate, monitor, secure, maintain and troubleshoot the services, networks, and systems on AWS necessary to support business applications. Systems Operations on AWS training also covers specific AWS features, tools, and best practices related to these functions.

Note:

- Lab time available only for class duration & not beyond. Additional lab charges apply for - repeat students.
- The aligned AWS Certified SysOps Administrator – Associate certification is approved by Army Credentialing Assistance (CA).

CC – Certified in Cybersecurity

CC – Certified in Cybersecurity Certification Prep.

16 Hours | \$1,095

Schedules

04/03/2023 – 04/04/2023
06/05/2023 – 06/06/2023
08/03/2023 – 08/04/2023
10/02/2023 – 10/03/2023

Through an engaging self-paced learning experience this course covers the content tested in (ISC)2 - entry-level Certified in Cybersecurity (CC) exam helping to build a solid foundation of knowledge tested on the exam and needed to be successful in an entry-level cybersecurity role.

What's Included -

- 2 days instructor-led training
- (ISC)2 Official CC e-Book
- (ISC)2 Official CC Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized CC Instructor
- (ISC)2 Official CC Certificate of completion
- (ISC)2 Official CC Exam Voucher

CCSP – Certified Cloud Security Professional

CCSP - Certified Cloud Security Professional Certification Prep

40 Hours | \$4,395

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/28/2023 – 09/01/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

The Certified Cloud Security Professional (CCSP) course is the most comprehensive review of cloud security concepts and industry best practices covering the six domains of the (ISC)2 Common Body of Knowledge (CBK). CCSP training course provides knowledge in identifying the types of controls necessary to administer various levels of confidentiality, integrity, and availability, with regard to securing data in the cloud. You will identify the virtual and physical components of the cloud infrastructure with regard to risk management analysis, including tools and techniques necessary for maintaining a secure cloud infrastructure. You will gain an understanding in cloud software assurance and validation, utilizing secure software, and the controls necessary for developing secure cloud environments. You will identify privacy issues and audit processes utilized within a cloud environment, including auditing controls, assurance issues, and the specific reporting attributes. The Certified Cloud Security Professional (CCSP) certification prep course from NetCom Learning, the official training partner of the (ISC)2, provides a solid grounding in cloud data security, architecture, and design principles. Taking the CCSP exam prep course will help you earn the CCSP - Certified Cloud Security Professional Certificate.

What's Included -

- 5 days instructor-led training
- (ISC)2 Official CCSP e-Book
- (ISC)2 Official CCSP Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized CCSP Instructor
- (ISC)2 Official CCSP Certificate of completion
- (ISC)2 Official CCSP Exam Voucher

Certified Associate in Project Management (CAPM)

Certified Associate in Project Management (CAPM)

24 Hours | \$2,500

Schedules

03/21/2023 – 03/23/2023
04/24/2023 – 04/26/2023
05/24/2023 – 05/26/2023
06/26/2023 – 06/28/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
10/17/2023 – 10/19/2023
11/15/2023 – 11/17/2023

Add project management skills into your current role, gain more responsibilities, and manage larger projects by adopting standardized practices through CAPM!

The three-day foundation-level course develops your fundamental knowledge, terminology, and understanding of project management processes. The Certified Associate in Project Management CAPM training enables you to apply project management processes acknowledged by the Project Management Institute, Inc. (PMI) for successful

planning and execution of various projects. It is also in alignment with the Sixth Edition of PMBOK Guide.

Certified Associate in Project Management CAPM course also prepares you for earning the Certified Associate in Project Management (CAPM) certification.

Cisco Cloud Track

Cisco UCS Director Foundation (UCSDF) v6.6

24 Hours | \$4,505

Schedules

03/21/2023 – 03/23/2023
04/17/2023 – 04/19/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/27/2023 – 11/29/2023

The Cisco UCS Director Foundation (UCSDF) v6.6 course helps you understand concepts, architecture, and deployment use cases for Cisco UCS Director. You will gain hands-on experience in deploying basic Cisco UCS Director solutions. You will also practice using core features that most implementations require, such as services design, using the self-service portal for provisioning services, creating workflows that enable cloud automation and standardize IT services, and more.

Introducing Cisco Cloud Consumer Security (SECICC) v1.0

8 Hours | \$1,645

Schedules

03/14/2023 – 03/14/2023
04/18/2023 – 04/18/2023
05/16/2023 – 05/16/2023
06/13/2023 – 06/13/2023
07/05/2023 – 07/05/2023
08/08/2023 – 08/08/2023
09/07/2023 – 09/07/2023
10/11/2023 – 10/11/2023
11/08/2023 – 11/08/2023

The Introducing Cisco Cloud Consumer Security (SECICC) v1.0 course benefits cloud consumers and administrators of public cloud, private cloud, and hybrid cloud infrastructures. It gives a technical overview of basic concepts and components of the cloud, and the Cisco solutions used to provide comprehensive security of your cloud-based environment. In this primarily lecture-based course, candidates will learn the basics from a cloud consumer perspective including securing cloud and software as a service (SaaS) application environment. This introductory course provides insights on using Cisco Stealthwatch Cloud, Cisco CloudLock, Cisco Umbrella and more to protect the user when using cloud-based applications.

Cisco Collaboration Track

Administering Cisco Contact Center Enterprise (CCEA) v1.0

32 Hours | \$3,955

Schedules

03/14/2023 – 03/17/2023
04/11/2023 – 04/14/2023
05/16/2023 – 05/19/2023
06/13/2023 – 06/16/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Administering Cisco Contact Center Enterprise (CCEA) v1.0 training teaches you the contextual information around call flow between components in the Cisco Unified Contact Center Enterprise (UCCE) solution including intelligent contact routing, call treatment, network-to-desktop Computer Telephony Integration (CTI), and multichannel contact management over an IP infrastructure. In this course, you will receive hands-on practice using administrative tools to perform routine adds, moves, and changes in an inbound contact center environment.

This course will give the learner 32 CE Credits.

Cisco Video Infrastructure Implementation (VII) v1.0

40 Hours | \$5,275

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Cisco Video Infrastructure Implementation (VII) v2017 replaces the Implementing Cisco TelePresence Video Solutions (VTVS2) course to help students prepare for the Cisco TelePresence Video Specialist certification.

This course is designed to teach technicians to install/configure, operate and maintain core visual communication components for both premise and cloud-based video and TelePresence solutions. Cisco video/UC infrastructure including Expressway (or VCS), Cisco Meeting Server (CMS), TelePresence Server, Conductor and TMS will be configured to work in premise based solutions as well as with Cisco Spark and Cisco WebEx cloud solutions.

Note: VII course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI, VID, DEVWBX, CLFNDU, CLAUJ.

CVP Development and Scripting – Part 2

40 Hours | \$4,995

Schedules

04/03/2023 – 04/07/2023

CVPD Scripting-Part 2 provides in-depth coverage and hands-on practice of the more advanced programming topics of Call Studio such as web services and parsing their results, javascript, modularizing large applications. An introduction to Google Dialogflow is also included.

CVP Development and Scripting - Part 1

40 Hours | \$4,995

Schedules

03/13/2023 – 03/17/2023
05/01/2023 – 05/05/2023

CVP Development and Scripting - Part 1 is part of the Cisco CCE/CVP suite of Contact Center suite. CVPDS-1 teaches each student to use the features of Call Studio to build self-service IVR applications for CVP VXML Server, and to pass data between CCE/ICM and CVP.

Students have ample practice writing applications, using OAMP for put applications into production on the classroom VXML Server, and troubleshooting through log files analysis.

Deploying Cisco Unified Intelligence Center (DUIC) v1.1

24 Hours | \$3,845

Schedules

03/15/2023 – 03/17/2023
04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/14/2023 – 06/16/2023
07/18/2023 – 07/20/2023
08/08/2023 – 08/10/2023
09/12/2023 – 09/14/2023
10/10/2023 – 10/12/2023
11/14/2023 – 11/16/2023

The Deploying Cisco Unified Intelligence Center (DUIC) v1.1 course is a three-day instructor-led training (ILT) course. Cisco Unified Intelligence Center 8.0.4 is a comprehensive, end-to-end reporting solution, designed to make the task of creating reports and managing disparate data sources easier on the customer and, at the same time, to present a consistent user interface and a common tool to access varied data across multiple Cisco product families.

Developing Applications for Cisco Webex and Webex Devices (DEVWBX) v1.1

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Developing Applications for Cisco Webex and Webex Devices (DEVWBX) v1.1 course prepares you

to use the programmability features of Webex, Cisco enterprise solution for video conferencing, online meetings, online training, webinars, web conferencing, cloud calling, and collaboration. Through a combination of lessons and hands-on labs, you will learn about Webex Application Programming Interface (API) Foundation, meetings, devices, teams, messaging, embedding Cisco Webex, administration, and compliance. You will learn how to leverage Webex APIs to extend the functionalities of teams, meetings, and devices, and explore how these APIs can help automate, administer, and enforce compliance. This course prepares you for the 300-920 Developing Applications for Cisco Webex and Webex Devices (DEVWBX) exam. This course also earns you 40 Continuing Education (CE) credits towards recertification.

Note: DEVWBX course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX.

Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) v1.1

40 Hours | \$4,195

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) v1.1 course helps you prepare for advanced-level roles focused on implementation and operation of Cisco collaboration

solutions. You will gain the knowledge and skills needed to implement and deploy core collaboration and networking technologies, including infrastructure and design, protocols, codecs, and endpoints, Cisco Internetwork Operating System (IOS) XE gateway and media resources, call control, Quality of Service (QoS), and additional Cisco collaboration applications. This course helps prepare you to take the exam:

- 350-801 Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) After you pass this exam, you earn Cisco Certified Specialist – Collaboration Core certification and satisfy the core requirement for these certifications:
- CCNP Collaboration
- CCIE Collaboration This course prepares you for the 300-435 Automating Cisco Enterprise Solutions (ENAUTO) certification exam. Introducing Automation for Cisco Solutions (CSAU) is required prior to enrolling in Implementing Automation for Cisco Enterprise Solutions (ENAI) because it provides crucial foundational knowledge essential to success.

Note: CLCOR course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI,VID,DEVWBX,CLFNDU, CLAI.

This course will give the learner 64 CE Credits.

Implementing Automation for Cisco Collaboration Solutions (CLAI) v1.0

24 Hours | \$4,505

Schedules

03/08/2023 – 03/10/2023
04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/07/2023 – 06/09/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

The Implementing Automation for Cisco Collaboration Solutions (CLAI) v1.0 course teaches you how to implement Cisco Collaboration automated, programmable solutions for voice, video, collaboration, and conferencing on-premises or in the cloud. Through a combination of lessons and hands-on labs, you will combine tools and processes to tackle communication challenges using key platforms including Cisco Unified Communications Manager, Cisco IP Phone Services, Cisco Unity Connection, Cisco Finesse, Cisco Collaboration Endpoints, Cisco Webex Teams, and Cisco Webex Meetings. You will also learn how to use Application Programming Interfaces (APIs) interfaces such as Representational State Transfer (REST) and Simple Object Access Protocol (SOAP), parsing data in Extensible Markup Language (XML) and JavaScript Object Notation (JSON) formats, and leverage frameworks such as Python.

This course prepares you for the 300-835 Automating and Programming Cisco Collaboration Solutions (CLAUTO) certification exam. This course also earns you 24 Continuing Education (CE) credits towards recertification.

Implementing Cisco Advanced Call Control and Mobility Services (CLACCM) v1.0

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/10/2023 – 07/14/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Learn advanced call control and mobility services, and use Cisco Unified Communications Manager features for consolidating your communications infrastructure into a scalable, portable and secure collaboration solution! The five-day advanced-level training covers multiple features, including Globalized Call Routing, Global Dial Plan Replication, Cisco Unified Mobility, Extension Mobility, Device Mobility, Session Initiation Protocol Uniform Resource Identifier (SIP/ URI) call routing and Call Admission Control. It explains Cisco Unified Communications Manager Express and Survivable Remote Site Telephony (SRST) gateway technologies, Cisco Unified Board Element Call deployments, signaling and media protocols, call coverage, and time of day routing. Cisco course also prepares you for the 300-815 CLACCM exam (Implementing Cisco Advanced Call Control and Mobility Services), which is required for earning Cisco Certified DevNet Specialist-Collaboration Call Control & Mobility Implementation, and CCNP Collaboration certifications.

Note: 300-815 CLACCM is the only exam necessary for achieving the Cisco Certified DevNet Specialist-Collaboration Call Control & Mobility Implementation certification. However, it merely satisfies the concentration exam requirement for CCNP Collaboration certification.

Note: CLACCM course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI,VID,DEVWBX,CLFNDU, CLAU1.

This course will give the learner 40 CE Credits.

Implementing Cisco Collaboration Applications (CLICA) v1.0

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Note: This course is replacement of “Implementing Cisco Collaboration Applications (CAPPs) v1.0 (Professional)” course. Acquire skills for implementing Single Sign-On (SSO), Cisco Unified IM and Presence, Cisco Unity Connection, and Cisco Unity Express! The five-day intermediate-level Cisco training helps you streamline communication procedures, strengthen compliance measures, and enhance your communication systems and devices. Cisco collaboration course also prepares you for the 300-810 CLICA exam (Implementing Cisco Collaboration Applications), which is required for earning Cisco Certified Specialist-Collaboration Applications Implementation and CCNP Collaboration certifications.

Note: 300-810 CLICA is the only exam necessary for achieving the Cisco Certified Specialist-Collaboration Applications Implementation certification. However, it merely satisfies the concentration exam requirement for CCNP Collaboration certification.

Note: CLICA course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI, VID,DEVWBX,CLFNDU, CLAUJ.

This course will give the learner 40 CE Credits

Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) v1.0

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Note: This course is replacement of “Troubleshooting Cisco IP Telephony & Video (CTCOLLAB) v1.0 (Professional)” course.

The Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI) v1.0 course provides you with knowledge about Cisco Expressway Series solutions enabling Business-To-Business (B2B) calls, Cisco Mobile, remote access, authentication options, and additional Cisco Expressway Series features. Through a combination of lessons and hands-on labs, you will learn how to leverage collaborative technology to access secure, collaborative work supports including video, voice, content, and remote workloads. Cisco collaboration course also prepares you for the 300-820 CLCEI exam (Implementing Cisco Collaboration Cloud and Edge Solutions), which is required for earning Cisco Certified Specialist-Collaboration Cloud and Edge Implementation, and CCNP Collaboration certifications.

Note: 300-820 CLCEI is the only exam necessary for achieving the Cisco Certified Specialist-Collaboration Cloud and Edge Implementation certification.

Note: CLCEI course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI, VID, DEVWBX,CLFNDU, CLAUJ.

This course will give the learner 40 CE Credits

Implementing Cisco Collaboration Conferencing (CLCNF) v1.0

40 Hours | \$5,055

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/14/2023 – 08/18/2023
09/11/2023 – 09/15/2023
10/02/2023 – 10/06/2023
11/06/2023 – 11/10/2023

The Implementing Cisco Collaboration Conferencing (CLCNF) v1.0 course focuses on Cisco on-premises conferencing architecture and solutions. You will gain knowledge and skills to design and implement common conferencing deployment scenarios of Cisco Meeting Server, its integration with call control features such as Cisco Unified Communications Manager and Cisco Expressway, and other Cisco collaboration conferencing devices. This course offers lessons and hands-on labs to prepare you for the 300-825 Implementing Cisco Collaboration Conferencing (CLCNF) exam.

This course will give the learner 40 CE Credits

Implementing Cisco Quality of Service (QoS) v2.5

40 Hours | \$4,065

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Implementing Cisco Quality of Service (QoS) v2.5 provides learners with in-depth knowledge of QoS requirements, conceptual models such as best effort, IntServ, and DiffServ, and the implementation of QoS on Cisco platforms. The curriculum covers the theory of QoS, design issues, and configuration of various QoS mechanisms to facilitate the creation of effective administrative policies providing QoS.

Case studies and lab exercises included in the course help learners to apply the concepts from the individual modules to real-life scenarios. The course also gives learners design and usage rule for advanced QoS features. This gives the learners the opportunity to design and implement efficient, optimal, and trouble-free multiservice networks.

This course will give the learner 40 CE Credits.

Implementing Cisco SD-WAN Security and Cloud Solutions (SDWSCS) v1.0

24 Hours | \$3,955

Schedules

03/07/2023 – 03/09/2023
04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/18/2023 – 07/20/2023
08/08/2023 – 08/10/2023
09/12/2023 – 09/14/2023
10/10/2023 – 10/12/2023
11/14/2023 – 11/16/2023

The Implementing Cisco SD-WAN Security and Cloud Solutions (SDWSCS) v1.0 course is an advanced training course focused on Cisco SD-WAN security and cloud services. Through a series of labs and lectures you will learn about on-box security services, including application aware enterprise firewall, intrusion prevention, URL filtering, malware protection, and TLS or SSL decryption. You will also learn about cloud integration with multiple cloud services providers and multiple use-cases.

Additionally, the lab will allow you to configure and deploy local security services and cloud security services with the Cisco Umbrella Secure Internet Gateway (SIG), as well as integrate the Cisco SD-WAN fabric with a cloud service provider using the Cisco vManage automated workflows.

Reporting Cisco Contact Center Enterprise (CCER) v1.0

16 Hours | \$2,415

Schedules

03/27/2023 – 03/28/2023
04/20/2023 – 04/21/2023
05/18/2023 – 05/19/2023
06/22/2023 – 06/23/2023
07/12/2023 – 07/13/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/08/2023 – 11/09/2023

The Reporting Cisco Contact Center Enterprise (CCER) v1.0 training provides an architectural overview of the Contact Center Enterprise (CCE) Solution components and deployment models. You will learn the end-to-end reporting solutions of CCE designed to assist customers and partners in the task of creating reports and managing disparate data sources. The course explains the nuances of analyzing and troubleshooting in various deployment scenarios: Designed Tier 2/Day 2 Support.

The Cisco Contact Center Enterprise (CCE) solution helps businesses deliver a connected digital experience, enabling you to provide contextual, continuous, and capability-rich journeys for your customers, across time and channels. The course teaches you the business application of the CCE solution providing the framework of interrelationship between both core and optional components required to configure the CCE solution. You will learn to consolidate disparate data into manageable, comprehensive reports, understand the business application of the CCE solution and how it provides a framework of correlation between core and optional components.

Understanding Cisco Collaboration Foundations (CLFNDU) v1.1

40 Hours | \$4,195

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Understanding Cisco Collaboration Foundations (CLFNDU) v1.1 course gives you the skills and knowledge needed to administer and support a simple, single-site Cisco Unified Communications Manager (CM) solution with Session Initiation Protocol (SIP) gateway. The course covers initial parameters, management of devices including phones and video endpoints, management of users, and management of media resources, as well as Cisco Unified Communications solutions maintenance and troubleshooting tools. In addition, you will learn the basics of SIP dial plans including connectivity to Public Switched Telephone Network (PSTN) services, and how to use class-of-service capabilities.

Note: CLFNDU course is also part of the Cisco Collaboration Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CLCOR, CLICA, CLACCM, CLCEI, VID,DEVWBX,CLFNDU, CLAUJ.

This course will give the learner 30 CE Credits

Understanding Cisco Contact Center Enterprise Foundations (CCEF) v1.0

8 Hours | \$1,315

Schedules

03/14/2023 – 03/14/2023
04/18/2023 – 04/18/2023
05/16/2023 – 05/16/2023
06/13/2023 – 06/13/2023
07/14/2023 – 07/14/2023
08/11/2023 – 08/11/2023
09/15/2023 – 09/15/2023
10/13/2023 – 10/13/2023
11/17/2023 – 11/17/2023

The Understanding Cisco Contact Center Enterprise Foundations (CCEF) v1.0 training gives you an overview of the Cisco Packaged Contact Center Enterprise (PCCE) and Unified Contact Center Enterprise solutions. You will gain an understanding of contact center basics and describe the available Cisco contact center solutions and intended target customers. You will also focus on the Cisco Contact Center Enterprise (CCE) family of products and explore key features and functionality of the solution including architecture, major system components, and tools used for administration and reporting. This course is the foundation for additional courses required to deploy, configure, support, and troubleshoot Cisco CCE solutions.

Unified E-Mail and Web Interaction Manager Enterprise (UEIME) v2.0

40 Hours | \$4,195

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

Cisco Unified E-Mail and Web Interaction Manager Enterprise (UEIME) v2.0 is intended for installation engineers, system administrators, database administrators, sales engineers, and others who are responsible for installing and maintaining the Cisco Unified Web and E-Mail Interaction Manager v4.4.1 installation, which includes a common platform and one or both of the following applications: Cisco Unified E-Mail Interaction Manager (EIM) and Cisco Unified Web Interaction Manager (WIM).

Cisco CyberOps Track

Understanding Cisco Cybersecurity Operations Fundamentals (CBROPS) v1.0

40 Hours | \$4,295

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

- This is a replacement course for Implementing Cisco Cybersecurity Operations (SECOPS) v1.0 (Associate) and Understanding Cisco Cybersecurity Fundamentals (SECFND) v1.0 (Associate).

The Understanding Cybersecurity Operations Fundamentals (CBROPS) v1.0 course teaches an understanding of the network infrastructure devices, operations, and vulnerabilities of the Transmission Control Protocol/Internet Protocol (TCP/IP) protocol suite. You will learn basic information about security concepts, common network application operations and attacks, the Windows and Linux operating systems, and the types of data used to investigate security incidents. After completing this course, you will have the basic knowledge required to perform the job role of an associate-level cybersecurity analyst in a threat-centric security operations center to strengthen network protocol, protect your devices and increase operational efficiency. This course prepares you for the **Cisco Certified CyberOps Associate certification**.

This course will give the learner 30 CE Credits 5 days in the classroom with hands-on practice, plus the equivalent of 1 day of self-paced material.

Cisco Data Center Track

Cisco MDS 9000 Series Switches Overview (DCMDSO) v1.5

8 Hours | \$1,645

Schedules

03/14/2023 – 03/14/2023
04/11/2023 – 04/11/2023
05/16/2023 – 05/16/2023
06/13/2023 – 06/13/2023
07/05/2023 – 07/05/2023
08/09/2023 – 08/09/2023
09/06/2023 – 09/06/2023
10/04/2023 – 10/04/2023
11/01/2023 – 11/01/2023

The **Cisco MDS 9000 Series Switches Overview (DCMDSO) v1.5** course gives you a technical overview of how Cisco Multilayer Director Switch (MDS) 9000 Series, can be used to build highly available and scalable storage networks with advanced security and unified management. The course is for technical decision makers and IT professionals who architect, implement, and manage data center Storage Area Network (SAN) environments. In this course, you - I learn about key capabilities of the MDS 9000 Series, including platforms, architecture, software, management, and key features that contribute to performance, high availability, flexibility, and operational simplicity of storage environments.

Configuring Cisco MDS 9000 Series Switches (DCMDS) v3.6

32 Hours | \$3,895

Schedules

03/20/2023 – 03/23/2023
04/10/2023 – 04/13/2023
05/01/2023 – 05/04/2023
06/05/2023 – 06/08/2023
07/25/2023 – 07/28/2023
08/15/2023 – 08/18/2023
09/12/2023 – 09/15/2023
10/10/2023 – 10/13/2023
11/14/2023 – 11/17/2023

The Configuring Cisco MDS 9000 Series Switches (DCMDS) v3.6 course shows you how to implement, manage, and troubleshoot Cisco MDS 9000 Series Switches, to build highly available, scalable storage networks. Through expert instruction and extensive hands-on practice, you will learn how to deploy and use capabilities such as Virtual Storage Area Networks (VSANs), Role-Based Access Control (RBAC), N-Port Virtualization (NPV) fabric security, zoning, automation with NX-API, Slow Drain Analysis, SAN analytics, Fibre Channel over TCP/IP (FCIP) tunnels, and more. You will learn how to configure and implement platform features and learn troubleshooting techniques pertaining to Fibre Channel (FC) domains, firmware upgrades, zones, and zone mergers. This course helps you prepare to take the exam, Implementing Cisco Storage Area Networking (300-625 DCSAN), which leads to CCNP Data Center and the Certified Specialist – Data Center SAN Implementation certifications.

Note: DCMDS course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS.

This course will give the learner 40 CE Credits.

Configuring Cisco Unified Computing System (DCCUCS) v1.0

24 Hours | \$3,695

Schedules

03/14/2023 – 03/16/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/11/2023 – 07/13/2023
08/01/2023 – 08/03/2023
09/05/2023 – 09/07/2023
10/03/2023 – 10/05/2023
11/14/2023 – 11/16/2023

The Configuring Cisco Unified Computing System (DCCUCS) v1.0 shows you how to deploy, secure, operate, and maintain Cisco Unified Computing System (Cisco UCS) B-series blade servers, Cisco UCS C-Series, and S-Series rack servers for use in data centres. You will learn how to implement management and orchestration software for Cisco UCS.

You will gain hands-on practice: configuring key features of Cisco UCS, Cisco UCS Director, and Cisco UCS Manager; implementing UCS management software including Cisco UCS Manager and Cisco Intersight; and more.

Note: DCCUCS course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS.

This course will give the learner 24 CE Credits.

Designing and Deploying Cisco UCS Director with ACI (UCSDACI) v6.6

32 Hours | \$5,275

Schedules

03/14/2023 – 03/17/2023
04/18/2023 – 04/21/2023
05/09/2023 – 05/12/2023
06/20/2023 – 06/23/2023
07/10/2023 – 07/13/2023
08/21/2023 – 08/24/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Designing and Deploying Cisco UCS Director with ACI (UCSDACI) v6.6 course shows you how to use Cisco UCS Director software to manage physical and virtual infrastructure elements, including Cisco Application Centric Infrastructure (Cisco ACI).

You will learn to use the orchestration and automation functions of the Cisco UCS Director to effectively manage infrastructure and automate IT processes. The course offers hands-on experience installing and configuring Cisco UCS Director software. You will also learn about features such as bare-metal provisioning; compute, network, and storage management; orchestration, including Application Policy Infrastructure Controller (APIC); Cisco UCS Director custom tasks, and more.

Designing Cisco Data Center Infrastructure (DCID) v7.0 (Professional)

40 Hours | \$3,845

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Master design and deployment options focused on Cisco data center solutions and technologies across the network, compute, virtualization, storage area networks, automation, and security! The five-day intermediate-level Cisco training helps you learn design practices for the Cisco Unified Computing System solution based on Cisco UCS B-Series and C-Series servers, Cisco UCS Manager, and Cisco Unified Fabric. It provides design experience with network management technologies, including Cisco UCS Manager, Data Center Network Manager (DCNM), and UCS Director.

Note: DCID 300-610 is the only exam necessary for achieving the Cisco Certified Specialist-Data Center Design certification. However, it merely satisfies the concentration exam requirement for CCNP Data Center certification. One must pass the 350-601 DCCOR exam or its equivalent to complete the certification.

Note: DCID course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

This course will give the learner 40 CE Credits

Implementing and Operating Cisco Data Center Core Technologies (DCCOR) v1.1

40 Hours | \$4,595

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Implementing and Operating Cisco Data Center Core Technologies (DCCOR) v1.1 course helps you prepare for the Cisco CCNP Data Center and CCIE Data Center certifications for advanced-level data center roles. The Implementing and Operating Cisco Data Center Core Technologies (DCCOR) v1.1 training, you will master the skills and technologies you need to implement data center compute, LAN and SAN infrastructure.

You will also learn the essentials of automation and security in data centers. You will gain hands-on experience deploying, securing, operating, and maintaining Cisco data center infrastructure including Cisco MDS Switches and Cisco Nexus Switches; Cisco Unified Computing System (Cisco UCS) B-Series Blade Servers, and Cisco UCS C-Series Rack Servers.

Note: DCCOR course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUUS, DCCUCS

This course will give the learner 64 CE Credits

Implementing Automation for Cisco Data Center Solutions (DCAUI) v1.1

24 Hours | \$4,065

Schedules

03/07/2023 – 03/09/2023
04/10/2023 – 04/12/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/19/2023 – 07/21/2023
08/16/2023 – 08/18/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/15/2023 – 11/17/2023

The Implementing Automation for Cisco Data Center Solutions (DCAUI) v1.1 course teaches you how to implement Cisco Data Center automated solutions including programming concepts, orchestration, and automation tools. Through a combination of lessons and hands-on practice, you will manage the tools and learn the benefits of programmability and automation in the Cisco-powered Data Center. You will examine Cisco Application Centric Infrastructure (Cisco ACI), Software-Defined Networking (SDN) for data center and cloud networks, Cisco Nexus (Cisco NX-OS) platforms for device-centric automation, and Cisco Unified Computing System (Cisco UCS) for Data Center compute. You will study their current ecosystem of Application Programming Interfaces (APIs), software development toolkits, and relevant workflows along with open industry standards, tools, and APIs, such as Python, Ansible, Git, JavaScript Object Notation (JSON), Yaml Ain't Markup Language (YAML), Network Configuration Protocol (NETCONF), Representational State Transfer Configuration Protocol (RESTCONF), and Yet Another Generation (YANG). This course prepares you for the **300-635 Automating Cisco Data Center Solutions (DCAUTO)** certification exam. **Introducing Automation for Cisco Solutions (CSAU)** is required prior to enrolling in **Implementing Automation for Cisco Data Center Solutions (DCAUI)** because it provides crucial foundational knowledge essential to success. This course also earns you 24 Continuing Education (CE) credits towards recertification.

Note: DCAUI course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

Note: DCAUI course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX

This course will give the learner 24 CE Credits.

Implementing Cisco Application Centric Infrastructure (DCACI) v1.1

40 Hours | \$4,595

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

The Implementing Cisco Application Centric Infrastructure (DCACI) v1.1 course shows you how to deploy and manage the Cisco Nexus 9000 Series Switches in Cisco Application Centric Infrastructure (Cisco ACI) mode. The Implementing Cisco Application Centric Infrastructure (DCACI) v1.1 training will show you how to configure and manage Cisco Nexus 9000 Series Switches in ACI mode, how to connect the Cisco ACI fabric to external networks and services, and the fundamentals of Virtual Machine Manager (VMM) integration. You will gain hands-on practice implementing key capabilities such as fabric discovery, policies, connectivity, VMM integration, and more. Cisco application course also

prepares you for the 300-620 DCACI exam (Implementing Cisco Application Centric Infrastructure), which is required for earning the Cisco Certified Specialist-Data Center ACI Implementation, and CCNP Data Center certifications.

Note: 300-620 DCACI is the only exam necessary for achieving the Cisco Certified Specialist-Data Center ACI Implementation certification. However, it merely satisfies the concentration exam requirement for CCNP Data Center certification.

Note: DCACI course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

This course will give the learner 40 CE Credits.

Implementing Cisco HyperFlex (DCIHX) v1.3

32 Hours | \$3,895

Schedules

03/13/2023 – 03/16/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/12/2023 – 06/15/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The Implementing Cisco HyperFlex (DCIHX) v1.3 course shows you how to deploy and use the Cisco HyperFlex data platform to support multicloud workloads. You will become familiar with HyperFlex components and learn how to install, design, manage, and troubleshoot Cisco HyperFlex to support highly scalable and resilient multicloud

implementations. You will also gain hands-on experience focused on installation, management, maintenance, and native replication, and you will explore cluster technologies as well as Cisco Intersight.

Implementing Cisco Nexus 9000 Switches in NX-OS Mode - Advanced (DCNXA) v1.0

32 Hours | \$3,895

Schedules

03/07/2023 – 03/10/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/20/2023 – 06/23/2023
07/11/2023 – 07/14/2023
08/08/2023 – 08/11/2023
09/12/2023 – 09/15/2023
10/17/2023 – 10/20/2023
11/14/2023 – 11/17/2023

The Implementing Cisco Nexus 9000 Switches in NX-OS Mode - Advanced (DCNXA) v1.0 course provides advanced training in applying and managing the Cisco Nexus 9000 Series Switches in NX-OS mode. The Cisco NX-OS platform deploys Virtual Extensible LAN (VXLAN) and Ethernet VPN (EVPN) using Cisco Data Center Network Manager (DCNM), implements Multi-Site VXLAN EVPN, and integrates L4-L7 services into the fabric providing external connectivity, utilizing advanced tenant features. You will also learn how to implement Cisco NX-OS Enhanced Policy-Based Redirect (ePBR) and Intelligent Traffic Director (ITD) features.

Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) v1.0

40 Hours | \$4,595

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Note: Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) v1.0 is the replacement for following courses

- Configuring Cisco NX-OS Switches and Fabrics in the Data Center (DCCNX) v1.0
- Introducing Cisco NX-OS Switches and Fabrics in the Data Center (DCINX) v1.0
- Introducing Cisco Nexus 9000 Switches in NX-OS Mode (DCINX9K) v2.1 The Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) v1.0 course gives you a detailed understanding of the Cisco Nexus switch platform and teach you how to install, configure, and manage Cisco Nexus switch platforms in a scalable, highly available environment. Through a combination of lectures and hands-on labs, you will learn how to describe various aspects of the Cisco Nexus product families and platforms, including implementation, management, security, programmability and storage. In Implementing Cisco NX-OS Switches and Fabrics in the Data Center (DCNX) v1.0 training you will learn how to configure device aliases and zoning, Fibre Channel over Ethernet (FCoE), and N-Port Identifier Virtualization (NPV), and N-Port Virtualization (NPV) modes.

Implementing the VersaStack Solution (VSIMP) v1.0

24 Hours | \$3,295

Schedules

03/07/2023 – 03/09/2023
04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/05/2023 – 06/07/2023
07/25/2023 – 07/27/2023
08/15/2023 – 08/17/2023
09/19/2023 – 09/21/2023
10/17/2023 – 10/19/2023
11/28/2023 – 11/30/2023

Implementing the VersaStack™ Solution is a course focused on 80% lab activities and 20% direct instruction for field engineers. This course enables engineers to deploy and support a VersaStack system using methods and procedures defined in the Cisco Validated Design. Infrastructure covered includes Cisco Nexus 9000 switches, Cisco MDS switches, Cisco UCS, VMware, Cisco UCS Director Virtual Machine, and IBM Storwize Storage System.

Introducing Cisco Unified Computing System (DCIUCS) v1.0

16 Hours | \$2,100

Schedules

03/20/2023 – 03/21/2023
04/17/2023 – 04/18/2023
05/22/2023 – 05/23/2023
06/26/2023 – 06/27/2023
07/12/2023 – 07/13/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/08/2023 – 11/09/2023

The Introducing Cisco Unified Computing System (DCIUCS) v1.0 is an introductory course that shows you how to deploy, secure, operate, and maintain the Cisco Unified Computing system (Cisco UCS) B-

Series blade servers, Cisco UCS C-Series and S-Series rack servers, and Cisco HyperFlex product family for use in data centers. You will gain hands-on practice on basic Cisco UCS server configuration, performing backup and restore activities, and more.

Note: DCIUCS course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS.

This course will give the learner 12 CE Credits

Troubleshooting Cisco Data Center Infrastructure (DCIT) v7.0 (Professional)

40 Hours | \$4,600

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

The Troubleshooting Cisco Data Center Infrastructure (DCIT) v7.0 course shows you how to troubleshoot LAN, SAN, Cisco Data Center Unified Fabric, Cisco Unified Computing System (UCS), and Cisco Application-Centric Infrastructure (ACI). You will learn methodologies and tools to identify issues that may occur in data center network architecture. You will get extensive hands-on practice troubleshooting installation, configuration and interconnectivity issues on Cisco MDS switches, Cisco Nexus switches, Cisco Fabric Extenders (FEXs), Cisco UCS, Cisco ACI, and more. This course helps prepare you to take the exam, Troubleshooting Cisco Data

Center Infrastructure (300-615 DCIT), which leads to CCNP Data Center and the Cisco Certified Specialist – Data Center Operations certifications. The 300-615 DCIT exam certifies your knowledge of troubleshooting a data center infrastructure including network, compute platforms, storage network, automation, management and operations. After you pass 300-615 DCIT:

- You earn the Cisco Certified Specialist – Data Center Operations certification.
- You will have satisfied the concentration exam requirement for new CCNP Data Center certification. To complete your CCNP Data Center certification, pass the Implementing and Operating Cisco Data Center Core Technologies (300-601 DCCOR) exam or its equivalent.

Note: DCIT course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

This course will give the learner 50 CE Credits

The Understanding Cisco Data Center Foundations (DCFNDU) v1.1 course helps you prepare for entry-level data center roles. In this course, you will learn the foundational knowledge and skills you need to configure Cisco data center technologies including networking, virtualization, storage area networking, and unified computing. You will get an introduction to Cisco Application Centric Infrastructure (Cisco ACI), automation and cloud computing. You will get hands-on experience with configuring features on Cisco Nexus Operating System (Cisco NX-OS) and Cisco Unified Computing System (Cisco UCS).

This Understanding Cisco Data Center Foundations (DCFNDU) v1.1 training does not lead directly to a certification exam, but it does cover foundational knowledge that can help you prepare for several CCNP and other professional-level data center courses and exams.

Note: DCFNDU course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

This course will give the learner 30 CE Credits

Understanding Cisco Data Center Foundations (DCFNDU) v1.1

40 Hours | \$4,600

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

Cisco DevNet Track

Cisco NSO Administration and DevOps (NSO303) v4.0

32 Hours | \$3,895

Schedules

03/13/2023 – 03/16/2023
04/03/2023 – 04/06/2023
05/01/2023 – 05/04/2023
06/05/2023 – 06/08/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Cisco Network Services Orchestrator (NSO) Administration and DevOps (NSO303) v4.0 course continues the learning journey of the NSO Essentials for Programmers and Network Architects (NSO201) and NSO Advanced for Python Programmers (NSO300) courses by introducing you to the system administration and DevOps focusing on NSO; the robust bridge linking network automation and orchestration tools, examining the development, operation, and administration task functions. You will learn how to set up, configure, deploy, and maintain a Cisco Network Services Orchestrator solution, and learn best practices for using DevOps. The examples shown in this course demonstrate real-world scenarios to prepare you for deployment and management of new or existing NSO instances. The course guides you through the setup of a production ready NSO instances using system installation with access control settings, the deployment of NSO in Docker containers, and introduces modern DevOps concepts and tools such as Git and Continuous Delivery/Continuous Deployment (CI/CD). You will learn how to migrate CDM devices, how to build NETCONF NEDs from the NSO CLI, how to handle NSO Alarms, and many more features that benefit you in your journey with Cisco NSO.

Cisco NSO Advance Python Programmers (NSO300) v4.0

40 Hours | \$4,195

Schedules

07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Cisco Network Services Orchestrator (NSO) Advance Python Programmers (NSO300) v4.0 course continues the learning journey of the NSO Essentials for Programmers and Network Architects (NSO201) course with NSO to include customizing templates with Python programming, Docker deployment, and Nano services. You will learn to create advanced services using the NSO application framework and Python scripting with both new and existing Layer 3 Multiprotocol Label Switching (MPLS) VPN services. You will also learn how to manage and scale these services to reduce operation consumption, and increase both security and available physical space, since virtualized network functions (VNFs) replace physical hardware. You will use Network Functions Virtualization (NFV) orchestration features, and Cisco Elastic Services Controller (ESC) to manage virtualized network functions.

Cisco Programming for Network Engineers (PRNE) v2.0

32 Hours | \$4,125

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/13/2023 – 06/16/2023
07/11/2023 – 07/14/2023
08/22/2023 – 08/25/2023
09/26/2023 – 09/29/2023
10/24/2023 – 10/27/2023
11/14/2023 – 11/17/2023

The Programming for Network Engineers (PRNE) v2.0 course is designed to equip you with fundamental skills in Python programming. Through a combination of lectures and lab experience in simulated network environments, you will learn to use Python basics to create useful and practical scripts with Netmiko to retrieve data and configure network devices. Upon completion of this training, you should have a basic understanding of Python, including the knowledge to create, apply, and troubleshoot simple network automation scripts.

Note: PRNE course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAUUI, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

Developing Applications and Automating Workflows using Cisco Core Platforms (DEVASC) v1.0

40 Hours | \$4,500

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Developing Applications and Automating Workflows Using Cisco Platforms (DEVASC) v1.0 course helps you prepare for Cisco DevNet Associate certification and for associate-level network automation engineer roles. You will learn how to implement basic network applications using Cisco

platforms as a base, and how to implement automation workflows across network, security, collaboration, and computing infrastructure. The course gives you hands-on experience solving real world problems using Cisco Application Programming Interfaces (APIs) and modern development tools. This course helps you prepare to take the **200-901 DevNet Associate (DEVASC)** exam. By passing this exam, you earn **Cisco Certified DevNet Associate certification**.

Note: DEVASC course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAUUI, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

Note: DEVASC course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT and vILT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX

This course will give the learner 48 CE Credits

Developing Applications for Cisco Webex and Webex Devices (DEVWBX) v1.1

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Developing Applications for Cisco Webex and Webex Devices (DEVWBX) v1.1 course prepares you to use the programmability features of Webex, Cisco enterprise solution for video conferencing, online meetings, online training, webinars, web conferencing, cloud calling, and collaboration. Through a combination of lessons and hands-on labs, you will learn about Webex Application Programming Interface (API) Foundation, meetings, devices, teams, messaging, embedding Cisco Webex, administration, and compliance. You will learn how to leverage Webex APIs to extend the functionalities of teams, meetings, and devices, and explore how these APIs can help automate, administer, and enforce compliance. This course prepares you for the 300-920 Developing Applications for Cisco Webex and Webex Devices (DEVWBX) exam. This course also earns you 40 Continuing Education (CE) credits towards recertification.

Note: DEVWBX course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX

Developing Applications Using Cisco Core Platforms and APIs (DEVCOR) v1.0

40 Hours | \$4,500

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Developing Applications using Cisco Core Platforms and APIs (DEVCOR) v1.0 course helps you prepare for Cisco DevNet Professional certification

and for professional-level network automation engineer roles. You will learn how to implement network applications using Cisco platforms as a base, from initial software design to diverse system integration, as well as testing and deployment automation. The course gives you hands-on experience solving real world problems using Cisco Application Programming Interfaces (APIs) and modern development tools. This course helps you prepare to take the **350-901 Developing Applications using Cisco Core Platforms and APIs (DEVCOR)** exam. By passing this exam, you satisfy the core exam requirement toward **Cisco Certified DevNet Professional**, and you earn the **Cisco Certified DevNet Specialist – Core** certification.

Note: DEVCOR course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX.

This course will give the learner 64 CE Credits

Developing Solutions Using Cisco IoT and Edge Platforms (DEVIOT) v1.0

40 Hours | \$4,500

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Developing Solutions using Cisco IoT and Edge Platforms (DEVIOT) v1.0 course prepares you to develop Internet of Things (IoT) applications for Cisco IoT edge compute and network architecture. Through a combination of lessons and hands-on

experience, you will learn to implement and deploy Cisco IOx applications using Cisco Field Network Director and Cisco Kinetic. This course covers designing, deploying, and troubleshooting edge applications, and understanding the use of management tools, so you can control your industrial network and connected devices at scale. This course will prepare you for the **300-915 Developing Solutions using Cisco IoT and Edge Platforms (DEVIOT)** exam.

Note: DEVIOT course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX.

Implementing Automation for Cisco Data Center Solutions (DCAUI) v1.1

24 Hours | \$4,065

Schedules

03/07/2023 – 03/09/2023
04/10/2023 – 04/12/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/19/2023 – 07/21/2023
08/16/2023 – 08/18/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/15/2023 – 11/17/2023

The Implementing Automation for Cisco Data Center Solutions (DCAUI) v1.1 course teaches you how to implement Cisco Data Center automated solutions including programming concepts, orchestration, and automation tools. Through a combination of lessons and hands-on practice, you will manage the tools and learn the benefits of programmability and automation in the Cisco-powered Data Center. You will examine Cisco Application Centric Infrastructure (Cisco ACI), Software-Defined Networking (SDN) for data center and cloud networks, Cisco Nexus (Cisco NX-OS) platforms for device-centric automation, and

Cisco Unified Computing System (Cisco UCS) for Data Center compute. You will study their current ecosystem of Application Programming Interfaces (APIs), software development toolkits, and relevant workflows along with open industry standards, tools, and APIs, such as Python, Ansible, Git, JavaScript Object Notation (JSON), Yaml Ain't Markup Language (YAML), Network Configuration Protocol (NETCONF), Representational State Transfer Configuration Protocol (RESTCONF), and Yet Another Generation (YANG). This course prepares you for the **300-635 Automating Cisco Data Center Solutions (DCAUTO)** certification exam. **Introducing Automation for Cisco Solutions (CSAU)** is required prior to enrolling in **Implementing Automation for Cisco Data Center Solutions (DCAUI)** because it provides crucial foundational knowledge essential to success. This course also earns you 24 Continuing Education (CE) credits towards recertification.

Note: DCAUI course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

Note: DCAUI course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX.

This course will give the learner 24 CE Credits

Implementing Automation for Cisco Security Solutions (SAUI) v1.0

24 Hours | \$4,065

Schedules

03/21/2023 – 03/23/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The Implementing Automation for Cisco Security Solutions (SAUI) v1.0 course teaches you how to design advanced automated security solutions for your network. Through a combination of lessons and hands-on labs, you will master the use of modern programming concepts, RESTful Application Program Interfaces (APIs), data models, protocols, firewalls, web, Domain Name System (DNS), cloud, email security, and Cisco Identity Services Engine (ISE) to strengthen cybersecurity for your web services, network, and devices. You will learn to work within the following platforms: Cisco Firepower Management Center, Cisco Firepower Threat Defense, Cisco ISE, Cisco pxGrid, Cisco Stealthwatch Enterprise, Cisco Stealthwatch Cloud, Cisco Umbrella, Cisco Advanced Malware Protection (AMP), Cisco Threat grid, and Cisco Security Management Appliances. This course will teach you when to use the API for each Cisco security solution to drive network efficiency and reduce complexity. This course prepares you for **300-735 Automating and Programming Cisco Security Solutions (SAUTO)** certification exam. **Introducing Automation for Cisco Solutions (CSAU)** is required prior to enrolling in **Implementing Automation for Cisco Security Solutions (SAUI)** because it provides crucial foundational knowledge essential to success.

Note: SAUI course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like

DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX

Note: SAUI course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA.

Implementing Automation for Cisco Service Provider Solutions (SPAUI) v1.0

24 Hours | \$2,745

Schedules

03/13/2023 – 03/15/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/05/2023 – 06/07/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

The Implementing Automation for Cisco Service Provider Solutions (SPAUI) v1.0 course prepares you to implement and support automation solutions in a Service Provider network infrastructure, using network programmability principles, protocols, tools, and mechanisms. Through a combination of lessons and hands-on labs, you will learn to deploy, configure, monitor, and operate Service Provider network environments using modern data models. These models allow you to represent operational data and new network management protocols in order to administer hundreds or thousands of devices in a single operation, replacing traditional, time-consuming, error-prone, device-by-device Command Line Interface (CLI) management. The course also introduces powerful automation solutions that can streamline network operations. This course covers Yet Another Next Generation (YANG) data models and validation tools, Representational State Transfer Configuration

Protocol RESTCONF and Network Configuration Protocol (NETCONF) management protocols, model-driven telemetry with Google Remote Procedure Call (gRPC) and Google Network Management Interface (gNMI), traffic automation with XR Transport Control (XTC), Secure Shell (SSH)-based automation tools like NetMiko and Ansible, orchestration provided by Network Services Orchestration (NSO), Network Function Virtualization (NFV) lifecycle management with Elastic Services Controller (ESC), and network operations automation with WAN Automation Engine (WAE). This course prepares you for the **300-535 Automating and Programming Cisco Service Provider Solutions (SPAUTO)** exam. **Introducing Automation for Cisco Solutions (CSAU)** is required prior to enrolling in **Implementing Automation for Cisco Service Provider Solutions (SPAUI)** because it provides crucial foundational knowledge essential to success.

This course will give the learner 24 CE Credits

Implementing DevOps Solutions and Practices Using Cisco Platforms (DEVOPS) v1.0

40 Hours | \$4,500

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Implementing DevOps Solutions and Practices Using Cisco Platforms (DEVOPS) v1.0 course teaches you how to automate application deployment, enable automated configuration, enhance management, and improve scalability of cloud

microservices and infrastructure processes on Cisco platforms.

Note: DEVOPS course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX.

This course will give the learner 40 CE Credits

NSO Essentials for Programmers and Network Architects (NSO201) v4.1

32 Hours | \$3,895

Schedules

03/28/2023 – 03/31/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/25/2023 – 07/28/2023
08/22/2023 – 08/25/2023
09/26/2023 – 09/29/2023
10/24/2023 – 10/27/2023
11/14/2023 – 11/17/2023

The NSO Essentials for Programmers and Network Architects (NSO201) v4.1 course introduces you to Cisco Network Services Orchestrator (NSO). You will learn to install Cisco NSO and use it to manage devices and create services based on YANG templates with XPath. This course provides an overview of NSO as a network automation solution as well as introducing you to NETCONF, YANG, and XPath. You will learn about managing devices and creating device templates, service management and service package creation, network element drivers, interfacing with other systems using APIs, configuring and troubleshooting system settings, managing alarms and reporting, configuring NSO for scalability and performance, and capabilities that can be added to Cisco NSO.

Cisco Digital Network Architecture

Understanding Cisco SDA Fundamentals (SDAFND) v1.0

24 Hours | \$3,845

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/19/2023 – 07/21/2023
08/16/2023 – 08/18/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/15/2023 – 11/17/2023

The Understanding Cisco SDA Fundamentals (SDAFND) v1.0 course introduces you to Cisco Software-Defined Access and teaches you, through a combination of lectures and labs, how to implement simple, single-site fabric networks.

You will learn the benefits of leveraging Software-Defined Access in the Cisco-powered Enterprise Campus network. SDAFND will introduce the solution, its architecture and components, and guide you through labs to design and deploy simple Cisco SD-Access networks.

Cisco Enterprise Track

Administering Advanced Cisco Contact Center Enterprise (CCEAA) v1.0

24 Hours | \$2,695

Schedules

03/14/2023 – 03/16/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The Administering Advanced Cisco Contact Center Enterprise (CCEAA) v1.0 training teaches you how to execute advanced administration tasks associated with the Cisco Contact Center Enterprise (CCE) solution through an in-depth examination of technical and operational requirements, and of the tools used to configure and ensure CCE solution functionality.

This course will give the learner 30 CE Credits

Cisco Customer Success Manager (DTCSM) v2.2

24 Hours | \$2,795

Schedules

03/20/2023 – 03/22/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

The Cisco Customer Success Manager (DTCSM) v2.2 course gives you the confidence and competence to fulfill the Customer Success Manager (CSM) role successfully, helping your customers realize value from their solutions and achieve their business outcomes. The course offers experiential learning through practical exercises using situations based on real-life use cases and case studies. In this highly interactive course, you can practice and gain confidence in fulfilling core tasks using best-practice tools and methodologies while receiving feedback from the facilitator and your peers.

This course is based on understanding the customer lifecycle and how to optimize that journey, increasing the value realized by the customer, and maximizing your likelihood to maintain their loyalty and renew or expand their business opportunities. The course helps you prepare for the 820-605 Cisco Customer Success Manager (CSM) exam. By passing this exam, you earn the Cisco Customer Success Manager Specialist certification.

Cisco SD-WAN Operation and Deployment (SDWFND) v1.0

16 Hours | \$2,000

Schedules

03/14/2023 – 03/15/2023
04/11/2023 – 04/12/2023
05/09/2023 – 05/10/2023
06/13/2023 – 06/14/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Cisco SD-WAN Operation and Deployment (SDWFND) v1.0 is a two-day, instructor-led, hands-on course that addresses the Cisco SD-WAN Operations and Deployment functions. Cisco SD-WAN is a new technology, this training covers salient features such as zero-touch provisioning, secure

network bring-up, configuration using feature templates, the configuration of Overlay Management Protocol (OMP) and policies for network traffic management.

This course will give the learner 16 CE Credits

Designing Cisco Enterprise Networks (ENSLD) v1.1

40 Hours | \$3,845

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Designing Cisco Enterprise Networks (ENSLD) v1.1 course gives you the knowledge and skills you need to design an enterprise network. This course serves as a deep dive into enterprise network design and expands on the topics covered in the Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0 course. This training also helps you prepare to take the 300-420 Designing Cisco Enterprise Networks (ENSLD) exam which is part of the CCNP Enterprise and Cisco Certified Specialist – Enterprise Design certifications. Get this ELT course along with the Cisco Networking subscription to avail additional courses from the track, Such as CCNA, ENCOR, ENARSI, SDWAN300, ENSLD, ENWLSL and more. Buy Cisco Networking Subscription Buy e-Learning

This course will give the learner 40 CE Credits

Designing Cisco Enterprise Wireless Networks (ENWLSD) v1.1

40 Hours | \$4,195

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Designing Cisco Enterprise Wireless Networks (ENWLSD) v1.1 training gives you the knowledge you need to design Cisco wireless networks. The ENWLSD online training covers design specifics from scenario design concepts through the installation phase and into post-deployment validation. ENWLSD course, including the self-paced material, helps prepare you to take the exam, Designing Cisco Enterprise Wireless Networks (300-425 ENWLSD), which leads to the new CCNP Enterprise and Cisco Certified Specialist – Enterprise Wireless Design certifications.

Note: ENWLSD course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD, ENWLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAU, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201.

This course will give the learner 40 CE Credits

Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0

8 Hours | \$1,195

Schedules

03/14/2023 – 03/14/2023
04/18/2023 – 04/18/2023
05/16/2023 – 05/16/2023
06/05/2023 – 06/05/2023
07/10/2023 – 07/10/2023
08/07/2023 – 08/07/2023
09/12/2023 – 09/12/2023
10/10/2023 – 10/10/2023
11/13/2023 – 11/13/2023

The Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0 is an introductory course that equips you with the technical knowledge and skills to confidently operate Cisco Meraki solutions as a unified management system of an entire network from a centralized dashboard.

Through a full day of instruction including live demos and guided lab practice, you will learn how to implement core configurations for a full stack solution in the Meraki Dashboard and leverage essential Meraki Dashboard tools to enforce device security policies, deploy software and apps, and perform remote, live troubleshooting on managed devices. This is the first of two courses that prepare you for the Cisco Meraki Solutions Specialist certification exam.

This course will give the learner 6 CE Credits.

Engineering Cisco Meraki Solutions Part 2 (ECMS2) v2.0

24 Hours | \$2,795

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/25/2023 – 07/27/2023
08/15/2023 – 08/17/2023
09/19/2023 – 09/21/2023
10/17/2023 – 10/19/2023
11/28/2023 – 11/30/2023

The course, Engineering Cisco Meraki Solutions Part 2 (ECMS2) v2.1 elevates your knowledge of Cisco Meraki technology suite. In this advanced technical training course, you - I learn how to plan for network deployments and integrations using the Cisco Meraki platform. Through practical hands-on instruction and experiences, you will learn how to operate Meraki networks and troubleshoot complex network incidents using the Meraki Dashboard and analytics. You will also learn how to design Meraki architectures for redundancy, high-density, and scalability by implementing comprehensive Meraki product features to meet design objectives. This course is the second of two courses that prepares you for Cisco Meraki certification.

The Implementing and Administering Cisco Solutions (CCNA) v1.0 course gives you a broad range of fundamental knowledge for all IT careers. Through a combination of lecture and hands-on labs, you will learn how to install, operate, configure, and verify a basic IPv4 and IPv6 network. The course covers configuring network components such as switches, routers, and Wireless LAN Controllers; managing network devices; and identifying basic security threats. The course also gives you a foundation in network programmability, automation, and software-defined networking. This course helps you prepare to take the 200-301 Cisco Certified Network Associate (CCNA) exam. By passing this one exam, you earn **CCNA certification**.

Note: This course consists of 5 days of instructor-led training with hands-on lab practice, plus the equivalent of 3 days of self-study material.

Note: CCNA course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like ENCOR, ENARSI, ENSDWI, ENSLD, ENWLSL, ENWLSI, ENAUI, IOSXR304, DEVASC, ENSDA, DEVCOR, DEVIOT, ENC9K, DevOps, NSO201, DEVWBX, CLAU, DCAUI, SAUI, CSAU, PRNE, DNAPUC, AMPLS, BGP, IOSXR211, CLDCSR, MPLS, SEGRTE201, IPv6

This course will give the learner 30 CE Credits

Implementing and Administering Cisco Solutions (CCNA) v1.0

40 Hours | \$4,195

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.2

40 Hours | \$4,300

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

Note: Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.2 is the replacement course for Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.1. The Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.2 course gives you the knowledge and skills needed to configure, troubleshoot, and manage enterprise wired and wireless networks. This course helps you prepare to take the 350-401 Implementing Cisco Enterprise Network Core Technologies (ENCOR) exam, which is part of four new certifications:

- CCNP Enterprise
- CCIE Enterprise Infrastructure
- CCIE Enterprise Wireless
- Cisco Certified Specialist – Enterprise Core

Note: ENCOR course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD, ENWLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAUUI, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 64 CE Credits

Implementing and Troubleshooting Networks using Cisco ThousandEyes (ENTEIT) v1.0

24 Hours | \$3,955

Schedules

03/21/2023 – 03/23/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/05/2023 – 07/07/2023
08/02/2023 – 08/04/2023
09/06/2023 – 09/08/2023
10/04/2023 – 10/06/2023
11/01/2023 – 11/03/2023

The Implementing and Troubleshooting Networks Using Cisco ThousandEyes (ENTEIT) v1.0 course is designed to introduce you to and familiarize you with Cisco ThousandEyes. Through a combination of lectures and hands-on experience, you will learn to implement and configure the Cisco ThousandEyes solution. The Implementing and Troubleshooting Networks Using Cisco ThousandEyes (ENTEIT) v1.0 training will show how to install and configure the Cisco ThousandEyes agents with different test types. This solution will also enable you to perform root cause analysis when troubleshooting.

Implementing Automation for Cisco Enterprise Solutions (ENAUI) v 1.2

24 Hours | \$3,515

Schedules

03/22/2023 – 03/24/2023
04/19/2023 – 04/21/2023
05/17/2023 – 05/19/2023
06/21/2023 – 06/23/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

Implementing Automation for Cisco Enterprise Solutions (ENAU) v.1.2 teaches you how to implement Cisco Enterprise automated solutions, including programming concepts, orchestration, telemetry, and automation tools.

This course highlights the tools and the benefits of leveraging programmability and automation in the Cisco-powered Enterprise Campus and WAN. You will also examine platforms including IOS XE software for device-centric automation, Cisco DNA Center for the intent-based enterprise network, Cisco Software-Defined WAN, and Cisco Meraki. Their current ecosystem of APIs, software development toolkits, and relevant workflows are studied in detail together with open industry standards, tools, and APIs, such as Python, Ansible, Git, JSON/YAML, NETCONF/RESTCONF, and YANG. This course also earns you 24 Continuing Education (CE) credits towards recertification.

Cisco Catalyst 9000 switching platform. This hands-on course covers many features of this Cisco IOS XE platform and describes how to manage devices from a single dashboard called Cisco DNA Center. You will learn how to use the Cisco Catalyst 9000 family of switches to enable Software Defined Access (SD-Access) and provide end-to-end security and automation with centralized management using Cisco DNA Center.

Note: ENC9K course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSL, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAU, IOSXR304, ENSDA, NSO201, CLAU, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 18 CE Credits

Implementing Cisco Catalyst 9000 Series Switches (ENC9K) v3.0

24 Hours | \$3,515

Schedules

03/20/2023 – 03/22/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/12/2023 – 06/14/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/25/2023 – 09/27/2023
10/23/2023 – 10/25/2023
11/27/2023 – 11/29/2023

Note: Implementing Cisco Catalyst 9000 Switches (ENC9K) v3.0 is the replacement course for Implementing Cisco Catalyst 9000 Switches (ENC9K) v2.0

The Implementing Cisco Catalyst 9000 Switches (ENC9K) v3.0 course introduces you to the architecture, capabilities, and implementation of the

Implementing Cisco Contact Center Enterprise (CCEI) v1.0

24 Hours | \$2,695

Schedules

03/15/2023 – 03/17/2023
04/26/2023 – 04/28/2023
05/24/2023 – 05/26/2023
06/21/2023 – 06/23/2023
07/11/2023 – 07/13/2023
08/01/2023 – 08/03/2023
09/05/2023 – 09/07/2023
10/03/2023 – 10/05/2023
11/14/2023 – 11/16/2023

The Implementing Cisco Contact Center Enterprise (CCEI) v1.0 course teaches you how to build and implement a Cisco Packaged Contact Center Enterprise (PCCE) solution, including advanced integration of external data, Single Sign-On (SSO), and process detail for the Contact Center Enterprise (CCE) solution with examples of the various

deployment models. This integration process enables businesses and organizations to deliver a connected digital experience of continuous and capability-rich journeys for your customers, across time and channels. This course teaches you to install the CCE solution and provide Tier 2-3 solution support. The focus is on Day 1 support for a new CCE deployment.

This course will give the learner 24 CE Credits

Implementing Cisco Contact Center Enterprise Chat & Email (CCECE) v1.0

32 Hours | \$4,400

Schedules

04/24/2023 – 04/27/2023
05/22/2023 – 05/25/2023
06/26/2023 – 06/29/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The Implementing Cisco Contact Center Enterprise Chat and Email (CCECE) v1.0 course teaches you how to deploy Cisco Enterprise Chat and Email (ECE) into an existing Enterprise Contact Center environment. The Implementing Cisco Contact Center Enterprise Chat and Email (CCECE) v1.0 training will learn the steps required to prepare and configure both Cisco Packaged Contact Center Enterprise (PCCE) and ECE environments for integration, as well as gain experience with the operation and administration tasks required for initial ECE deployment. Additionally, you will experience ongoing system administration tasks such as enabling Single Sign-On (SSO), importing objects, preparing queues and workflows, using the scripting tool, generating reports, and enabling system logs for troubleshooting. Finally, you will also learn how to implement features that enhance ECE operations for Agents.

Implementing Cisco Enterprise Advanced Routing and Services (ENARSI) v1.0

40 Hours | \$4,195

Schedules

03/06/2023 – 03/10/2023
03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Implementing Cisco Enterprise Advanced Routing and Services (ENARSI) v1.0 gives you the knowledge you need to install, configure, operate, and troubleshoot an enterprise network. This course covers advanced routing and infrastructure technologies, expanding on the topics covered in the Implementing and Operating Cisco Enterprise Network Core Technologies (ENCOR) v1.0 course. This course helps prepare you to take the exam, Implementing Cisco Enterprise Advanced Routing and Services (300-410 ENARSI), which leads to the new CCNP Enterprise and Cisco Certified Specialist – Enterprise Advanced Infrastructure Implementation certifications.

Note: ENARSI course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD, ENWLSL, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAU, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 40 CE Credits

Implementing Cisco Enterprise SD-Branch (ENSDBI) v1.0

16 Hours | \$2,200

Schedules

03/16/2023 – 03/17/2023
04/20/2023 – 04/21/2023
05/18/2023 – 05/19/2023
06/15/2023 – 06/16/2023
07/24/2023 – 07/25/2023
08/21/2023 – 08/22/2023
09/25/2023 – 09/26/2023
10/23/2023 – 10/24/2023
11/20/2023 – 11/21/2023

The Implementing Cisco Enterprise SD-Branch (ENSDBI) v1.0 course is designed to teach you to understand the Cisco Software-Defined (SD)-Branch architecture and Cisco Enterprise Network Functions Virtualization (ENFV) solution. Through a series of in-person or e-Learning lectures and labs, you will learn about the supported hardware platforms with a focus on the components, installation, and upgraded workflows of the Cisco Enterprise Network Compute System (ENCS) 5400 series. Additionally, this training help you build your skills on Virtual Network Functions (VNF) deployment and orchestration solutions on Cisco ENCS. This training will help Learner:

- Develop the knowledge necessary to understand the Cisco SD-Branch and its architecture
- Deploy the Cisco ENCS
- Gain hands-on experience with Cisco Network Function Virtualization Infrastructure (NFVIS) and vManage
- Further your skills as a system installer, integrator, or administrator

Implementing Cisco Enterprise Wireless Networks (ENWLSI) v1.1

40 Hours | \$4,300

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Implementing Cisco Enterprise Wireless Networks (ENWLSI) v1.1 course gives you the knowledge and skills needed to create a secure wireless network infrastructure and troubleshoot any related issues. You - I learn how to implement and fortify a wireless network infrastructure using Cisco Identity Service Engine (ISE), Cisco Prime Infrastructure (PI), and Cisco Connect Mobile Experience to monitor and troubleshoot network issues.

This training provides hands-on labs to reinforce concepts including deploying Cisco Prime Infrastructure Release 3.5, Cisco Catalyst 9800 Wireless Controller Release, Cisco IOS XE Gibraltar 16.10, Cisco Digital Network Architecture (Cisco DNA) Center Release 1.2.8, Cisco Connected Mobile Experiences (CMX) Release 10.5, Cisco Mobility Services Engine (MSE) Release 8.0 features, and Cisco ISE Release 2.4.

This training also helps you prepare to take the 300-430 Implementing Cisco Enterprise Wireless Networks (ENWLSI) exam, which is part of the new CCNP Enterprise certification and the Cisco Certified Specialist – Enterprise Wireless Implementation certification.

Note: ENWLSI course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on

courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAU, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 40 CE Credits

Implementing Cisco SD-WAN Solutions (ENSDWI) v2.0

40 Hours | \$4,300

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/21/2023 – 08/25/2023
09/11/2023 – 09/15/2023
10/02/2023 – 10/06/2023
11/06/2023 – 11/10/2023

The Implementing Cisco SD-WAN Solutions (ENSDWI) v2.0 course gives you training about how to design, deploy, configure, and manage your Cisco Software-Defined WAN (SD-WAN) solution in a large-scale live network, including how to migrate from legacy WAN to SD-WAN. You will learn best practices for configuring routing protocols in the data center and the branch, as well as how to implement advanced control, data, and application-aware policies. The Implementing Cisco SD-WAN Solutions (ENSDWI) v2.0 training also covers SD-WAN deployment and migration options, placement of controllers, how to deploy WAN Edge devices, and how to configure Direct Internet Access (DIA) breakout. The course looks at the different Cisco SD-WAN security options available, such as application-aware enterprise firewall, Intrusion Prevention System (IPS), URL filtering, Cisco Advanced Malware Protection (AMP), Secure Sockets Layer/Transport Layer Security (SSL/TLS) proxy, and Cisco Umbrella Secure Internet

Gateway (SIG). This course helps you prepare to take the Implementing Cisco SD-WAN Solutions (300-415 ENSDWI) exam which is part of the CCNP Enterprise certification. You will also earn 32 Continuing Education (CE) credits toward recertification.

Note: ENSDWI course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAU, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 32 CE Credits

Introducing Automation for Cisco Solutions (CSAU) v1.1

24 Hours | \$2,415

Schedules

03/14/2023 – 03/16/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/19/2023 – 07/21/2023
08/16/2023 – 08/18/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/15/2023 – 11/17/2023

The Introducing Automation for Cisco Solutions (CSAU) v1.1 course gives you a broad overview of network automation skills. Through a combination of lecture and hands-on labs, you will learn the fundamentals of automation such as working on model-driven programmability solutions with Representational State Transfer Configuration Protocol (RESTCONF) and Network Configuration Protocol (NETCONF) protocols. The course also covers data formats and types, including Extensible Markup Language (XML), JavaScript Object Notation

(JSON), Yaml Ain - 冲 Markup Language (YAML), and Yet Another Next Generation (YANG), and their value in network automation, along with DevOps tools such as Ansible and Git.

Note: CSAU course is also part of the Cisco Data Center Subscription. Signing up for Data Center subscription will give you access to Unlimited ELT on courses like DCID, DCIT, DCACI, DCMDS, DCAUI, DCCOR, CSAU, DCFNDU, DCINX, DCCNX, DCIUCS, DCCUCS

This course will give the learner 16 CE Credits

Leveraging Cisco Intent-Based Networking DNA Assurance (DNAAS) v2.1

16 Hours | \$2,200

Schedules

03/08/2023 – 03/09/2023
04/05/2023 – 04/06/2023
05/03/2023 – 05/04/2023
06/07/2023 – 06/08/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Leveraging Cisco Intent-Based Networking DNA Assurance (DNAAS) v2.1 course provides you with the skills to monitor and troubleshoot a traditional brownfield network infrastructure by using Cisco Digital Network Architecture (Cisco DNA) Assurance. The course focuses on highlighting issues rather than on monitoring data. The advanced artificial intelligence and machine learning features within Cisco DNA Assurance enable you to isolate the root cause of a problem and to take appropriate actions to quickly resolve issues. Cisco DNA Assurance can be used to perform the work of a Level 3 support engineer.

Transforming to a Cisco Intent-Based Network (IBNTRN) v1.1

40 Hours | \$5,055

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Note: This is a replacement course for Cisco Digital Network Architecture Implementation Essentials (DNAIE) v2.0.

The Transforming to a Cisco Intent-Based Network (IBNTRN) v1.1 course teaches you how the functionality of Cisco SD-Access fits into Cisco Digital Network Architecture (Cisco DNA). Through a combination of lessons and hands-on learning, you will practice operating, managing, and integrating Cisco DNA Center, programmable network infrastructure, and Cisco SD-Access fundamentals. You will learn how Cisco delivers intent-based networking across the campus, branch, WAN, and extended enterprise and ensures that your network is operating as intended.

This course will give the learner 40 CE Credits

Troubleshooting Cisco Contact Center Enterprise (CCET) v1.0

16 Hours | \$1,995

Schedules

03/21/2023 – 03/22/2023
04/25/2023 – 04/26/2023
05/23/2023 – 05/24/2023
06/20/2023 – 06/21/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

The Troubleshooting Cisco Contact Center Enterprise (CCET) v1.0 course is focused on Day 2 support of a Packaged Contact Center Enterprise (PCCE) deployment by Tier 3 support personnel. Cisco PCCE provides an enterprise-class contact center in a prepackaged deployment model that offers simplified deployment, operation, and maintenance. In this training, you will learn to identify the processes and tools used to diagnose common deployment issues so that support personnel can select optimal methods to resolve those issues.

This course will give the learner 16 CE Credits

Understanding Cisco SDA Fundamentals (SDAFND) v1.0

24 Hours | \$3,845

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/19/2023 – 07/21/2023
08/16/2023 – 08/18/2023
09/13/2023 – 09/15/2023
10/18/2023 – 10/20/2023
11/15/2023 – 11/17/2023

The Understanding Cisco SDA Fundamentals (SDAFND) v1.0 course introduces you to Cisco Software-Defined Access and teaches you, through a combination of lectures and labs, how to implement simple, single-site fabric networks.

You will learn the benefits of leveraging Software-Defined Access in the Cisco-powered Enterprise Campus network. SDAFND will introduce the solution, its architecture and components, and guide you through labs to design and deploy simple Cisco SD-Access networks.

Cisco Routing & Switching Track

Configuring BGP on Cisco Routers (BGP) v4.0

40 Hours | \$4,195

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/28/2023 – 09/01/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Configuring BGP on Cisco Routers version 4.0 provides students with in-depth knowledge of Border Gateway Protocol (BGP), the routing protocol that is one of the foundations of the Internet and New World technologies such as Multiprotocol Label Switching (MPLS). This curriculum covers the theory of BGP, configuration of BGP on Cisco IOS routers, detailed troubleshooting information, and hands-on exercises that provide learners with the skills that they need to configure and troubleshoot BGP networks in customer environments. Different service solutions in the curriculum cover BGP network design issues and usage rules for various BGP features, preparing learners to design and implement efficient, optimal, and troublefree BGP networks.

This course will give the learner 40 CE Credits

Implementing Cisco Multicast (MCAST) v2.0

40 Hours | \$4,195

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

The Implementing Cisco Multicast (MCAST) v2.0 is a course covering the fundamentals of IP multicasting, which includes multicast applications, sources, receivers, group management, and IP multicast routing protocols (such as Protocol Independent Multicast, PIM) used within a single administrative domain (intradomain). The issues of switched LAN environments and reliable IP multicasting are covered as well. The course provides technical solutions for simple deployments of IP multicast within a provider or customer network. The curriculum provides the configuration and troubleshooting guidelines for implementation of IP multicast on Cisco routers. The labs provide students with the hands-on experience needed to successfully deploy IP multicast.

This course will give the learner 40 CE Credits

IPv6 Fundamentals, Design and Deployment (IP6FD) v3.0

40 Hours | \$4,100

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The IPv6 Fundamentals, Design, and Deployment (IP6FD) v3.0 course is an instructor-led course that is presented by Cisco Learning Partners to their end-user customers. This five-day course aims at providing network engineers and technicians that are working in the enterprise sector with the knowledge and skills that are needed to study and configure Cisco IOS Software IPv6 features. The course also provides an overview of IPv6 technologies, covers IPv6 design and implementation, describes IPv6 operations, addressing, routing, services, transition, and deployment of IPv6 in enterprise as well as in service provider networks, and includes case studies useful for deployment scenarios.

This course will give the learner 40 CE Credits

Cisco Security Track

Implementing and Configuring Cisco Identity Services Engine (SISE) v3.0

40 Hours | \$4,725

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Implementing and Configuring Cisco Identity Services Engine (SISE) v3.0 course shows you how to deploy and use Cisco Identity Services Engine (ISE) v2.4, identity and access control policy platform that simplifies the delivery of consistent, highly secure access control across wired, wireless, and VPN connections. The Implementing and Configuring Cisco Identity Services Engine (SISE) v3.0 course provides you with the knowledge and skills to implement and use Cisco ISE, including policy enforcement, profiling services, web authentication and guest access services, BYOD, endpoint compliance services, and TACACS+ device administration. Through expert instruction and hands-on practice, you will learn how to use Cisco ISE to gain visibility into what is happening in your network, streamline security policy management, and contribute to operational efficiency.

Note: SISE course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 40 CE Credits

Implementing and Operating Cisco Security Core Technologies (SCOR) v1.0

40 Hours | \$4,295

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Master skills and technologies for implementing core Cisco security solutions, and ensure advanced threat protection against cyberattacks! The five-day intermediate-level Cisco Security training develops your understanding of security for networks, cloud and content, endpoint protection, securing network access, visibility, and enforcement. You acquire hands-on experience in deploying Cisco Firepower Next-Generation Firewall, Cisco Adaptive Security Appliance (ASA) Firewall, configuring access control policies, mail policies, and 802.1X Authentication. Cisco course also prepares you for the 350-701 SCOR exam (Implementing and Operating Cisco Security Core Technologies), which is required for earning Cisco Certified Specialist-Security Core, CCNP Security, and CCIE Security certifications.

Note: 350-701 SCOR is the only exam necessary for achieving the Cisco Certified Specialist-Security Core certification. However, it merely satisfies the core requirement for CCNP Security certification and acts as a qualifying exam for CCIE Security certification.

Note: SCOR course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 64 CE Credits

Implementing Automation for Cisco Security Solutions (SAUI) v1.0

24 Hours | \$4,065

Schedules

03/21/2023 – 03/23/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The Implementing Automation for Cisco Security Solutions (SAUI) v1.0 course teaches you how to design advanced automated security solutions for your network. Through a combination of lessons and hands-on labs, you will master the use of modern programming concepts, RESTful Application Program Interfaces (APIs), data models, protocols, firewalls, web, Domain Name System (DNS), cloud, email security, and Cisco Identity Services Engine (ISE) to strengthen cybersecurity for your web services, network, and devices. You will learn to work within the following platforms: Cisco Firepower Management Center, Cisco Firepower Threat Defense, Cisco ISE, Cisco pxGrid, Cisco Stealthwatch Enterprise, Cisco Stealthwatch Cloud, Cisco Umbrella, Cisco Advanced Malware Protection (AMP), Cisco Threat grid, and Cisco Security Management Appliances. This course prepares you for **300-735 Automating and Programming Cisco Security Solutions (SAUTO)** certification exam. **Introducing Automation for Cisco Solutions (CSAU)** is required prior to enrolling in **Implementing Automation for Cisco Security Solutions (SAUI)** because it provides crucial foundational knowledge essential to success.

Note: SAUI course is also part of the Cisco DevNet Subscription. Signing up for DevNet subscription will give you access to Unlimited ELT on courses like DEVASC, DEVCOR, DCAUI, SPAUI, SAUI, DEVOPS, DEVIOT, DEVWBX

Note: SAUI course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

Implementing Cisco Unified Communications Security (UCSEC) v1.0

40 Hours | \$3,845

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

Implementing Cisco Unified Communications Security (UCSEC) v1.0 is a new five-day ILT class that is designed to provide students with the necessary knowledge and skills to implement security features in a Cisco Unified Communications environment. Cisco Unified Communications support several features and mechanisms to secure voice signaling and communications and to mitigate attacks against Cisco Unified Communications networks. The Implementing Cisco Unified Communications Security (UCSEC) v1.0 course introduces security mechanisms and describes different implementation scenarios that increase the security level of Cisco Unified Communications networks.

Implementing Secure Solutions with Virtual Private Networks (SVPN) v1.0

40 Hours | \$4,295

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/21/2023 – 08/25/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

The Implementing Secure Solutions with Virtual Private Networks (SVPN) v1.0 course teaches you how to implement, configure, monitor, and support enterprise Virtual Private Network (VPN) solutions. Through a combination of lessons and hands-on experiences you will acquire the knowledge and skills to deploy and troubleshoot traditional Internet Protocol Security (IPsec), Dynamic Multipoint Virtual Private Network (DMVPN), FlexVPN, and remote access VPN to create secure and encrypted data, remote accessibility, and increased privacy. This course will prepare you for the 300-730 Implementing Secure Solutions with Virtual Private Networks (SVPN) exam.

Note: SVPN course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 40 CE Credits

Introduction to 802.1X Operations for Cisco Security Professionals (802.1X) v2.0

16 Hours | \$3,515

Schedules

03/13/2023 – 03/14/2023
04/20/2023 – 04/21/2023
05/25/2023 – 05/26/2023
06/22/2023 – 06/23/2023
07/18/2023 – 07/19/2023
08/15/2023 – 08/16/2023
09/19/2023 – 09/20/2023
10/10/2023 – 10/11/2023
11/14/2023 – 11/15/2023

The Introduction to 802.1X Operations for Cisco Security Professionals (802.1X) v2.0 shows you how to configure and prepare to deploy Cisco Identity-Based Networking Services (IBNS) solutions based on Cisco Identity Services Engine (ISE), Cisco Catalyst switches, and Cisco Wireless LAN Controllers. In this training you will learn the fundamentals of the 802.1X protocol and configuration, Cisco IBNS, configuring access for non-suppliant devices, Cisco ISE deployment options, architectural components, considerations with 802.1X, and more. With this training you will also gain hands-on experience configuring 802.1X-based network services using the Cisco Identity Services Engine and a Cisco Catalyst switch. This training will help the Learner:

- Learn about and practice configuring Cisco Identity-Based Networking Services solutions at your own pace
- Build your skills using Cisco Identity-Based Networking Services (IBNS) to secure network connectivity and resources

Note: 802.1X course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECLD, SWSA

This course will give the learner 18 CE Credits

Performing CyberOps Using Cisco Security Technologies (CBRCOR) v1.0

40 Hours | \$5,275

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/22/2023 – 05/26/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/21/2023 – 08/25/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Performing CyberOps Using Cisco Security Technologies (CBRCOR) v1.0 course guides you through cybersecurity operations fundamentals, methods, and automation. The knowledge you gain in this course will prepare you for the role of Information Security Analyst on a Security Operations Center (SOC) team. You will learn foundational concepts and their application in real-world scenarios, and how to leverage playbooks in formulating an Incident Response (IR). The course teaches you how to use automation for security using cloud platforms and a SecDevOps methodology. You will learn the techniques for detecting cyberattacks, analyzing threats, and making appropriate recommendations to improve cybersecurity.

This course also earns you 40 Continuing Education (CE) credits towards recertification and prepares you for the 350-201 CBRCOR core exam.

Protecting Against Malware Threats with Cisco AMP for Endpoints (SSFAMP) v6.0

24 Hours | \$3,195

Schedules

03/20/2023 – 03/22/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/18/2023 – 09/20/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The Protecting Against Malware Threats with Cisco AMP for Endpoints (SSFAMP) v6.0 course shows you how to deploy and use Cisco AMP for Endpoints, a next-generation endpoint security solution that prevents, detects, and responds to advanced threats. Through expert instruction and hands-on lab exercises, you will learn how to implement and use this powerful solution through several step-by-step attack scenarios. You will learn how to build and manage a Cisco AMP for Endpoints deployment, create policies for endpoint groups, and deploy connectors. You will also analyze malware detections using the tools available in the AMP for Endpoints console.

Securing Cisco Networks with Open Source Snort (SSFSNORT) v2.1

32 Hours | \$3,895

Schedules

03/06/2023 – 03/09/2023
04/03/2023 – 04/06/2023
05/08/2023 – 05/11/2023
06/05/2023 – 06/08/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Securing Cisco Networks with Open Source Snort (SSFSNORT) v2.1 course shows you how to deploy a network intrusion detection system based on Snort. You will learn how to install, configure, operate, and manage a Snort system, rules writing with an overview of basic options, advanced rules writing, how to configure Pulled Pork, and how to use OpenAppID to provide protection of your network from malware. You will learn techniques of tuning and performance monitoring, traffic flow through Snort rules, and more.

Securing Cisco Networks with Snort Rule Writing Best Practices (SSFRULES) v2.1

24 Hours | \$3,295

Schedules

03/14/2023 – 03/16/2023
04/18/2023 – 04/20/2023
05/16/2023 – 05/18/2023
06/20/2023 – 06/22/2023
07/18/2023 – 07/20/2023
08/08/2023 – 08/10/2023
09/12/2023 – 09/14/2023
10/10/2023 – 10/12/2023
11/14/2023 – 11/16/2023

The Securing Cisco Networks with Snort Rule Writing Best Practices (SSFRules) v2.1 course shows you how to write rules for Snort, an open-source intrusion detection and prevention system. Through a combination of expert-instruction and hands-on practice, this course provides you with the knowledge and skills to develop and test custom rules, standard and advanced rules-writing techniques, how to integrate OpenAppID into rules, rules filtering, rules tuning, and more. The hands-on labs give you practice in creating and testing Snort rules.

Advanced Malware Protection (AMP) for Endpoints, Cisco Stealthwatch Cloud and Enterprise, Cisco Firepower NGFW (next-generation firewall), and more.

Note: SECCLD course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 32 CE Credits

Securing Cloud Deployments with Cisco Technologies (SECCLD) v1.0

32 Hours | \$4,495

Schedules

03/07/2023 – 03/10/2023
04/04/2023 – 04/07/2023
05/02/2023 – 05/05/2023
06/06/2023 – 06/09/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The Securing Cloud Deployments with Cisco Technologies (SECCLD) v1.0 course shows you how to implement Cisco cloud security solutions to secure access to the cloud, workloads in the cloud, and software as a service (SaaS) user accounts, applications, and data. Through expert instruction and hands-on labs, you'll learn a comprehensive set of skills and technologies including: how to use key Cisco cloud security solutions; detect suspicious traffic flows, policy violations, and compromised devices; implement security controls for cloud environments; and implement cloud security management.

This course covers usage of Cisco Cloudlock, Cisco Umbrella, Cisco Cloud Email Security, Cisco

Securing Email with Cisco Email Security Appliance (SESA) v3.1

32 Hours | \$4,725

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/13/2023 – 06/16/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/13/2023 – 11/16/2023

The Securing Email with Cisco Email Security Appliance (SESA) v3.1 course shows you how to deploy and use Cisco Email Security Appliance to establish protection for your email systems against phishing, business email compromise, and ransomware, and to help streamline email security policy management. This hands-on course provides you with the knowledge and skills to implement, troubleshoot, and administer Cisco Email Security Appliance, including key capabilities such as advanced malware protection, spam blocking, anti-virus protection, outbreak filtering, encryption, quarantines, and data loss prevention.

Note: This course helps you prepare to take the exam, **Securing Email with Cisco Email Security Appliance (300-720 SESA)**, which leads to **CCNP Security and the Certified Specialist – Email Content Security certifications**.

Note: SESA course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 24 CE Credits

Securing Networks with Cisco Firepower Next-Generation IPS (SSFIPS) v4.0

40 Hours | \$4,725

Schedules

03/06/2023 – 03/10/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/05/2023 – 06/09/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Securing Networks with Cisco Firepower Next-Generation IPS (SSFIPS) v4.0 course shows you how to deploy and use Cisco Firepower Next-Generation Intrusion Prevention System (NGIPS). This hands-on course gives you the knowledge and skills to use the platform features and includes firewall security concepts, platform architecture and key features; in-depth event analysis including detection of network-based malware and file type, NGIPS tuning and configuration including application control, security intelligence, firewall, and network-based malware and file controls; Snort rules language; file and malware inspection, security intelligence, and network analysis policy configuration designed to

detect traffic patterns; configuration and deployment of correlation policies to take action based on events detected; troubleshooting; system and user administration tasks, and more.

This course helps you prepare to take the exam, Securing Networks with Cisco Firepower (300-710 SNCF), which leads to CCNP Security and Cisco Certified Specialist - Network Security Firepower certifications. The 300-710 SNCF exam has a second preparation course as well, Securing Networks with Cisco Firepower Next Generation Firewall (SSNGFW). You can take these courses in any order. This course also earns you 40 Continuing Education (CE) credits towards recertification.

Securing the Web with Cisco Web Security Appliance (SWSA) v3.0

16 Hours | \$2,195

Schedules

03/13/2023 – 03/14/2023
04/20/2023 – 04/21/2023
05/18/2023 – 05/19/2023
06/22/2023 – 06/23/2023
07/25/2023 – 07/26/2023
08/22/2023 – 08/23/2023
09/12/2023 – 09/13/2023
10/17/2023 – 10/18/2023

Learn to Implement, use, and maintain Cisco Web Security Appliance (WSA), powered by Cisco Talos, to provide advanced protection for business email and control against web security threats! The two-day intermediate-level Cisco Web Security Appliance training helps you in deploying proxy services, using authentication, implementing policies for controlling HTTPS traffic and access, implementing use control settings, and policies. You learn to use the solution - anti-malware features, implement data security and data loss prevention, perform administration of Cisco WSA solution, and much more. Cisco security course also prepares you for the 300-725 SWSA exam (Securing the Web with Cisco Web Security

Appliance), which is required for earning CCNP Security and Cisco Certified Specialist-Web Content Security certifications.

Note: 300-725 SWSA exam is the only exam necessary for achieving the Cisco Certified Specialist-Web Content Security certification. However, it merely satisfies the concentration exam requirement for CCNP Security certification.

Note: SWSA course is also part of the Cisco Security Subscription. Signing up for Security subscription will give you access to Unlimited ELT on courses like SCOR, SISE, SESA, SWSA, SVPN, SAUI, 802.1X, SECCLD, SWSA

This course will give the learner 16 CE Credits

Cisco Service Provider Track

Cisco Service Provider 5G Technologies Foundations (SPMBL100) v1.0

32 Hours | \$4,125

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/20/2023 – 06/23/2023
07/18/2023 – 07/21/2023
08/08/2023 – 08/11/2023
09/05/2023 – 09/08/2023
10/03/2023 – 10/06/2023
11/14/2023 – 11/17/2023

The Cisco Service Provider 5G Technologies Foundations (SPMBL100) v1.0 course introduces mobile network components, basic 5G concepts, and features of 5G technology including faster data speeds, higher device capacity, and improved user experience. You will examine the mobile packet core solutions, 5G transport architecture, and Cisco automation and orchestration tools used in 5G networks. You will also learn about the Cisco 5G Non-standalone (NSA) and the Cisco Ultra Cloud Core 5G standalone (SA) platform solutions, the Cisco 5G converged Software-Defined Networking (SDN) transport architecture, and Cisco edge computing solutions. You will study the Cisco Network Function Virtualization (NFVI) architecture, Cisco Network Services Orchestrator (NSO), and Cisco Elastic Services Controller (ESC). You will learn how 5G is distributed with Telco Data Center (DC) with Cisco Application Centric Infrastructure (Cisco ACI). And finally, Zero-Touch Provisioning (ZTP), Cisco Crosswork, and the Cisco 5G security architecture will also be presented.

Implementing Cisco MPLS v3.0

40 Hours | \$3,995

Schedules

03/13/2023 – 03/17/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/21/2023 – 08/25/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Implementing Cisco MPLS (MPLS) v3.0, course that is designed to help students prepare for MPLS exam. This update to the course reflects the most-recent developments in network design and technologies, using real-world scenarios to help reinforce the learning of key objectives.

Enterprises and service providers face many challenges in terms of customer demand, including an ongoing need for value-added services. Conventional IP packet forwarding has several limitations, and more and more enterprise and service providers realize that something else is needed. Not only they must be concerned with protecting their existing infrastructure, but they must also find ways to generate new services that are not currently supportable using existing technologies.

Multiprotocol Label Switching (MPLS) is a high-performance method for forwarding packets through a network. MPLS enables routers at the edge of a network to apply simple labels to packets. This practice allows the edge devices to switch packets according to labels, with minimal lookup overhead. MPLS integrates the performance and traffic-management capabilities of data link Layer 2 with the scalability and flexibility of network Layer 3 routing. When used in conjunction with other standard technologies, MPLS gives the ability to support value-added features.

Note: MPLS course is also part of the Cisco Networking Subscription. Signing up for Networking subscription will give you access to Unlimited ELT on courses like CCNA, ENCOR, ENARSI, ENSDWI, ENSLD,ENWLSD, ENWLSI, DEVASC, DEVCOR, DEVIOT, ENC9K, DevOps, DEVWBX, DCAUI, SAUI, CSAU, PRNE, BGP, MPLS, ENAUI, IOSXR304, ENSDA, NSO201, CLAUUI, DNAPUC, AMPLS, IOSXR211, CLDCSR, SEGRTE201

This course will give the learner 40 CE Credits

Implementing Segment Routing on Cisco IOS XR (SEGRTE201) v2.0

32 Hours | \$3,955

Schedules

03/21/2023 – 03/24/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/06/2023 – 06/09/2023
07/18/2023 – 07/21/2023
08/15/2023 – 08/18/2023
09/05/2023 – 09/08/2023
10/03/2023 – 10/06/2023
11/14/2023 – 11/17/2023

The Implementing Segment Routing on Cisco IOS XR (SEGRTE201) v2.0 course covers the fundamental concepts of Segment Routing (SR), how to configure and verify segment routing within an Interior Gateway Protocol (IGP), and the interworking of Label Distribution Protocol (LDP) with segment routing. You will learn how to implement Topology-Independent Loop-Free Alternate (TI-LFA) using segment routing, and how to instantiate and verify segment routing traffic engineering policies. You will also learn how to implement segment routing within Border Gateway Protocol (BGP).

Operating and Implementing Cisco WAN Automation Engine (SPWAE) v1.0

24 Hours | \$3,955

Schedules

03/22/2023 – 03/24/2023
04/19/2023 – 04/21/2023
05/17/2023 – 05/19/2023
06/21/2023 – 06/23/2023
07/26/2023 – 07/28/2023
08/23/2023 – 08/25/2023
09/27/2023 – 09/29/2023
10/25/2023 – 10/27/2023
11/15/2023 – 11/17/2023

The Operating and Implementing Cisco WAN Automation Engine (SPWAE) v1.0 course teaches you, through a combination of lectures and labs, how to install the Cisco WAN Automation Engine (WAE), builds your confidence with Cisco WAE configuration and basic troubleshooting, and enables you to practice designing and managing bandwidth and traffic engineering.

Additionally, you will learn the basic knowledge necessary to plan, deploy, configure, and maintain the Cisco WAN Automation Engine solutions.

Understanding Cisco Service Provider Network Foundations (SPFNDU) v1.0

40 Hours | \$4,300

Schedules

03/20/2023 – 03/24/2023
04/24/2023 – 04/28/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The Understanding Cisco Service Provider Network Foundations (SPFNDU) v1.0 course is designed to provide you with the foundational knowledge for the suite of Cisco CCNP Service Provider courses. The course expands what you learned from the Cisco CCNA course with a focus on theoretical and practical knowledge needed for the Service Provider environment. Through a combination of lessons and hands-on practice, you will learn about architectures, protocols, software and hardware platforms, and solutions within the Service Provider realm. While this course does not lead directly to a certification exam, it does cover foundational knowledge critical to the success in the Service Provider Technology track. This course also earns you 30 Continuing Education (CE) credits towards recertification.

Cisco Specialist Track

Deploying Cisco Unified Contact Center Enterprise (DUCCE) 2.0 (Collaboration)

40 Hours | \$4,615

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/07/2023 – 08/11/2023
09/25/2023 – 09/29/2023
10/02/2023 – 10/06/2023
11/13/2023 – 11/17/2023

Deploying Cisco Unified Contact Center Enterprise (DUCCE) is a instructor-led course allows learners to deploy the Unified CCE v10.0 solution including installation, deploying HA and using troubleshooting tools to identify issues with inbound and outbound Contact Center functionality. This course is intended for those installing the Unified CCE solution, or those providing Level 3 solution support. This course also serves as a foundation for the two corresponding UCCE Administration courses, but is not a prerequisite. Students will learn enough about CCE scripting in this course to ensure system functionality only. A separate course exists for advanced scripting.

Deploying Cisco Unified Contact Center Express (UCCXD) v6.0

40 Hours | \$3,795

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

The course Deploying Cisco Unified Contact Center Express (UCCX) v6.0, provides the student with hands-on experience and knowledge of tasks typically performed during contact center deployment. This Deploying Cisco Unified Contact Center Express (UCCXD) v6.0 course includes the deployment of Cisco Unified Contact Center Express and Cisco Unified IP Interactive Voice Response (IVR) (Cisco Unified CCX and Cisco Unified IP IVR) as contact center solutions. Tasks include planning, installation, and configuration, scripting, and troubleshooting.

This course will give the learner 40 CE Credits

Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0

8 Hours | \$1,195

Schedules

03/14/2023 – 03/14/2023
04/18/2023 – 04/18/2023
05/16/2023 – 05/16/2023
06/05/2023 – 06/05/2023
07/10/2023 – 07/10/2023
08/07/2023 – 08/07/2023
09/12/2023 – 09/12/2023
10/10/2023 – 10/10/2023
11/13/2023 – 11/13/2023

The Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0 is an introductory course that equips you with the technical knowledge and skills to confidently operate Cisco Meraki solutions as a unified management system of an entire network from a centralized dashboard.

Through a full day of instruction including live demos and guided lab practice, you will learn how to implement core configurations for a full stack solution in the Meraki Dashboard and leverage essential Meraki Dashboard tools to enforce device security policies, deploy software and apps, and perform remote, live troubleshooting on managed devices. This is the first of two courses that prepare you for the Cisco Meraki Solutions Specialist certification exam.

This course will give the learner 6 CE Credits

Engineering Cisco Meraki Solutions Part 2 (ECMS2) v2.0

24 Hours | \$2,795

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/22/2023 – 05/24/2023
06/26/2023 – 06/28/2023
07/25/2023 – 07/27/2023
08/15/2023 – 08/17/2023
09/19/2023 – 09/21/2023
10/17/2023 – 10/19/2023
11/28/2023 – 11/30/2023

The course, Engineering Cisco Meraki Solutions Part 2 (ECMS2) v2.1 elevates your knowledge of Cisco Meraki technology suite. In this advanced technical training course, you - I learn how to plan for network deployments and integrations using the Cisco Meraki platform. Through practical hands-on instruction and experiences, you will learn how to operate Meraki networks and troubleshoot complex network incidents using the Meraki Dashboard and analytics.

You will also learn how to design Meraki architectures for redundancy, high-density, and scalability by implementing comprehensive Meraki product features to meet design objectives. This course is the second of two courses that prepares you for Cisco Meraki certification.

Cisco Wireless Track

Understanding Cisco Wireless Foundations (WLFNDU) v1.0

40 Hours | \$4,195

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Understanding Cisco Wireless Foundations (WLFNDU) v1.0 course gives you the knowledge and skills you need to position, plan, implement, operate, and manage a Cisco wireless LAN (WLAN) network. This course teaches you how to design, install, configure, monitor, and conduct basic troubleshooting tasks on a Cisco WLAN network of any size.

This course will give the learner 30 CE Credits

CISM

CISM Certification Prep

24 Hours | \$1,995

Schedules

03/20/2023 – 03/22/2023

05/15/2023 – 05/17/2023

CISM certification program was developed by the Information Systems Audit and Control Association (ISACA) for experienced Information security management professionals with work experience in developing and managing information security programs and who understand the programs relationship with the overall business goals. The CISM exam is offered three times a year (June, September, and December), consisting of 200 multiple-choice questions that cover the four CISM domains. The American National Standards Institute (ANSI) has accredited the CISM certification program under ISO/IEC 17024:2003, General Requirements for Bodies Operating Certification Systems of Persons.

ISACA Certification Prep courses are taught by our Subject Matter Experts (SMEs) and based on ISACA Curriculum. The aspirants who are looking to get certified can just go to the ISACA website, apply for membership, and purchase the voucher.

Note: This is to declare that it is a DoD approved course.

CompTIA A+

CompTIA A+ Certification Prep (Exam 220-1101 & 220-1102)

40 Hours | \$3,150

Schedules

03/27/2023 – 03/31/2023

05/22/2023 – 05/26/2023

07/31/2023 – 08/04/2023

09/25/2023 – 09/29/2023

Note: CompTIA A+ Certification Prep (Exam 220-1101 & 220-1102) is the replacement course for CompTIA A+ Certification Prep (Exam 220-1001 & 220-1002).

CompTIA A+ certified professionals support today - core technologies from security to networking to virtualization and more. The CompTIA A+ certification is the industry standard for starting a career in information technology in today's digital environment. CompTIA A+ is the only industry-recognized certificate that includes performance testing to demonstrate that professionals can think on their feet and complete key IT support tasks. Employers all over the world rely on it to identify the go-to person in end-point management and technical support roles. Start with our best CompTIA A+ certification prep -course and get a better grasp of the CompTIA A+ certification exam. CompTIA A+ core 1 and 2: CompTIA A+ Exam Codes 220-1101 & 220-1102. The new CompTIA A+ Core Series of the CompTIA A+ certification prep covers expanded content on these growing parts of the IT support role including an expansion of baseline security topics and a different approach to defining competency in operational procedures.

What's Included -

- 5 days instructor-led training
- A+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA A+ Certification Prep (Exam 220-1101)

40 Hours | \$3,150

Schedules

04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
07/31/2023 – 08/04/2023
09/11/2023 – 09/15/2023
10/02/2023 – 10/06/2023

Note: CompTIA A+ Certification Prep (Exam 220-1101) is the replacement course for CompTIA A+ Certification Prep (Exam 220-1001).

It includes expanded content on growing parts of the IT support role. CompTIA A+ certification is the industry standard for launching IT careers into today - digital world. Support the digital world's technologies from security, cloud, to data management, and perform critical IT support tasks with CompTIA A+. The five-day foundational CompTIA A+ certification course covers threat and vulnerability management, software and systems security, compliance and assessment, security operations and monitoring, and incident response. It provides the necessary knowledge for becoming a successful A+ technician. The training helps you acquire some of the core skills and abilities needed for end point management and technical support roles. CompTIA A+ training is DoD approved and also prepares you for the CompTIA A+ 220-1101 (Core 1) exam, one of the two mandatory exams for earning the vendor-neutral CompTIA A+ certification.

What's Included -

- 5 days instructor-led training
- A+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA A+ Certification Prep (Exam 220-1102)

40 Hours | \$3,150

Schedules

03/06/2023 – 03/10/2023
04/10/2023 – 04/14/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/07/2023 – 08/11/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023

Note: CompTIA A+ Certification Prep (Exam 220-1102) is the replacement course for CompTIA A+ Certification Prep (Exam 220-1002).

CompTIA A+ Certification Prep course is designed for the new 220-1102 exam. CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. CompTIA A+ is regularly re-invented by IT experts to ensure that it validates core skills and abilities demanded in the workplace. The Official CompTIA A+ Core 2 (Exam 220-1102) course provides the background knowledge and skills you will require to be a successful A+ technician. It will help you prepare to take the CompTIA A+ Core Series certification examination (exam number 220-1002), in order to become a CompTIA A+ Certified Professional.

What's Included -

- 5 days instructor-led training
- A+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Cloud

CompTIA Cloud Essentials+ Certification Prep (Exam CLO-002)

24 Hours | \$1,665

Schedules

03/13/2023 – 03/15/2023
05/08/2023 – 05/10/2023
07/10/2023 – 07/12/2023
09/11/2023 – 09/13/2023
11/13/2023 – 11/15/2023

Collect or analyze cloud products and services information, develop and implement cloud strategies, and make effective operational business decisions with CompTIA Cloud Essentials+! The three-day entry-level training provides the knowledge and skills required for making clear and conscious decisions about cloud technologies and their business impact. You learn how to evaluate business use cases, financial impacts, cloud technologies, and deployment models. The CompTIA Cloud course helps you in streamlining cloud implementation, creating a common language for staff, and improving productivity across varying levels of business professionals. CompTIA Cloud Essentials+ course also prepares you for the CLO-002 exam, required for earning the vendor-neutral CompTIA Cloud Essentials+ certification.

What's Included -

- 3 days instructor-led training
- Cloud Essentials+ study guide
- Certified Trainer delivering the class

Note:

- This is a DOD approved Course.
- The aligned CompTIA Cloud Essentials+ certification is approved by Army Credentialing Assistance (CA).

CompTIA Cloud+ Certification Prep (Exam CV0-003)

40 Hours | \$3,150

Schedules

03/20/2023 – 03/24/2023
05/15/2023 – 05/19/2023
07/17/2023 – 07/21/2023
08/28/2023 – 09/01/2023
10/23/2023 – 10/27/2023

Note: CompTIA Cloud+ Certification Prep (Exam CV0-003) is the replacement course for CompTIA Cloud+ Certification Prep (Exam CV0-002)

The CompTIA Cloud+ CV0-003 course validates the skills necessary for cloud engineers and IT professionals to deploy, optimize, and troubleshoot cloud instances and solutions. New objectives reflect the increased importance of scalability, high availability, and the various cloud models that have emerged from different vendor solutions. The CV0-003 Cloud+ training emphasizes a vendor-neutral, multi-cloud approach to meet business needs. This new CompTIA Cloud+ Certification Prep (Exam CV0-003) validates the skills needed to implement cloud solutions, maintain and optimize cloud environments, and troubleshoot issues encountered when working in the cloud.

What's Included -

- 5 days instructor-led training
- Cloud+ study guide
- Certified Trainer delivering the class

CompTIA Cloud Essentials

CompTIA Cloud Essentials+ Certification Prep (Exam CLO-002)

24 Hours | \$1,665

Schedules

03/13/2023 – 03/15/2023
05/08/2023 – 05/10/2023
07/10/2023 – 07/12/2023
09/11/2023 – 09/13/2023
11/13/2023 – 11/15/2023

Collect or analyze cloud products and services information, develop and implement cloud strategies, and make effective operational business decisions with CompTIA Cloud Essentials+. The three-day entry-level training provides the knowledge and skills required for making clear and conscious decisions about cloud technologies and their business impact. You learn how to evaluate business use cases, financial impacts, cloud technologies, and deployment models. The CompTIA Cloud course helps you in streamlining cloud implementation, creating a common language for staff, and improving productivity across varying levels of business professionals. CompTIA Cloud Essentials+ course also prepares you for the CLO-002 exam, required for earning the vendor-neutral CompTIA Cloud Essentials+ certification.

What's Included -

- 3 days instructor-led training
- Cloud Essentials+ study guide
- Certified Trainer delivering the class

Note:

- This is a DOD approved Course.
- The aligned CompTIA Cloud Essentials+ certification is approved by Army Credentialing Assistance (CA).

CompTIA CTT+

CompTIA Virtual Train the Trainer (CTT+) Certification Prep

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
06/21/2023 – 06/23/2023
08/28/2023 – 08/30/2023
10/30/2023 – 11/01/2023
11/27/2023 – 11/29/2023

Learn tools and techniques for successfully teaching in today - learning environments and achieve excellence in the training field through CompTIA CTT+! This three-day interactive and participant-driven CTT+ virtual course adds to your technical training and concept delivery skills. It covers in and out of class teaching expertise, preparation, facilitation, and virtual classroom evaluation. It also enables you to connect abilities, theories, and situations for creating efficient instructional styles. This CompTIA CTT+ trains you for TK0-201 (essential) and TK0-203 (virtual trainer) exams, required for earning the CompTIA CTT+ certification.

What's Included -

- 3 days instructor-led training
- CTT+ study guide
- Practice Test
- Certified Trainer delivering the class

* **Terms and Conditions:** The Practice Test included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts. *Note: Only two exams must be passed for earning the certification. In this course, in addition to TK0-201, you will attempt for TK0-203 (virtual trainer).*

CompTIA Cybersecurity

CompTIA Advanced Security Practitioner (CASP+) Certification Prep (Exam CAS-004)

40 Hours | \$3,460

Schedules

04/24/2023 – 04/28/2023
06/26/2023 – 06/30/2023
08/07/2023 – 08/11/2023
10/16/2023 – 10/20/2023

Note: CompTIA Advanced Security Practitioner (CASP+) Certification Prep (Exam CAS-004) is the replacement course for CompTIA Advanced Security Practitioner (CASP+) Certification Prep (Exam CAS-003).

Acquire advanced skills for implementing solutions within cybersecurity policies and frameworks through CompTIA CASP+ training! The five-day CompTIA CASP+ certification training provides technical knowledge for conceptualizing, engineering, integrating, and implementing secure solutions across complex environments, and supporting a resilient enterprise. CompTIA CASP+ training develops your understanding of information security for applying more advanced principles and keeping your organization safe from multiple threats. You also learn to utilize critical thinking and judgment across security disciplines for proposing and implementing sustainable security solutions that map to your organizational strategies. The CompTIA CASP+ course helps you with the skills and abilities needed for the advanced security practitioner role. CompTIA CASP+ training is DoD approved, prepares you for the CAS-004 exam, and earning the vendor-neutral CompTIA Advanced Security Practitioner (CASP+) certification. Upskill your teams in designing, implementing, managing, and safeguarding your organization's IT infrastructure with CompTIA training courses and certification.

What's Included in CompTIA CASP+ training-

- 5 days instructor-led training
- CASP+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Cybersecurity Analyst (CySA+) Certification Prep (Exam CSO-002)

40 Hours | \$3,460

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
06/05/2023 – 06/09/2023
07/31/2023 – 08/04/2023
08/28/2023 – 09/01/2023
10/02/2023 – 10/06/2023

The CompTIA Cybersecurity Analyst (CySA+) course is the only intermediate high-stakes cybersecurity analyst with intrusion detection and response. The behavioral analytics skills covered by the CompTIA CySA+ certification identify and combat malware and advanced persistent threats (APTs), resulting in better threat visibility across a broad attack surface by focusing on network behavior, including an organization's interior network. CompTIA CySA+ meets the ISO 17024 standard and is approved by U.S. Department of Defense to fulfill Directive 8570.01-M requirements. Regulators and government rely on ANSI accreditation because it provides confidence and trust in the outputs of an accredited program.

What's Included -

- 5 days instructor-led training
- CySA+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA PenTest+ Certification Prep (Exam PT0-002)

40 Hours | \$3,460

Schedules

03/20/2023 – 03/24/2023
04/10/2023 – 04/14/2023
06/12/2023 – 06/16/2023
07/31/2023 – 08/04/2023
08/28/2023 – 09/01/2023
10/02/2023 – 10/06/2023

Note: CompTIA PenTest+ Certification Prep (Exam PT0-002) is the replacement course for CompTIA PenTest+ Certification Prep (Exam PT0-001).

CompTIA PenTest+ is a certification for intermediate-level cybersecurity professionals who are tasked with penetration testing to identify, exploit, report, and manage vulnerabilities on a network. PenTest+ assesses the most up-to-date penetration testing, and vulnerability assessment and management skills necessary to determine the resiliency of the network against attacks. Successful candidates will have the intermediate skills and best practices required to customize assessment frameworks to effectively collaborate on and report findings, and communicate recommended strategies to improve the overall state of IT security. CompTIA PenTest+ joins CompTIA Cybersecurity Analyst (CySA+) at the intermediate-skills level of the cybersecurity career pathway. Depending on your course of study, PenTest+ and CySA+ can be taken in any order but typically follows the skills learned in Security+. While CySA+ focuses on defense through incident detection and response, PenTest+ focuses on offense through penetration testing and vulnerability assessment. Although the two exams teach opposing skills, they are dependent on one another. The most qualified cybersecurity professionals have both offensive and defensive skills. Earn the PenTest+ certification to grow your career within the CompTIA recommended cybersecurity career pathway.

What's Included -

- 5 days instructor-led training
- PenTest+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Security+ Certification Prep (Exam SY0-601)

40 Hours | \$3,150

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/28/2023 – 09/01/2023
09/25/2023 – 09/29/2023
10/30/2023 – 11/03/2023

CompTIA Security+ is an excellent entry point for a career in information security. The latest version, CompTIA Security+ SY0-601 exam, expands coverage of cybersecurity threats, risk management, and IoT threats. CompTIA Security+ course equips teams with the knowledge and skills required to assess the security posture of an enterprise environment, recommend and implement appropriate security solutions; monitor and secure hybrid environments, including cloud, mobile, and IoT; operate with an awareness of applicable laws and policies, including principles of governance, risk, and compliance; identity, analyze, and respond to security events and incidents. DoD approved CompTIA Security+ training course prepares you for the CompTIA SY0-601 exam, required for earning the vendor-neutral CompTIA Security+ certification.

What's Included -

- 5 days instructor-led training
- Security+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

Note:

- This is a DOD approved Course.
- The aligned CompTIA Security+ (Exam SY0-601) certification is approved by Army Credentialing Assistance (CA)

CompTIA Cybersecurity Analyst (CySA+)

CompTIA Cybersecurity Analyst (CySA+) Certification Prep (Exam CS0-002)

40 Hours | \$3,460

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
06/05/2023 – 06/09/2023
07/31/2023 – 08/04/2023
08/28/2023 – 09/01/2023
10/02/2023 – 10/06/2023

The CompTIA Cybersecurity Analyst (CySA+) course is the only intermediate high-stakes cybersecurity analyst with intrusion detection and response. The behavioral analytics skills covered by the CompTIA CySA+ certification identify and combat malware and advanced persistent threats (APTs), resulting in better threat visibility across a broad attack surface by focusing on network behavior, including an organization's interior network. CompTIA CySA+ meets the ISO 17024 standard and is approved by U.S. Department of Defense to fulfill Directive 8570.01-M requirements. It is compliant with government regulations under the Federal Information Security Management Act (FISMA). Regulators and government rely on ANSI accreditation because it provides confidence and trust in the outputs of an accredited program. Are you still not sure on how to begin your CySA+ training? Start with our CySA+ certification prep and get a better grasp of the CS0-002 certification exam.

What's Included -

- 5 days instructor-led training
- CySA+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Data+

CompTIA Data+ Certification Prep (Exam DA0-001)

40 Hours | \$3,150

Schedules

04/10/2023 – 04/14/2023
06/12/2023 – 06/16/2023
08/21/2023 – 08/25/2023
10/16/2023 – 10/20/2023

CompTIA Data+ is a five-day instructor-led training designed for professionals who are responsible for promoting and improving data-driven business decision-making. CompTIA Data+ course will cover data ideas and environments, data mining, data analysis, visualization, data governance, quality, and controls, and data governance, quality, and controls.

What's Included -

- 5 days instructor-led training
- Data+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA IT Fundamentals (ITF+)

CompTIA IT Fundamentals (ITF+) Certification Prep (FC0-U61)

40 Hours | \$2,885

Schedules

03/27/2023 – 03/31/2023
05/08/2023 – 05/12/2023
06/26/2023 – 06/30/2023
08/28/2023 – 09/01/2023
10/30/2023 – 11/03/2023

The IT Fundamentals+ course is designed to help you acquire the knowledge and skills to set up and use a computer at home securely and keep it in good

working order, as well as provide informal support for PCs and simple computer networks to your colleagues in a small business.

What's Included -

- 5 days instructor-led training
- ITF+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Linux+

CompTIA Linux+ Certification Prep (Exam XK0-005)

40 Hours | \$3,460

Schedules

04/24/2023 – 04/28/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
09/25/2023 – 09/29/2023

Note: CompTIA Linux+ Certification Prep (Exam XK0-005) is the replacement course for CompTIA Linux+ Certification Prep (Exam XK0-004).

Upgrade your foundational Linux knowledge, develop next-level Linux administration understanding, and improve your installation, troubleshooting, and maintenance skills through CompTIA Linux+! The five-day intermediate-level Linux+ training capitalizes on your existing experience with systems operations and administration. It enables you to configure, manage, operate, and troubleshoot a Linux environment by utilizing security best practices, scripting, and automation.

What's Included -

- 5 days instructor-led training
- Linux+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

Note:

- This is a DOD approved Course.
- The aligned CompTIA Linux+ certification is approved by Army Credentialing Assistance (CA)

CompTIA Network+

CompTIA Network+ N10-008 Certification Prep

40 Hours | \$3,150

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/28/2023 – 09/01/2023
09/18/2023 – 09/22/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Note: CompTIA Network+ Certification Prep (Exam N10-008) is the replacement course for CompTIA Network+ Certification Prep (Exam N10-007).

Acquire skills to design, configure, manage, and troubleshoot networks through CompTIA Network+ n10 008 course. According to Statista Research Department, - during the second quarter of 2022, there were approximately 52 million data breaches. -

- The five-day intermediate-level n10-008 CompTIA Network+ course enables you to build and service networks. It covers wireless/wired network management, mobility, virtualization techniques, critical security concepts, protocols, standards, and troubleshooting procedures. You get to learn the OSI

seven-layer model, modern network operating systems, network hardware, cabling standards, remote connectivity, and Internet connections. Are you still not sure on how to begin your CompTIA Network+ n10-008 training? Start with our CompTIA Network+ certification prep course online and get a better grasp of the CompTIA Network+ certification exam. DoD approved CompTIA Network+ online course also prepares you for the CompTIA Network+ n10-008 exam, required for earning the vendor-neutral CompTIA Network+ certification.

What's Included -

- 5 days instructor-led training
- N+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Project+

CompTIA Project+ Certification Prep (Exam PK0-005)

40 Hours | \$3,150

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/22/2023 – 05/26/2023
07/24/2023 – 07/28/2023
09/25/2023 – 09/29/2023

Note: CompTIA Project+ Certification Prep (Exam PK0-005) is the replacement course for CompTIA Project+ Certification Prep (Exam PK0-004) which is scheduled to release on November 8th, 2022.

In CompTIA Project+ course, students will apply recognized practices of project management skills to coordinate small-sized to medium-sized projects using waterfall and agile methodologies.

What's Included -

- 5 days instructor-led training
- Project+ study guide
- Certified Trainer delivering the class

necessary for server administrators and datacenter technicians to deploy, maintain, and troubleshoot servers. The refreshed objectives streamline outdated content, while ensuring a continued emphasis on the technical implementation of the job role. In CompTIA Server+ SK0-005 training, new content areas emerging from data security, virtualization, and the impact of cloud solutions are included.

What's Included -

- 5 days instructor-led training
- Server+ study guide
- Labs for hands-on learning
- Certified Trainer delivering the class

CompTIA Server+

CompTIA Server+ Certification Prep (Exam SK0-005)

40 Hours | \$3,150

Schedules

03/27/2023 – 03/31/2023
05/22/2023 – 05/26/2023
07/24/2023 – 07/28/2023
09/25/2023 – 09/29/2023

Note: CompTIA Server+ Certification Prep (Exam SK0-005) is the replacement course for CompTIA Server+ Certification Prep (Exam SK0-004) The CompTIA Server+ SK0-005 course validates the skills

CSSLP - Certified Secure Software Lifecycle Professional

CSSLP – Certified Secure Software Lifecycle Professional Certification Prep.

40 Hours | \$4,295

Schedules

05/08/2023 – 05/12/2023
08/07/2023 – 08/11/2023

This course is designed to take you through all aspects of the secure software lifecycle incorporating planning, designing, developing, acquiring, testing, deploying, maintaining, and managing software. You will learn a series of software methodologies to develop software that is secure and resilient to attacks while meeting software requirements for compliance, quality, functionality and assurance through design principles and processes. Participants will gain programming concepts that can effectively protect software from vulnerabilities. You will gain skills to manage risk through the adoption of standards and best practices for the proper development, testing, and learning to employ tools and resources necessary to mitigate risk across the entire lifecycle of products all while preparing for the official (ISC)2 CSSLP exam.

What's Included -

- 5 days instructor-led training
- (ISC)2 Official CSSLP e-Book
- (ISC)2 Official CSSLP Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized CSSLP Instructor
- (ISC)2 Official CSSLP Certificate of completion
- (ISC)2 Official CSSLP Exam Voucher

Disciplined Agile

DAC – Disciplined Agile Coach

16 Hours | \$1,595

Schedules

03/29/2023 – 03/30/2023
05/30/2023 – 05/31/2023
07/18/2023 – 07/19/2023
09/19/2023 – 09/20/2023
11/21/2023 – 11/22/2023

Take your Disciplined Agile knowledge and experience to the next level. Help organizations achieve true agility by coaching teams across the enterprise on how to apply Disciplined Agile and choose their best way of working, and how to guide different teams to improve together.

DAVSC – Disciplined Agile Value Stream Consultant

24 Hours | \$1,995

Schedules

04/26/2023 – 04/28/2023
06/28/2023 – 06/30/2023
08/09/2023 – 08/11/2023
10/11/2023 – 10/13/2023

Do you want to accelerate value delivery at scale by moving beyond individual teams and applying Disciplined Agile across your organization?

Disciplined Agile Value Stream Consultant (DAVSC) training folds practices from Flow, Lean, the Theory of Constraints, and Organizational Development into Disciplined Agile to give you the tools to optimize enterprise-wide value streams.

Filled with collaborative activities, supplemental reading and more, this 21 PDU instructor-led course goes beyond a single framework by teaching you the mindset, practices and tools to reduce waste and focus on what matters.

Disciplined Agile Scrum Master (DASM)

16 Hours | \$1,950

Schedules

03/22/2023 – 03/23/2023
04/24/2023 – 04/25/2023
05/22/2023 – 05/23/2023
06/21/2023 – 06/22/2023
07/12/2023 – 07/13/2023
08/09/2023 – 08/10/2023
09/13/2023 – 09/14/2023
10/11/2023 – 10/12/2023
11/08/2023 – 11/09/2023

Disciplined Agile Scrum Master (DASM) Certification offers a different learning certification approach. The progressive path of knowledge and experience requirements will support your team’s journey to agile mastery.

Is your team treading water using waterfall? Do you feel trapped in an agile framework? Would you like to find solutions to the problems you - e been wrestling with? Are you looking for ways to enhance your team - agility?

Break free from your old ways by choosing a way of working that fits your team - context. Find strategies to improve your processes and strengthen your team with the Disciplined Agile tool kit.

Disciplined Agile Scrum Master is a nine-lesson, instructor-led course that shows you how to use Disciplined Agile (DA) to improve your team - way of working. In just two days, you will become familiar with foundational agile and lean practices that DA supports, practice using the tool kit to solve problems, and learn how to build high-performance teams.

Filled with activities, animations, supplemental reading, and more, this course will prepare you to take the Disciplined Agile Scrum Master (DASM) exam and, equally important, start using Disciplined Agile immediately.

Disciplined Agile is not a framework, but rather a toolkit that focuses on the decisions you need to consider, the options available to you and your team, and the trade-offs associated with these options. It shows how to effectively combine strategies from Scrum, Agile Modeling, Extreme Programming, Kanban, Agile Data, SAFe, and many other approaches in a tailorable and scalable manner. Organisations that adopt Disciplined Agile go to market sooner, deliver value faster and make their customers happier.

Disciplined Agile Senior Scrum Master (DASSM)

16 Hours | \$1,950

Schedules

03/27/2023 – 03/28/2023
04/26/2023 – 04/27/2023
05/25/2023 – 05/26/2023
06/26/2023 – 06/27/2023
07/10/2023 – 07/11/2023
08/07/2023 – 08/08/2023
09/18/2023 – 09/19/2023
10/02/2023 – 10/03/2023
11/13/2023 – 11/14/2023

Tailor Your Approach and Lead Your Team with Disciplined Agile

Position yourself to successfully lead an agile team (or multiple teams) and effectively take on more complex and key initiatives for your organization. Adopt an agile mindset as well as being able to tailor and scale any agile or lean approach using the Disciplined Agile tool kit to choose your way of working (WoW).

DASSM (Disciplined Agile Senior Scrum Master) certification is an advanced program of Disciplined Agile that will help you in positioning yourself to successfully lead an Agile team (or multiple teams) and effectively take on more complex and key initiatives for your organization. This DASSM course

is ideal for the professionals who have been working with Agile approaches for more than two years and played leading roles like Disciplined Agile Scrum Master, Scrum Master, Product Owner, Architecture Owner, etc. and now want to understand how Disciplined Agile helps in achieving enterprise-level agility. Check out more PMI Courses

What is Disciplined Agile?

Disciplined Agile is not a framework, but rather a toolkit that focuses on the decisions you need to consider, the options available to you, and the trade-offs associated with these options. It shows you how to effectively combine strategies from Scrum, Agile Modeling, Extreme Programming, Kanban, Agile Data, SAFe, and many other approaches in a tailorable and scalable manner. Organisations that adopt Disciplined Agile go to market sooner, deliver value faster and make their customers happier.

EC-Council: Application Security

EC-Council CCSE: Certified Cloud Security Engineer

40 Hours | \$4,285

Schedules

03/27/2023 – 03/31/2023
05/15/2023 – 05/19/2023
07/24/2023 – 07/28/2023
09/25/2023 – 09/29/2023

EC-Council - Certified Cloud Security Engineer (C|CSE) course is curated by cloud security professionals in association with renowned subject matter experts to deliver a mix of vendor-neutral and vendor-specific cloud security concepts. The vendor-neutral concepts focus on cloud security practices, technologies, frameworks, and principles. In contrast, the vendor-specific materials deliver the practical skills that are needed to configure specific platforms, such as Amazon Web Services (AWS), Azure, and Google Cloud Platform (GCP). This training offers candidates a well-balanced mix of theoretical and practical skills. In addition, advanced topics also cover modules on securing the cloud infrastructure by implementing regulations and standards to maintain security. EC-Council - cloud security course is mapped to the real-time job roles and responsibilities of cloud security professionals and is ideal for beginners as well as experienced cybersecurity professionals.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

* **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Computer Forensics

EC-Council CHFI: Computer Hacking Forensic Investigator v10

40 Hours | \$3,895

Schedules

03/20/2023 – 03/24/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Note: EC-Council CHFI: Computer Hacking Forensic Investigator v10 is the replacement course for EC-Council CHFI: Computer Hacking Forensic Investigator v9.

This Computer Hacking Forensic Investigator course (CHFI v10) is the only comprehensive ANSI accredited, lab-focused program in the market that gives organizations vendor-neutral training in digital forensics. CHFI v10 training provides its attendees with a firm grasp of digital forensics, presenting a detailed and methodological approach to digital forensics and evidence analysis that also pivots around Dark Web, IoT, and Cloud Forensics. The tools and techniques covered in the CHFI v10 program will prepare the learner for conducting digital investigations using ground-breaking digital forensics technologies. *With organizations rapidly adopting new digital technologies and cyberattacks being a prime risk factor, it is no surprise that computer forensics is the need of the hour. According to a market report, - The estimated growth of the worldwide forensics market is projected at USD 9.7 billion by 2023.* The CHFI v10 program is designed for IT professionals involved with information system security, computer forensics, and incident response. It will help fortify the application knowledge in digital forensics for forensic analysts, cybercrime investigators, cyber defense forensic analysts,

incident responders, information technology auditors, malware analysts, security consultants, and chief security officers. The CHFI v10 program equips candidates with the necessary skills to proactively investigate complex security threats, allowing them to investigate, record, and report cybercrimes to prevent future attacks.

What's Included in CHFI v10

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher

Note:

- The CHFI v10 is a DOD approved Course.
- The aligned EC-Council Computer Hacking Forensic Investigator (CHFI) certification is approved by Army Credentialing Assistance (CA).

EC-Council: Disaster Recovery

EC-Council EDRP: Disaster Recovery Professional v3

40 Hours | \$3,955

Schedules

03/20/2023 – 03/24/2023
04/10/2023 – 04/14/2023
05/15/2023 – 05/19/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/28/2023 – 09/01/2023
10/23/2023 – 10/27/2023

The Disaster Recovery Professional (E|DRP) training is a comprehensive professional course that teaches students how to develop enterprise-wide business continuity and disaster recovery plans. EDRP course provides the professionals with a strong understanding of business continuity and disaster recovery principles, including conducting business impact analysis, assessing of risks, developing policies and procedures, and implementing a plan. EDRP certification will teaches professionals how to secure data by putting policies and procedures in place, and how to recover and restore their organization - critical data in the aftermath of a disaster.

What's Included:

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher

Note:

- EDRP On-Demand Training (iLearn) is also available.
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Ethical Hacking

EC-Council CEH: Certified Ethical Hacker v12

40 Hours | \$3,850

Schedules

03/13/2023 – 03/17/2023
04/03/2023 – 04/07/2023
05/08/2023 – 05/12/2023
06/05/2023 – 06/09/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Certified Ethical Hacker (C|EH) credential, by EC-Council, is the most trusted ethical hacking certification recommended by employers globally. It is the most desired information security certification and represents one of the fastest-growing cyber credentials required by critical infrastructure and essential service providers. CEH course continues to introduce the latest hacking techniques and the most advanced hacking tools and exploits used by hackers and information security professionals today. EC-Council CEH certification training is a newly designed program based on the new learning framework that includes, learn, engage, certify, and compete. The Five Phases of Ethical Hacking and the original core mission of CEH remain valid and relevant today: "To beat a hacker, you need to think like a hacker."

The New Learning Framework

- **Learn** – Gain skills from knowledge-based training and hands-on application that includes 20 modules covering various technologies.
- **Certify** – Gain recognition by proving your ethical hacking skills with the certification that maps to current industry requirements.

- **Engage** – Gain experience by validating the skills you have gained in a mock ethical hacking engagement that gives real-world experience.
- **Compete** – Gain respect by taking up the challenges every month as part of capture-the-flag style competitions and get exposure to the latest technologies and platforms.

Technology updates

The new EC-Council CEHv12 program has the following technology updates:

- MITRE ATT&CK framework
- Diamond model of intrusion analysis
- Techniques for establishing persistence
- Evading NAC and endpoint security
- Fog computing
- Edge computing
- Grid computing NetCom Learning offers the CEHv12 course that will teach you the latest commercial-grade hacking tools, techniques, and methodologies used by hackers and information security professionals to lawfully hack an organization. This course prepares you for EC-Council Certified Ethical Hacker exam 312-50.

What's Included:

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- C|EH 312-50 Exam Voucher
- C|EH Practical Exam Voucher
- C|EH Engage
- 10 Ethical Hacking Video Courses
- C|EH Challenge
- Exam Preps
- Unlimited Retakes (Maximum 4 exam retakes per year)

Note:

- This is a DOD approved course.
- The aligned EC-Council Certified Ethical Hacker (CEH) certification is approved by Army Credentialing Assistance (CA)
- CEH On-Demand Training (iLearn) is also available.

EC-Council CPENT: Certified Penetration Testing Professional

40 Hours | \$4,495

Schedules

05/08/2023 – 05/12/2023

The Certified Penetration Testing Professional (C|PENT) course teaches you how to perform an effective penetration test in an enterprise network environment that must be attacked, exploited, evaded, and defended.

If you have only been working in flat networks, CPENT's live practice range will teach you to take your skills to the next level by teaching you how to pen test IoT systems, OT systems, how to write your own exploits, build your own tools, conduct advanced binaries exploitation, double pivot to access hidden networks, and also customize scripts/exploits to get into the innermost segments of the network.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

* **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Executive Management

EC-Council CCISO: Certified Chief Information Security Officer

40 Hours | \$3,695

Schedules

03/27/2023 – 03/31/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

The chief information security officer (C|CISO) course has certified leading information security professionals around the world and is the first of its kind training and certification program aimed at producing top-level Information Security Leaders. The CCISO does not focus solely on technical knowledge but on the application of information security management principles from an executive management point of view. The program was developed by seasoned CISOs for current and aspiring CISOs. The CCISO training aims to bridge the gap between the executive management knowledge that CISOs need and the technical knowledge that many aspiring CISOs have. This can be a crucial gap as a practitioner endeavors to move from mid-management to upper, executive management roles. Much of this is traditionally learned as on the job training, but the C|CISO Training Program can be the key to a successful transition to the highest ranks of information security management.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

Note:

- This is a DOD approved Course.
- The aligned EC-Council Certified Chief Information Security Officer (CCISO) certification is approved by Army Credentialing Assistance (CA)
- CCISO On-Demand Training (iLearn) is also available.
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Fundamentals

EC-Council CCT: Certified Cybersecurity Technician

40 Hours | \$3,695

Schedules

03/13/2023 – 03/17/2023
05/08/2023 – 05/12/2023

The EC-Council CCT: Certified Cybersecurity Technician is an entry-level cybersecurity certification engineered by EC-Council, the creator of the Certified Ethical Hacker (C|EH) certification, to address the global need and demand for cybersecurity technicians with strong foundational skills. CCT certification training is focused on hands-on practice, with more than 50% of training time dedicated to labs. The EC-Council CCT certification course is accompanied by critical thinking tasks and immersive lab exercises that allow candidates to apply their knowledge and move into the skill development phase in the class itself. The CCT certification training develops participants -

- fundamental cybersecurity skills across the fields of network defense, ethical hacking, digital forensics, and security operations, giving learners the foundation they need to kickstart a career in cybersecurity. This course prepares you for EC-Council Certified Cybersecurity Technician exam 212-82.

What's Included:

- Official Courseware
 - iLabs, Online Labs (6 Months Access)
 - Certification Exam Voucher
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council CSCU: Certified Secure Computer User v2

16 Hours | \$1,095

Schedules

03/23/2023 – 03/24/2023
06/05/2023 – 06/06/2023
08/03/2023 – 08/04/2023
10/05/2023 – 10/06/2023

The purpose of the Certified Secure Computer User (CSCU) training program aims at equipping the students with the necessary knowledge and skills to protect their information assets. The program is designed to interactively teach the students about the whole gamut of information security threats they face ranging from identity theft and credit card fraud to their physical safety. The skills acquired during the course of this program will not only help the students to identify these threats but also to mitigate them effectively. This course prepares an individual to sit for CSCU exam 112-12 This certification is an excellent complement to educational offerings in the domain of security and networking.

Note:

- CSCU On-Demand Training (iLearn) is also available.

EC-Council: Incident Handling

EC-Council CSA: Certified SOC Analyst

24 Hours | \$2,745

Schedules

04/12/2023 – 04/14/2023
06/14/2023 – 06/16/2023
07/05/2023 – 07/07/2023
08/02/2023 – 08/04/2023
10/02/2023 – 10/04/2023
11/01/2023 – 11/03/2023

The Certified SOC Analyst (C|SA) course is the first step to joining a Security Operations Center (SOC). It is engineered for current and aspiring Tier I and Tier II SOC analysts to achieve proficiency in performing entry-level and intermediate-level operations. CSA certification helps the candidate acquire trending and in-demand technical skills through instruction by some of the most experienced trainers in the industry. The program focuses on creating new career opportunities through extensive, meticulous knowledge with enhanced level capabilities for dynamically contributing to a SOC team. CSA training covers the fundamentals of SOC operations, before relaying the knowledge of log management and correlation, Security Information and Event Management (SIEM) deployment, advanced incident detection, and incident response.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

Note:

- CSA On-Demand Training (iLearn) is also available.

* **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council CTIA: Certified Threat Intelligence Analyst

24 Hours | \$2,855

Schedules

03/20/2023 – 03/22/2023
05/15/2023 – 05/17/2023
07/10/2023 – 07/12/2023
09/11/2023 – 09/13/2023
11/13/2023 – 11/15/2023

The Certified Threat Intelligence Analyst (C|TIA) is a training and credentialing program designed and developed in collaboration with cybersecurity and threat intelligence experts across the globe to help organizations identify and mitigate business risks by converting unknown internal and external threats into known threats. It is a comprehensive specialist level program that teaches a structured approach for building effective threat intelligence. CTIA training was based on a rigorous Job Task Analysis (JTA) of the job roles involved in the field of threat intelligence. This program differentiates threat intelligence professionals from other information security professionals. It is a highly interactive, comprehensive, standards-based, intensive 3-day training program that teaches information security professionals to build professional threat intelligence.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher

Note:

- This is a DOD approved Course.
- The aligned EC-Council Certified Threat Intelligence Analyst (CTIA) certification is approved by Army Credentialing Assistance (CA)
- CTIA On-Demand Training (iLearn) is also available.

EC-Council ECIH: Certified Incident Handler

24 Hours | \$2,995

Schedules

04/03/2023 – 04/05/2023
05/22/2023 – 05/24/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/11/2023 – 09/13/2023
10/02/2023 – 10/04/2023
11/13/2023 – 11/15/2023

The Certified Incident Handler E|CIH is a method-driven program that uses a holistic approach to cover vast concepts concerning organizational incident handling and response from preparing and planning the incident handling response process to recovering organizational assets after a security incident. These concepts are essential for handling and responding to security incidents to protect organizations from future threats or attacks. ECIH training addresses all the stages involved in incident handling and the response process to enhance your skills as an incident handler and responder, increasing your employability.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

Note:

- This is a DOD approved Course.
- The aligned EC-Council Certified Incident Handler (ECIH) certification is approved by Army Credentialing Assistance (CA)
- ECIH On-Demand Training (iLearn) is also available.
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Network Security

EC-Council CND: Certified Network Defender v2

40 Hours | \$3,845

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/02/2023 – 10/06/2023
11/13/2023 – 11/17/2023

The CND Training (Certified Network Defender v2) is based on the cybersecurity education framework and work role task analysis presented by the National Info comm Competency Framework (NICF). The CND course has been upgraded and loaded with battle-ready ammunition to help Blue Teams defend and win the war against network breaches. CND training courses now dominate the priorities of every enterprise striving to adapt to a post-COVID world. Forced to go remote, their workers - identities and devices are the new security perimeter. In fact, cybersecurity for business is now as critical as internet access itself. Are you still not sure on how to begin your CND certification training? Start with our Certified Network Defender course and get a better grasp of the Certified Network Defender certification. As an Accredited Training Partner of EC-Council, NetCom Learning provides real-world and hands-on learning experience on Certified Network Defender (CND) and makes your employees competent in understanding information security's critical aspects.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- One Certification Exam Voucher*
- One Retake Exam Voucher available at no charge*

Note:

- This is a DOD approved Course.
- The aligned EC-Council Certified Network Defender (CND) certification is approved by Army Credentialing Assistance (CA)
- CND On-Demand Training (iLearn) is also available.
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council: Secure Coding

EC-Council CASE .NET: Certified Application Security Engineer

24 Hours | \$2,855

Schedules

03/22/2023 – 03/24/2023
05/24/2023 – 05/26/2023
07/17/2023 – 07/19/2023
09/18/2023 – 09/20/2023
11/20/2023 – 11/22/2023

The Certified Application Security Engineer (CASE .NET) credential tests the critical security skills and knowledge required throughout a typical software development life cycle (SDLC), focusing on the importance of the implementation of secure methodologies and practices in today - insecure operating environment. The CASE certified training program is developed concurrently to prepare software professionals with the necessary capabilities that are expected by employers and academia globally. It is designed to be a hands-on, comprehensive application security course that will help software professionals create secure applications.

What's Included

- Official Courseware
- iLabs, Online Labs (6 Months Access)
- Certification Exam Voucher*

Note:

- CASE .NET On-Demand Training (iLearn) is also available.
- * **Terms and Conditions:** The Certification Exam Voucher included with this price are only valid for open enrollments, and this bundle is not eligible for any other promotions/discounts.

EC-Council CASE JAVA: Certified Application Security Engineer

24 Hours | \$2,855

Schedules

04/19/2023 – 04/21/2023
06/21/2023 – 06/23/2023
08/21/2023 – 08/23/2023
10/16/2023 – 10/18/2023

The Certified Application Security Engineer (CASE) credential tests the critical security skills and knowledge required throughout a typical software development life cycle (SDLC), focusing on the importance of the implementation of secure methodologies and practices in today - insecure operating environment. The CASE certified training program is developed concurrently to prepare software professionals with the necessary capabilities that are expected by employers and academia globally. It is designed to be a hands-on, comprehensive application security course that will help software professionals create secure applications.

What's Included

HCISPP – HealthCare Information Security and Privacy Practitioner

HCISPP – HealthCare Information Security and Privacy Practitioner Certification Prep.

32 Hours | \$3,695

Schedules

03/27/2023 – 03/30/2023
06/26/2023 – 06/29/2023
09/25/2023 – 09/28/2023

In this course, you will hone your knowledge and skills related to healthcare security and privacy, and also helps you prepare for the HealthCare Information Security and Privacy Practitioner (HCISPP) exam. HCISPPs provide the front-line defense in protecting health information. As the healthcare industry faces increasing challenges to keeping personal health information protected, there is a growing need to ensure knowledgeable and credentialed security and privacy practitioners are in place to protect this sensitive information. You will learn legal and regulatory requirements and security privacy concept principles regarding healthcare information. It is important to understand and know how organizations manage information risk through risk assessment practices and procedures.

What's Included -

- 4 days instructor-led training
- (ISC)2 Official HCISPP e-Book
- (ISC)2 Official HCISPP Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized HCISPP Instructor
- (ISC)2 Official HCISPP Certificate of completion
- (ISC)2 Official HCISPP Exam Voucher

ITIL 4 Foundation

ITIL 4 Foundation Certification Prep

24 Hours | \$2,415

Schedules

03/22/2023 – 03/24/2023
04/03/2023 – 04/05/2023
04/24/2023 – 04/26/2023
05/03/2023 – 05/05/2023
05/22/2023 – 05/24/2023
06/05/2023 – 06/07/2023
06/27/2023 – 06/29/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/06/2023 – 09/08/2023
10/11/2023 – 10/13/2023
11/13/2023 – 11/15/2023

Get introduced to ITIL 4 and look at IT service management through an end-to-end operating model! The three-day entry-level ITIL 4 Foundation course is based on the ITIL 4 best practice service value system featured in the latest 2019 guidelines. It develops your understanding of key concepts of service management and the ITIL 4 service management framework. You learn to create, deliver and gain insights on the end-to-end process that integrates frameworks such as Agile, Lean IT, and DevOps. ITIL 4 Foundation training prepares you for earning the ITIL 4 Foundation certification. Know more about ITIL Courses.

This course would give you 24 PDUs towards the PMI Talent Triangle:

- **Technical: 18 PDUs**
- **Strategic: 6 PDUs**

*This certification also helps in collecting 2 credits [ITILCredit System: www.Axelos.com].

ITIL 4 Managing Professional

ITIL 4 Specialist: Create, Deliver and Support (CDS) with Certification Exam

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/24/2023 – 04/26/2023
05/24/2023 – 05/26/2023
06/26/2023 – 06/28/2023
07/17/2023 – 07/19/2023
09/11/2023 – 09/13/2023
11/20/2023 – 11/22/2023

Develop your understanding of 'core' service management activities and expand the current scope of ITIL for covering the 'creation' of services!

The three-day advanced-level ITIL 4 Specialist: Create, Deliver, and Support course is the starting module of your journey towards the ITIL Managing Professional designation. It focuses on the integration of multiple value streams, activities, for creating, delivering, and supporting IT-enabled products and services. It also covers supporting practices, tools, and methodologies.

ITIL 4 Specialist: Create, Deliver & Support training prepares you for earning the ITIL 4 Managing Professional (MP) certification. [It is one of the exams required for achieving the ITIL 4 Managing Professional designation].

ITIL 4 Specialist: Drive Stakeholder Value (DSV) with Certification Exam

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/25/2023 – 04/27/2023
05/24/2023 – 05/26/2023
06/27/2023 – 06/29/2023
08/16/2023 – 08/18/2023
10/23/2023 – 10/25/2023

ITIL 4 provides practical and flexible guidance to support organizations on their journey to digital transformation. It provides an end-to-end IT/digital operating model for the delivery and operation of tech-enabled products and services and enables IT teams to continue to play a crucial role in wider business strategy.

ITIL provides a framework for quality IT service management (ITSM) through proven best practice. ITIL manages the creation of a service, its operation and its improvement. Organizations who adopt ITIL invariably adapt it to suit their specific requirements.

ITIL4 Specialist Drive Stakeholder Value is aimed at practitioners responsible for managing and integrating stakeholders, those that focus on customer journey and experience, and those that are responsible for fostering relationships with partners and suppliers.

This course covers key topics such as SLA design, multi-supplier management, communication, relationship management, CX and UX design, customer journey mapping, and more. It will provide candidates with the tools to increase stakeholder satisfaction which is integral to business success in the current competitive landscape.

ITIL 4 Specialist: High Velocity IT (HVIT) with Certification Exam

24 Hours | \$2,195

Schedules

03/27/2023 – 03/29/2023
05/01/2023 – 05/03/2023
06/06/2023 – 06/08/2023
07/24/2023 – 07/26/2023
09/18/2023 – 09/20/2023
11/27/2023 – 11/29/2023

ITIL 4 provides practical and flexible guidance to support organizations on their journey to digital transformation. It provides an end-to-end IT/digital operating model for the delivery and operation of tech-enabled products and services and enables IT teams to continue to play a crucial role in wider business strategy.

ITIL provides a framework for quality IT service management (ITSM) through proven best practice. ITIL manages the creation of a service, its operation and its improvement. Organizations who adopt ITIL invariably adapt it to suit their specific requirements.

This course explores the ways in which digital organizations and digital operating models function in high velocity environments. It will help aspiring organizations, to operate in a similar way to successful digitally-native organizations. The course includes the use of working practices such as Agile and Lean, and technical practices and technologies such as Cloud, Automation, and Automatic Testing, focusing on rapid delivery of products & services to obtain maximum value.

ITIL 4 Specialist High Velocity IT is aimed at IT managers and practitioners involved in digital services or digital transformation projects working within or towards high velocity environments.

ITIL 4 Strategist: Direct, Plan and Improve (DPI) with Certification Exam

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/24/2023 – 04/26/2023
05/24/2023 – 05/26/2023
06/26/2023 – 06/28/2023
08/14/2023 – 08/16/2023
10/16/2023 – 10/18/2023

Acquire practical skills for creating a “learning and improving” IT organization with a compelling strategic direction!

The three-day advanced-level ITIL 4 Strategist course explains the influence and impact of Agile, Lean ways of working, and how they are leveraged to your organization’s advantage. It covers practical, strategic methods for planning and delivering continual improvement with necessary agility.

ITIL 4 Strategist: Direct, Plan, and Improve training prepares you for earning ITIL 4 Strategic Leader and ITIL 4 Managing Professional (MP) certifications. [It is a universal module, a crossover exam, and a key component of both Strategic Leader and Managing Professional streams].

ITIL 4 Strategic Leader

ITIL 4 Leader: Digital & IT Strategy (DITS) with Certification Exam

24 Hours | \$2,745

Schedules

03/08/2023 – 03/10/2023
03/26/2023 – 03/28/2023
04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/07/2023 – 06/09/2023
07/31/2023 – 08/02/2023
09/25/2023 – 09/27/2023

Digital and IT Strategy covers how disruption from new technologies are impacting organizations in every industry and how business leaders are responding.

The IT & Digital Strategy module adds a new perspective to the ITIL suite. DITS elevates the discussion around ITIL concepts to a strategic level among business leaders and aspiring leaders. The module is designed to help IT leaders and aspiring leaders build and implement effective IT and digital strategy that can tackle digital disruption and drive success.

Accredited training for the ITIL 4 Strategic Leader modules is mandatory to enable full understanding of the core material. All modules have ITIL 4 Foundation as a pre-requisite. In addition, the ITIL 4 Leader modules requires a minimum of three years of IT managerial experience.

After achieving the ITIL 4 Managing Professional designation, candidates would only need to complete the ITIL 4 Leader: Digital and IT Strategy module to achieve the ITIL 4 Strategic Leader designation.

ITIL 4 Strategist: Direct, Plan and Improve (DPI) with Certification Exam

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/24/2023 – 04/26/2023
05/24/2023 – 05/26/2023
06/26/2023 – 06/28/2023
08/14/2023 – 08/16/2023
10/16/2023 – 10/18/2023

Acquire practical skills for creating a “learning and improving” IT organization with a compelling strategic direction!

The three-day advanced-level ITIL 4 Strategist course explains the influence and impact of Agile, Lean ways of working, and how they are leveraged to your organization’s advantage. It covers practical, strategic methods for planning and delivering continual improvement with necessary agility.

ITIL 4 Strategist: Direct, Plan, and Improve training prepares you for earning ITIL 4 Strategic Leader and ITIL 4 Managing Professional (MP) certifications. [It is a universal module, a crossover exam, and a key component of both Strategic Leader and Managing Professional streams].

Microsoft .NET Framework / Visual Studio

55320: Programming with HTML, CSS, and JavaScript

40 Hours | \$3,190

Schedules

04/03/2023 – 04/07/2023
06/05/2023 – 06/09/2023
08/07/2023 – 08/11/2023
10/23/2023 – 10/27/2023

Note: This is a replacement course for 20480: Programming in HTML5 with JavaScript and CSS3 (Visual Studio 2017).

This five-day instructor-led is intended for IT professionals interested in becoming client-side web developers. who need to get a jump start on all three technologies. The course includes more than 30 exercises, providing a rapid hands-on introduction to the three major client-side languages: HTML, CSS, and JavaScript. Students should be prepared to cover a lot of ground quickly.

Microsoft 365 (M365)

MD-100T00: Windows Client

40 Hours | \$3,190

Schedules

03/06/2023 – 03/10/2023
04/03/2023 – 04/07/2023
05/01/2023 – 05/05/2023
06/05/2023 – 06/09/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

Note: This is a replacement course for 10982: Supporting and Troubleshooting Windows 10.

The Windows Client course prepares candidates for the MD-100 exam and provides knowledge of installing, customizing, and updating Windows 10 and later operating systems. The course provides candidates with Windows 10 training, and they learn how to manage storage, files, and devices and configure network connectivity for Windows. They will also learn how to secure the Windows OS, protect the device's data, and manage and troubleshoot Windows clients.

Candidates for the MD-100 exam administer Windows clients in an Azure Active Directory environment and must be familiar with device management, client computer networking, policy-based management, and cloud-based solutions.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MD-101T00: Managing Modern Desktops (Modern Desktop)

40 Hours | \$3,190

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/23/2023 – 10/27/2023

MD-101T00: Managing Modern Desktops course comprise topics such as Deploying, Managing, Protecting Modern Desktops and Devices.

In this course, students will learn how to plan and implement an operating system deployment strategy using modern deployment methods, as well as how to implement an update strategy. Students will be introduced to key components of modern management and co-management strategies. This course also covers what it takes to incorporate Microsoft Intune into your organization. Students will also learn about methods for deployment and management of apps and browser-based applications.

Students will be introduced to the key concepts of security in modern management including authentication, identities, access, and compliance policies. Students will be introduced to technologies such as Azure Active Directory, Azure Information Protection and Windows Defender Advanced Threat Protection, as well as how to leverage them to protect devices and data.

This course is based on the objectives of MD-101T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-100T00: Microsoft 365 Identity and Services (Enterprise Administrator)

40 Hours | \$3,190

Schedules

03/20/2023 – 03/24/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/30/2023 – 11/03/2023

Note: This is a replacement course for 10997: Office 365 Administration and Troubleshooting.

This MS-100T00: Microsoft 365 Identity and Services course cover three central elements of Microsoft 365 enterprise administration – Microsoft 365 tenant and service management, Microsoft 365 management, and Microsoft 365 identity management. In Microsoft 365 tenant and service management, you will examine all the key components that must be planned for when designing your Microsoft 365 tenant. Once this planning phase is complete, you will learn how to configure your Microsoft 365 tenant, including your organizational profile, tenant subscription options, component services, user accounts and licenses, and security groups. Finally, you will learn how to manage your tenant, which includes the configuration of tenant roles and managing your tenant health and services. With your Microsoft 365 tenant now firmly in place, you will examine the key components of Microsoft 365 management.

This begins with an overview of Microsoft 365 product functionality, including Exchange Online, SharePoint Online, Microsoft Teams, Microsoft Power Platform, and device management. You will then transition to configuring Microsoft 365, with a primary focus on configuring Office client connectivity. Finally, you will examine how to manage user-driven client installations of Microsoft 365 Apps for enterprise (formerly Office 365 ProPlus)

deployments. You will wrap up this section by learning how to configure Office Telemetry and Workplace Analytics.

The course concludes with an in-depth examination of Microsoft 365 identity synchronization, with a focus on Azure Active Directory Connect. You will learn how to plan for and implement Azure AD Connect, how to manage synchronized identities, and how to implement password management in Microsoft 365 using multi-factor authentication and self-service password management. This section wraps up with a comprehensive look at implementing application and external access. You will learn how to add and manage applications in Azure Active Directory, including how to configure multi-tenant applications. You will then examine how to configure Azure AD Application Proxy, including how to install and register a connector and how to publish an on-premises app for remote access.

Finally, you will examine how to design and manage solutions for external access. This includes licensing guidance for Azure AD B2B collaboration, creating a collaborative user, and troubleshooting a B2B collaboration.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-101T00: Microsoft 365 Mobility and Security (Enterprise Administrator)

40 Hours | \$3,190

Schedules

03/06/2023 – 03/10/2023
05/01/2023 – 05/05/2023
06/26/2023 – 06/30/2023
07/31/2023 – 08/04/2023
08/28/2023 – 09/01/2023
10/02/2023 – 10/06/2023
11/13/2023 – 11/17/2023

Note: This is a replacement course for 10997: Office 365 Administration and Troubleshooting. Microsoft 365 Mobility and Security course is crafted for candidates preparing for MS-101 exam. It covers three key elements of Microsoft 365 enterprise administration – Microsoft 365 security management, Microsoft 365 compliance management, and Microsoft 365 device management. The course will help candidates understand how to plan and implement device services, manage security and threats by using Microsoft 365 Defender; and manage Microsoft 365 compliance. The candidates for the MS-101 exam acquire subject matter expertise in Microsoft 365 endpoints, security, and compliance. They also get functional experience with all Microsoft 365 workloads and Azure Active Directory and a working knowledge of networking, server administration, DNS, and PowerShell. This course is based on the objectives of MS-101T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-203T00: Microsoft 365 Messaging

40 Hours | \$3,190

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The MS-203 Microsoft Messaging training is an ideal training for messaging administrators who plan, deploy, configure, troubleshoot, and secure the messaging infrastructure in hybrid and cloud

enterprise environments. The MS-203: Microsoft 365 Messaging course covers the main elements of Microsoft 365 messaging administration, including message transport and mail flow, messaging security, hygiene, and compliance, messaging infrastructure, and hybrid messaging.

The MS-203 course will give you the expertise to manage organizational settings and resources; plan and manage the mail transport architecture, implement a hybrid configuration and migration; and secure the messaging environment.

The candidates of MS-203 exam are required to have a working knowledge of authentication types, licensing, integration with Microsoft 365 applications, and Microsoft Azure Active Directory (Azure AD), part of Microsoft Entra.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-500T00: Microsoft 365 (M365) Security Administration

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/13/2023 – 11/16/2023

Microsoft 365 (M365) Security Administration course prepares candidates for the MS-500 exam and offers skills to secure user access to their organization’s resources. The course covers user password protection, multi-factor authentication, how to enable Azure Identity Protection, how to set up and

use Azure AD Connect, and introducing conditional access in Microsoft 365. Candidates will learn about threat protection technologies that help protect your Microsoft 365 environment. Specifically, you will learn about threat vectors and Microsoft’s security solutions to mitigate threats. You will learn about Secure Score, Exchange Online Protection, Azure Advanced Threat Protection, Windows Defender Advanced Threat Protection, and threat management.

This MS-500 online training covers information protection technologies that help secure Microsoft 365 environments. The course discusses information rights managed content, message encryption, as well as labels, policies, and rules that support data loss prevention and information protection. Lastly, it provides knowledge about archiving and retention in Microsoft 365, data governance, and how to conduct content searches and investigations. This course covers data retention policies and tags, in-place records management for SharePoint, email retention, and how to conduct content searches that support eDiscovery investigations.

Candidates for MS-500 exam implement, manage, and monitor security and compliance solutions for Microsoft 365 and hybrid environments.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-600T00: Building Applications and Solutions with Microsoft 365 Core Services

40 Hours | \$3,190

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
09/11/2023 – 09/15/2023
11/13/2023 – 11/17/2023

This course covers five central elements of Microsoft 365 platform:

- Implementing Microsoft Identity
- Working with Microsoft Graph,
- Extending and Customizing SharePoint
- Building applications for Microsoft Teams

In MS-600 training, students will learn to implement Microsoft identity including registering an application, implementing authentication, configuring permissions to consume an API, and creating a service to access Microsoft Graph. In Work with Microsoft Graph, students will learn how to access user data, explore query parameters, manage a group lifecycle, access files, and optimize network traffic using Microsoft Graph. In Extend and customize SharePoint, students will learn about SharePoint Framework web parts, extensions, and how to package and deploy a SPFx solution. In Build apps for Microsoft Teams, students will look at the components of a Teams App, work with webhooks, tabs, conversational bots, and other Microsoft Teams app capabilities. They will also learn to deploy Microsoft Teams apps.

This course is based on the course objectives of MS-600T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-700T00: Managing Microsoft Teams (Teams Administrator)

32 Hours | \$2,695

Schedules

03/14/2023 – 03/17/2023
04/18/2023 – 04/21/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The Managing Microsoft Teams training course covers the Microsoft MS-700 objectives and provides knowledge of various Teams management tools, security and compliance features, network requirements for Teams deployment, Teams settings, and policies for managing collaboration and communication. The Microsoft teams MS-700 training also provides expertise in Teams architecture, integration between Microsoft Teams, and various workloads and services in Microsoft 365. With MS-700 course, you will learn about security and compliance features for Teams, including conditional access, MFA, Threat, alerts, DLP policies, eDiscovery, and information barrier policies. This MS-700 course will also help you about preparing the environment for a Microsoft Teams deployment, including upgrading from Skype for Business to Microsoft Teams, network settings, and managing Microsoft Teams endpoints. Lastly with the MS-700 course you will also learn about how to create and manage teams, manage membership, including internal and external users. You will further learn about different settings and policies to manage collaboration and communication experiences in Microsoft Teams with this Microsoft teams training. Candidates for the MS-700 exam are Microsoft Teams administrators who manage Microsoft Teams to facilitate efficient collaboration and communication in a Microsoft 365 environment. This course is based on the course objectives of MS-700T00-A.

Note:

- The aligned Microsoft 365 (M365) Certified Teams Administrator Associate certification is approved by Army Credentialing Assistance (CA)

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-900T01: Microsoft 365 (M365) Fundamentals

8 Hours | \$750

Schedules

03/13/2023 – 03/13/2023
04/12/2023 – 04/12/2023
05/12/2023 – 05/12/2023
06/09/2023 – 06/09/2023
07/07/2023 – 07/07/2023
08/04/2023 – 08/04/2023
09/07/2023 – 09/07/2023
10/05/2023 – 10/05/2023
11/03/2023 – 11/03/2023

The Microsoft 365 (M365) Fundamentals course covers the MS-900 exam objectives. It provides foundational knowledge on the considerations and benefits of adopting cloud services and the Software as a Service (SaaS) cloud model, with a specific focus on Microsoft 365 cloud service offerings. Candidates will begin by learning about cloud fundamentals, including an overview of cloud computing, specifically Microsoft cloud services.

The Microsoft MS-900 training introduces candidates to Microsoft Azure and examines the differences between Microsoft 365 and Office 365. Candidates will then perform an in-depth review of Microsoft 365, including a comparison of Microsoft on-premises services versus Microsoft 365 cloud services, a review of enterprise mobility in Microsoft 365, and an analysis of how Microsoft 365 services provide collaboration. The course analyzes how security, compliance, privacy, and trust are handled

in Microsoft 365, and it concludes with a review of Microsoft 365 subscriptions, licenses, billing, and support.

Candidates of the MS-900 exam should be familiar with Microsoft 365 licensing, deployment and migration assistance, and support options for organizations looking to maximize their investment in the cloud.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft 365- End User

55199: SharePoint 2016 End User Training

24 Hours | \$1,775

Schedules

03/27/2023 – 03/29/2023

05/08/2023 – 05/10/2023

This SharePoint 2016 End User class is for end users working in a SharePoint 2016 environment. The course teaches SharePoint basics such as working with lists and libraries as well as basic page customizations.

55200: SharePoint 2016 Power User Training

16 Hours | \$1,195

Schedules

03/09/2023 – 03/10/2023

05/22/2023 – 05/23/2023

This SharePoint 2016 Power User training class is designed for individuals who need to learn the fundamentals of managing SharePoint sites.

55215: SharePoint Online Power User

32 Hours | \$2,375

Schedules

03/14/2023 – 03/17/2023

05/22/2023 – 05/25/2023

This course delivers the complete site owner story from start to finish in an engaging and practical way to ensure you have the confidence to plan and create new sites or manage your existing sites in SharePoint Online. Your goal is to learn how to make SharePoint online relevant to your team by using a sites functionality to help you share information and collaborate with your colleagues. During the class, you will also learn best practices and ‘what not to do’ as you watch live, interactive demonstrations and put theory into practice with hands-on exercises in SharePoint Online.

55234: SharePoint 2016 Site Collections and Site Owner Administration

40 Hours | \$2,975

Schedules

03/13/2023 – 03/17/2023

06/12/2023 – 06/16/2023

08/07/2023 – 08/11/2023

10/02/2023 – 10/06/2023

55234: SharePoint 2016 Site Collections and Site Owner Administration course is intended for power users, who are tasked with working within the SharePoint 2016 environment. This course will provide a deeper, narrowly-focused training on the important and popular skills needed to be an

administrator for SharePoint site collections and sites. SharePoint deployment or farm administration skills and tasks, which are required for IT professionals to manage SharePoint 2016.

This course is designed to complement skills learned in other Microsoft courses, which focus on overall SharePoint 2016 server administration and deployment as well as overall Office 365 management:

20339-1, Planning and Administering SharePoint 2016

20339-2, Advanced Technologies of SharePoint 2016

20347, Enabling and Managing Office 365

55238: SharePoint Online for Administrators

24 Hours | \$1,795

Schedules

03/20/2023 – 03/22/2023
05/15/2023 – 05/17/2023
07/10/2023 – 07/12/2023
09/11/2023 – 09/13/2023
11/06/2023 – 11/08/2023

This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on-premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

55293: SharePoint End User 2019

24 Hours | \$1,795

Schedules

03/20/2023 – 03/22/2023
05/17/2023 – 05/19/2023
07/12/2023 – 07/14/2023
09/13/2023 – 09/15/2023
11/15/2023 – 11/17/2023

The three-day beginner-level SharePoint End User training is appropriate for end users, site owners, and managers new to working in a SharePoint 2019 environment. The SharePoint End User training course explains how to work with lists and libraries, carry out basic page customization, work with forms, and manage site permissions and users.

Using SharePoint with Teams

8 Hours | \$695

Schedules

03/20/2023 – 03/20/2023
06/02/2023 – 06/02/2023

Microsoft Teams is built with the purpose of enabling collaboration. SharePoint is used with MS Teams to provide storage for the files that are used in a Team. This course will take you into the backend of your MS Team and show you how to extended features that you can utilize to maximize the capabilities of your MS Team.

Microsoft Azure

AI-102T00: Designing & Implementing an Azure AI Solution

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/15/2023 – 05/18/2023
06/12/2023 – 06/15/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/07/2023 – 11/10/2023

AI-102 Designing and Implementing an Azure AI Solution is intended for software developers wanting to build AI-infused applications that leverage Azure Cognitive Services, Azure Cognitive Search, and Microsoft Bot Framework. AI-102 Designing and Implementing an Azure AI Solution training will use C# or Python as the programming language.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AI-900T00: Microsoft Azure AI Fundamentals

8 Hours | \$750

Schedules

03/10/2023 – 03/10/2023
03/24/2023 – 03/24/2023
04/07/2023 – 04/07/2023
05/10/2023 – 05/10/2023
06/09/2023 – 06/09/2023
07/06/2023 – 07/06/2023
08/02/2023 – 08/02/2023
09/05/2023 – 09/05/2023
10/03/2023 – 10/03/2023
11/02/2023 – 11/02/2023

This course introduces fundamental concepts related to artificial intelligence (AI) and the services in Microsoft Azure that can be used to create AI solutions. The course is not designed to teach students to become professional data scientists or software developers but rather to build awareness of common AI workloads and the ability to identify Azure services to support them. This course is based on the objectives of the course version AI-900T00-A.

Note:

- The aligned Microsoft Certified Azure AI Fundamentals certification is approved by Army Credentialing Assistance (CA)

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-104T00: Microsoft Azure Administrator

32 Hours | \$2,695

Schedules

03/07/2023 – 03/10/2023
04/04/2023 – 04/07/2023
05/08/2023 – 05/11/2023
06/06/2023 – 06/09/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/05/2023 – 09/08/2023
10/03/2023 – 10/06/2023
11/06/2023 – 11/09/2023

Implement, monitor, and maintain Microsoft Azure solutions with AZ-104

IT Professionals learn how to manage their Azure infrastructure through Microsoft Azure Administrator course. Managing subscriptions, securing identities, administering the infrastructure, configuring virtual networks and connecting Azure and on-premises systems are part of this AZ-104 course outline. A Microsoft Azure Administrator is

responsible for managing network traffic, implementing storage solutions, creating and scaling virtual machines, implementing web apps and containers, back up and share data, and monitor cloud solution.

AZ-104 course prepares you for earning the Microsoft Certified: Azure Administrator Associate certification. Take our free AZ-104 Azure Administrator free assessment to identify the skills gap in your team.

Still unsure of how to begin your Microsoft Azure Administrator training? Start with our on-demand Microsoft Azure Administrator Master Class and get a better understanding of the role.

Explore the full-range of role-based Azure training and certification.

Get a better idea about various Azure roles with our Azure role-based certifications infographic.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-120T00: Planning and Administering Microsoft Azure for SAP Workloads

32 Hours | \$2,695

Schedules

04/11/2023 – 04/14/2023
05/30/2023 – 06/02/2023
07/17/2023 – 07/20/2023
09/12/2023 – 09/15/2023
11/14/2023 – 11/17/2023

This course teaches IT Professionals experienced in SAP solutions how to leverage Azure resources that include deployment and configuration of virtual machines, virtual networks, storage accounts, and Azure AD that includes implementing and managing hybrid identities.

Students of this course will learn through concepts, scenarios, procedures, and hands-on labs how to best plan and implement migration and operation of an SAP solution on Azure. You will receive guidance on subscriptions, create and scale virtual machines, implement storage solutions, configure virtual networking, back up and share data, connect Azure and on-premises sites, manage network traffic, implement Azure Active Directory, secure identities, and monitor your solution.

This course is based on the course objectives of AZ-120T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-140T00: Configuring and Operating Microsoft Azure Virtual Desktop

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/18/2023 – 07/21/2023
08/15/2023 – 08/18/2023
09/19/2023 – 09/22/2023
10/17/2023 – 10/20/2023
11/27/2023 – 11/30/2023

AZ-140T00: Configuring and Operating Microsoft Azure Virtual Desktop course teaches Azure administrators how to plan, deliver, and manage virtual desktop experiences and remote apps, for any device, on Azure. Lessons include implementing and managing networking for Azure Virtual Desktop, configuring host pools and session hosts, creating session host images, implementing and managing FSLogix, monitoring Azure Virtual Desktop performance and health, and automating Azure Virtual Desktop management tasks. Students will

learn through a mix of demonstrations and hands-on lab experiences by deploying virtual desktop experiences and apps on Azure Virtual Desktop and optimizing them to run in multi-session virtual environments.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-204T00: Developing Solutions for Microsoft Azure

40 Hours | \$3,190

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/10/2023 – 07/14/2023
08/07/2023 – 08/11/2023
09/11/2023 – 09/15/2023
10/16/2023 – 10/20/2023
11/06/2023 – 11/10/2023

AZ-204: Developing Solutions for Microsoft Azure course teaches developers how to create end-to-end solutions in Microsoft Azure. Students will learn how to implement Azure compute solutions, create Functions, implement and manage web apps, develop solutions utilizing Azure storage, implement authentication and authorization, and secure their solutions by using KeyVault and Managed Identities in this AZ-204 course. Students will also learn how to connect to and consume Azure services and third-party services and include event- and message-based models in their solutions. The azure 204 course also covers monitoring, troubleshooting, and optimizing Azure solutions.

This AZ-204 course provides students with the key knowledge to help prepare for Exam AZ-204: Developing Solutions for Microsoft Azure. Passing

this exam is required to earn the Microsoft Certified Azure Developer Associate certification.

This AZ-204 course provides students with the key knowledge to help prepare for Exam AZ-204: Developing Solutions for Microsoft Azure. Passing this exam is required to earn the Microsoft Certified Azure Developer Associate certification.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-220T00: Microsoft Azure IoT Developer

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
05/22/2023 – 05/25/2023
07/17/2023 – 07/20/2023
09/12/2023 – 09/15/2023
11/14/2023 – 11/17/2023

Microsoft Azure IoT Developer course provides students with the skills and knowledge required to successfully create and maintain the cloud and edge portions of an Azure IoT solution. Microsoft Azure IoT Developer training includes full coverage of the core Azure IoT services such as IoT Hub, Device Provisioning Services, Azure Stream Analytics, Time Series Insights, and more. In addition to the focus on Azure PaaS services, the course includes sections on IoT Edge, device management, monitoring and troubleshooting, security concerns, Azure Digital Twins, and Azure IoT Central.

This course is based on the objectives of the course version AZ-220T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-305T00: Designing Microsoft Azure Infrastructure Solutions

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/24/2023 – 04/27/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

AZ-305T00: Designing Microsoft Azure Infrastructure Solutions course teaches Azure Solution Architects how to design infrastructure solutions. AZ 305 Course topics cover governance, computing, application architecture, storage, data integration, authentication, networks, business continuity, and migrations. The AZ 305 Course Designing Microsoft Azure Infrastructure Solutions training combines lectures with case studies to demonstrate basic architect design principles.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-400T00: Designing and Implementing Microsoft DevOps Solutions

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/24/2023 – 04/27/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The AZ 400 course provides the knowledge and skills to design and implement DevOps processes and practices. Students will learn how to plan for DevOps, use source control, scale Git for an enterprise, consolidate artifacts, design a dependency management strategy, manage secrets, implement continuous integration, implement a container build strategy, design a release strategy, set up a release management workflow, implement a deployment pattern, and optimize feedback mechanisms.

This Azure DevOps Training is based on the objectives of the course version AZ-400T00-A.

Help your team explore the fundamental Azure DevOps concepts, DevOps tools, boards and repos with our on-demand course .

Identify skills gaps in your team and prepare them for Microsoft Certified Azure DevOps Engineer Expert certification. Take our free AZ 400 quiz and answer the questions.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-500T00: Microsoft Azure Security Technologies

32 Hours | \$2,695

Schedules

03/07/2023 – 03/10/2023
04/04/2023 – 04/07/2023
05/09/2023 – 05/12/2023
06/06/2023 – 06/09/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/27/2023 – 11/30/2023

The AZ-500 training course provides students with the key knowledge to help prepare for Exam AZ-500: Microsoft Azure Security Technologies. Passing this exam is required to earn Microsoft Certified Azure Security Engineer Associate certification.

Microsoft Azure AZ-500 course provides IT Security Professionals with the knowledge and skills needed to implement security controls, maintain an organization - security posture, and identify and remediate security vulnerabilities. Microsoft Azure Security Technologies Associate (Security Engineer) or AZ500 training course includes security for identity and access, platform protection, data and applications, and security operations.

This AZ-500 course is based on the objectives of the course version AZ-500T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-600T00: Configuring and Operating a Hybrid Cloud with Microsoft Azure Stack Hub

32 Hours | \$2,695

Schedules

03/27/2023 – 03/30/2023
05/01/2023 – 05/04/2023
06/26/2023 – 06/29/2023
07/24/2023 – 07/27/2023
08/28/2023 – 08/31/2023
09/26/2023 – 09/29/2023
10/31/2023 – 11/03/2023

Note: AZ-600T00 is a replacement course for 20537: Configuring and Operating a Hybrid Cloud with Microsoft Azure Stack.

AZ-600T00: Configuring and Operating a Hybrid Cloud with Microsoft Azure Stack Hub teaches Azure administrators and Azure Stack Hub operators how to plan, deploy, package, update, and maintain the Azure Stack Hub infrastructure. Lessons include deploying Azure Stack Hub, managing the Azure Stack Hub Marketplace, offering App Services and Event Hub resource providers, managing Azure Stack Hub registration, and maintaining system health. This course outlines how decisions in each these area affects an overall solution. Students will learn through a mix of live demonstrations and hands-on lab activities. This course assumes a working knowledge of Azure and familiarity with virtualization, networking, and identity management. Students are expected to have used the tools common to within Azure environment, such as the Cloud Shell and Resource Explorer.

Note: Lab access for AZ-600 is available only during the class duration.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-700T00: Designing and Implementing Microsoft Azure Networking Solutions

24 Hours | \$2,195

Schedules

03/20/2023 – 03/22/2023
04/17/2023 – 04/19/2023
05/15/2023 – 05/17/2023
06/21/2023 – 06/23/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/11/2023 – 10/13/2023
11/13/2023 – 11/15/2023

This Designing and Implementing Microsoft Azure Networking Solutions course teaches Network Engineers how to design, implement, and maintain Azure networking solutions. This Designing and Implementing Microsoft Azure Networking Solutions training covers the process of designing, implementing, and managing core Azure networking infrastructure, Hybrid Networking connections, load balancing traffic, network routing, private access to Azure services, network security, and monitoring. Learn how to design and implement a secure, reliable network infrastructure in Azure and how to establish hybrid connectivity, routing, private access to Azure services, and monitoring in Azure.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-720T00: Azure Support Engineer Troubleshooting Azure Connectivity

24 Hours | \$2,195

Schedules

03/06/2023 – 03/08/2023
04/05/2023 – 04/07/2023
05/08/2023 – 05/10/2023
06/07/2023 – 06/09/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/25/2023 – 09/27/2023
10/18/2023 – 10/20/2023
11/20/2023 – 11/22/2023

Networking is essential, particularly when you have cloud-based assets!

AZ-720T00: Azure Support Engineer Troubleshooting Azure Connectivity course covers the connectivity issues that a network engineer will typically encounter and the troubleshooting steps to resolve these issues.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-900T00: Microsoft Azure Fundamentals

8 Hours | \$750

Schedules

03/03/2023 – 03/03/2023
03/06/2023 – 03/06/2023
04/03/2023 – 04/03/2023
04/05/2023 – 04/05/2023
05/05/2023 – 05/05/2023
06/05/2023 – 06/05/2023
07/05/2023 – 07/05/2023
08/01/2023 – 08/01/2023
09/01/2023 – 09/01/2023
10/02/2023 – 10/02/2023
11/01/2023 – 11/01/2023

The AZ-900 course will provide foundational knowledge on cloud concepts, core Azure services, and Azure management and governance features and tools. Microsoft Azure Fundamentals AZ-900 course prepares you for earning the Microsoft Certified: Azure Fundamentals certification. The exam is ideal for beginners who are just starting out in building cloud-based solutions and are new to Azure.

Microsoft-certified azure fundamentals candidates demonstrate proficiency in cloud concepts, cloud services, Azure workloads, security and privacy in Azure, and Azure pricing and support. Candidates preparing for the Microsoft Azure Fundamentals certification need to be familiar with general technology concepts such as networking, storage, computing, application support, and application development.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-090T00: Implementing a Machine Learning Solution with Microsoft Azure Databricks

8 Hours | \$750

Schedules

03/24/2023 – 03/24/2023
05/05/2023 – 05/05/2023
06/30/2023 – 06/30/2023
08/10/2023 – 08/10/2023
09/11/2023 – 09/11/2023
10/10/2023 – 10/10/2023

Azure Databricks is a cloud-scale platform for data analytics and machine learning. Implementing a Machine Learning Solution with Microsoft Azure Databricks training, you'll learn how to use Azure Databricks to explore, prepare, and model data; and integrate Databricks machine learning processes with Azure Machine Learning.

DP-100T01: Designing and Implementing a Data Science Solution on Azure (Data Scientist)

24 Hours | \$2,195

Schedules

03/13/2023 – 03/15/2023
04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/06/2023 – 09/08/2023
10/04/2023 – 10/06/2023
11/06/2023 – 11/08/2023

You will learn how to operate machine learning solutions at cloud scale using Azure Machine Learning. DP-100T01: Designing and Implementing a Data Science Solution on Azure (Data Scientist) course teaches you to leverage your existing knowledge of Python and machine learning to manage data ingestion and preparation, model training and deployment, and machine learning solution monitoring in Microsoft Azure.

Azure data science platform course prepares you for earning the Microsoft Certified: Azure Data Scientist Associate certification.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-203T00: Data Engineering on Microsoft Azure Associate (Data Engineer)

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/13/2023 – 06/16/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/06/2023 – 11/09/2023

This Professional Certificate is designed for data engineers and developers seeking to demonstrate expertise in designing and implementing data solutions using Microsoft Azure data services and preparing for the exam DP-203: Data Engineering on Microsoft Azure.

In the Data Engineering on Microsoft Azure Associate (Data Engineer) course, the student professionals will learn about the data engineering patterns and practices involved in working with batch and real-time analytical solutions using Azure data platform technologies. Students will begin by understanding the core computing and storage technologies used to build an analytical solution.

In the Data Engineering on Microsoft Azure Associate (Data Engineer) training, participants will further then explore how to design analytical serving layers and focus on data engineering considerations for working with source files.

The students while preparing for the Azure Data Engineering Certification exam – DP-203: Data Engineering on Microsoft Azure, participants will also learn how to interactively explore data stored in files in a data lake. They will learn the various ingestion techniques that can be used to load data using the Apache Spark capability found in Azure Synapse Analytics or Azure Databricks, or how to ingest using

Azure Data Factory or Azure Synapse pipelines. The students will also learn how they can transform the data using the same technologies used to ingest data. The students will then master show how to create a real-time analytical system to create real-time analytical solutions.

Note: Lab access for DP-203 is available only during the class duration.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-300T00: Administering Microsoft Azure SQL Solutions

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This course provides students with the knowledge and skills to administer a SQL Server database infrastructure for cloud, on-premises and hybrid relational databases and who work with the Microsoft PaaS relational database offerings. Additionally, it will be of use to individuals who develop applications that deliver content from SQL-based relational databases.

This course is based on the objectives of the course version DP-300T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-420T00: Designing and Implementing Cloud-Native Applications Using Microsoft Azure Cosmos DB

32 Hours | \$2,695

Schedules

03/21/2023 – 03/24/2023
04/24/2023 – 04/27/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

Note: This is a replacement course for 20777: Implementing Microsoft Azure Cosmos DB Solutions.

DP-420T00: Designing and Implementing Cloud-Native Applications Using Microsoft Azure Cosmos DB course teaches developers how to create applications using the SQL API and SDK for Azure Cosmos DB. Students will learn how to write efficient queries, create indexing policies, manage and provision resources, and perform common operations with the SDK.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-500T00: Designing and Implementing Enterprise-Scale Analytics Solutions Using Microsoft Azure and Microsoft Power BI

32 Hours | \$2,695

Schedules

03/21/2023 – 03/24/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This DP-500T00: Designing and Implementing Enterprise-Scale Analytics Solutions Using Microsoft Azure and Microsoft Power BI course covers methods and practices for performing advanced data analytics at scale. Students will build on existing analytics experience and will learn to implement and manage a data analytics environment, query and transform data, implement and manage data models, and explore and visualize data. In this DP-500 training, students will use Microsoft Purview, Azure Synapse Analytics, and Power BI to build analytics solutions.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

DP-900T00: Microsoft Azure Data Fundamentals

8 Hours | \$750

Schedules

03/08/2023 – 03/08/2023
03/23/2023 – 03/23/2023
04/05/2023 – 04/05/2023
05/08/2023 – 05/08/2023
06/07/2023 – 06/07/2023
07/07/2023 – 07/07/2023
08/03/2023 – 08/03/2023
09/06/2023 – 09/06/2023
10/04/2023 – 10/04/2023
11/03/2023 – 11/03/2023

In this course, students will gain foundational knowledge of core data concepts and related Microsoft Azure data services. Students will learn about core data concepts such as relational, non-relational, big data, and analytics, and build their foundational knowledge of cloud data services within Microsoft Azure. Students will explore fundamental relational data concepts and relational database services in Azure. They will explore Azure storage for non-relational data and the fundamentals of Azure Cosmos DB. Students will learn about modern data warehousing, real-time analytics, and data visualization.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Dynamics 365

MB-210T01: Microsoft Dynamics 365 Sales

16 Hours | \$1,695

Schedules

03/07/2023 – 03/08/2023
04/04/2023 – 04/05/2023
05/02/2023 – 05/03/2023
06/05/2023 – 06/06/2023
07/11/2023 – 07/12/2023
08/08/2023 – 08/09/2023
09/11/2023 – 09/12/2023
10/10/2023 – 10/11/2023
11/09/2023 – 11/10/2023

MB-210T01: Microsoft Dynamics 365 Sales course prepares candidates for the MB-210 exam. The course provides skills to configure Dynamics 365 Sale, additional tools and services, and manage core sales tables. The course takes you from the lead to opportunity to a closed deal.

Microsoft Dynamics 365 for Sales is an end-to-end application to manage to handle customers and potential customers, track data against sales goals, automate your best practices, learn from your data, and more. Using the application - available automation and customization options, you will learn how to enable sales staff to be their most productive selves.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-220T00: Microsoft Dynamics 365 Marketing

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/08/2023 – 05/11/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This course will review the marketing application configuration needed to drive business growth. It will also dive into lead management, marketing forms and pages, segmentation, and email marketing messages. All these pieces are tied together through interactive customer journey design, including event and survey configuration.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-230T01: Microsoft Dynamics 365 Customer Service

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/18/2023 – 04/21/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

Microsoft Dynamics 365 Customer Service offers any organization an opportunity for customer success.

Using tools such as automatic case creation and queue management frees up your time to dedicate it where you can have a greater impact, directly with your customers.

This course prepares for Exam MB-230: Microsoft Dynamics 365 Customer Service Functional Consultant and will help you to earn Microsoft Certified Dynamics 365 for Customer Service Functional Consultant Associate certification.

In this MB-230 training course, we will take our team globally recognized experts as they take you step by step from creating cases to interacting with customers to resolving those cases. Once you - e resolved those cases you can learn from data analysis the key details to help you resolve similar cases faster or avoid new issues altogether.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-240T00: Microsoft Dynamics 365 Field Service

32 Hours | \$2,695

Schedules

04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/13/2023 – 06/16/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

Dynamics 365 Field Service helps organizations better position themselves in the market by providing a variety of tools that assist in identifying and scheduling resources and managing workloads for mobile workers. MB-240T00: Microsoft Dynamics 365 Field Service course will equip students with the skills necessary to identify and configure the key

components that are used to deliver Field Service and mobile solutions. Key topics include identifying the organizational considerations that will drive configuration decisions and common configuration aspects. MB-240T00: Microsoft Dynamics 365 Field Service training helps students better understand the bigger picture and end goals focused around implementations that aid in designing more efficient solutions that align with customer and organizational goals.

This course is based on the objectives of the course version MB-240T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-260T00: Microsoft Customer Data Platform Specialty

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/18/2023 – 04/21/2023
05/08/2023 – 05/11/2023
06/12/2023 – 06/15/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

Customer Data Platform specialists implement solutions that provide insight into customer profiles and that track engagement activity to help improve customer experiences and increase customer retention. In MB-260T00: Microsoft Customer Data Platform Specialty course, students will learn about the Dynamics 365 Customer Insights solution, including how to unify customer data with prebuilt connectors, predict customer intent with rich segmentation, and maintain control of customer data. This course begins with importing and

transforming your customer data and culminates with extending your customer data platform solution into the Power Platform and Dynamics 365 applications.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-300T00: Microsoft Dynamics 365 Core Finance and Operations

16 Hours | \$1,695

Schedules

03/09/2023 – 03/10/2023
04/04/2023 – 04/05/2023
05/02/2023 – 05/03/2023

09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

The MB-320 Microsoft Dynamics 365 Supply Chain Management, Manufacturing is a 4-day intermediate course that comprises of six modules. Across all modules, you will learn to configure the need for Dynamics 365 Supply Chain Management, Manufacturing, get a profound understanding of the types of manufacturing processes, implementing a master plan for production and manufacturing features, and subcontracting for product manufacturing.

Those enrolling in the MB-320 training must have a basic understanding and knowledge of Dynamics 365 finance and operations apps and terminology for supply chain manufacturing and management.

The MB-320 Microsoft Dynamics 365 Supply Chain Management, Manufacturing course helps you prepare for the MB-320 exam. You must pass this exam to **Microsoft Certified Dynamics 365 Supply Chain Management, Manufacturing Functional Consultant Associate** earn the certification.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-330T00: Microsoft Dynamics 365 Supply Chain Management

40 Hours | \$3,190

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

This course is designed to build your foundation in Dynamics 365 Supply Chain Management application knowledge. This course will cover the most important features and functionalities needed by Dynamics 365 Supply Chain Management functional consultant including: The product information and how to configure, create, and manage your product and inventory. Supply chain management configuration and processing. The transportation management features, and the warehouse management features. Quality management and quality control functionalities. Master planning configuration and processing. This course includes lectures and several hands-on exercises. The exercises will be introduced to you on a form of a case study presented to a Dynamics 365 Supply Chain Management functional consultant. Each exercise will be based on a business scenario followed by a question or discussion then a step-by-step guidance to perform the system related steps.

This course is based on the course objectives of MB-330T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-500T00: Microsoft Dynamics 365 Finance and Operations Apps Developer

40 Hours | \$3,190

Schedules

03/13/2023 – 03/17/2023
04/17/2023 – 04/21/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

The Microsoft Dynamics 365 Finance and Operations Apps developers implement and extend applications to meet the requirements of the business. Candidates provide fully realized solutions by using standardized application coding patterns, extensible features, and external integrations.

The MB-500 training course is based on the course objectives of MB-500T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-700T00: Microsoft Dynamics 365 Finance and Operations Apps Solution Architect Expert

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/24/2023 – 04/27/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/31/2023 – 08/03/2023
08/28/2023 – 08/31/2023
10/02/2023 – 10/05/2023
11/13/2023 – 11/16/2023

This course is developed for those aspired to be and new to the solution architect role. This course provides technical information focusing on application architecture and technical skills to start their journey into this role. This course will not cover the industrial skills and delivery skills required for this role.

This course is based on the objectives of the course version MB-700T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-800T00: Microsoft Dynamics 365 Business Central Functional Consultant

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/08/2023 – 05/11/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This training will guide you to Dynamics 365 Business Central and will help you get started with implementing and designing solutions for Business Central.

Built and optimized for small and medium businesses, Dynamics 365 Business Central is an application for companies that have outgrown their entry-level business applications. Growing businesses often outgrow their basic accounting software or legacy enterprise resource planning (ERP) systems that are unable to handle increased inventory and transactions, lack integration with

other line-of-business systems, and have reporting limitations.

Businesses are also challenged with the logistics of providing services that have more scalability, increased mobility, and availability in the cloud. With Business Central, you can manage your financials, automate and secure your supply chain, sell smarter, improve customer service and project performance, and optimize your operations.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-910T00: Microsoft Dynamics 365 Fundamentals (CRM)

8 Hours | \$750

Schedules

03/06/2023 – 03/06/2023
04/03/2023 – 04/03/2023
05/01/2023 – 05/01/2023
06/02/2023 – 06/02/2023
07/10/2023 – 07/10/2023
08/07/2023 – 08/07/2023
09/08/2023 – 09/08/2023
10/06/2023 – 10/06/2023
11/06/2023 – 11/06/2023

Microsoft Dynamics 365 Fundamentals (CRM) course has been designed for candidates preparing for the MB-910 exam. This MB-910 training will provide candidates with a broad introduction to the customer engagement capabilities of Dynamics 365. They will become familiar with the concept of customer engagement, as well as each of the customer engagement apps, including Dynamics 365 Marketing, Dynamics 365 Sales, Dynamics 365 Customer Service, Dynamics 365 Field Service, and the customer relationship management (CRM) capabilities of Dynamics 365 Project Operations. This training includes lectures as well as hands-on labs.

Candidates for the MB-910 exam should understand customer engagement principles, business operations, and general computer skills.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MB-920T00: Microsoft Dynamics 365 Fundamentals (ERP)

8 Hours | \$750

Schedules

03/07/2023 – 03/07/2023
04/04/2023 – 04/04/2023
05/02/2023 – 05/02/2023
06/05/2023 – 06/05/2023
07/11/2023 – 07/11/2023
08/08/2023 – 08/08/2023
09/11/2023 – 09/11/2023
10/10/2023 – 10/10/2023
11/08/2023 – 11/08/2023

This course will provide you with a broad introduction to the finance and operations capabilities of Dynamics 365. You will become familiar with the concept of enterprise resource management (ERP), as well as each of the finance and operations apps, including Dynamics 365 Supply Chain Management, Dynamics 365 Finance, Dynamics 365 Commerce, Dynamics 365 Human Resources, and the ERP capabilities of Dynamics 365 Project Operations.

This course will include lectures as well as hands-on labs.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-200T00: Microsoft Power Platform Functional Consultant

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

The Power Platform empowers organizations to automate business processes, develop their own rich app experiences, and connect with customers better and faster. In this course, students will learn to perform discovery, capture requirements, engage subject matter experts and stakeholders, translate requirements, and configure Power Platform solutions and apps. They will supplement their learnings with hands-on labs to create application enhancements, custom user experiences, system integrations, data conversions, custom process automation, and custom visualizations. Power Platform is comprised of four key products: Power Apps, Power Automate, Power BI, and Power Virtual Agents. In this course, we will cover these four applications in-depth, with additional focus on the Common Data Service, AI Builder, connectors, and portals.

This course prepares you for the PL-200T00: Microsoft Power Platform Functional Consultant.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-400T00: Microsoft Power Platform Developer

40 Hours | \$3,190

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Microsoft Power Platform helps organizations optimize their operations by simplifying, automating and transforming business tasks and processes. In this PL-400 course, students will learn how to build Power Apps, Automate Flows and extend the platform to complete business requirements and solve complex business problems.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Excel

Excel 2021: Level 1

8 Hours | \$295

Schedules

03/06/2023 – 03/06/2023
05/17/2023 – 05/17/2023
07/17/2023 – 07/17/2023
09/18/2023 – 09/18/2023
11/13/2023 – 11/13/2023

Organizations the world over rely on information to make sound decisions regarding all manner of affairs. But with the amount of available data growing on a daily basis, the ability to make sense of all of that data is becoming more and more challenging. Fortunately, this is where the power of Microsoft Office Excel 2021 can help. Excel can help you organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. It will also make these tasks much easier for you to accomplish, and in much less time, than if you used traditional pen-and-paper methods or non-specialized software. This course aims to provide you with a foundation for Excel knowledge and skills, which you can build upon to eventually become an expert in data manipulation.

Excel 2021: Level 2

8 Hours | \$295

Schedules

03/07/2023 – 03/07/2023
05/18/2023 – 05/18/2023
07/18/2023 – 07/18/2023
09/19/2023 – 09/19/2023
11/14/2023 – 11/14/2023

This course builds upon the foundational knowledge presented in the Microsoft Office Excel 2021: Part 1 training and will help start you down the road to creating advanced workbooks and worksheets that

can help deepen your understanding of organizational intelligence. The ability to analyze massive amounts of data, extract actionable information from it, and present that information to decision-makers is at the foundation of a successful organization that is able to compete at a high level.

Excel 2021: Level 3

8 Hours | \$295

Schedules

03/08/2023 – 03/08/2023
05/19/2023 – 05/19/2023
07/19/2023 – 07/19/2023
09/20/2023 – 09/20/2023
11/15/2023 – 11/15/2023

This course builds upon the foundational and intermediate knowledge presented in the Microsoft Office Excel 2021: Part 1 and Microsoft Office Excel 2021: Part 2 courses to help you get the most out of your Excel experience. The ability to collaborate with colleagues, automate complex or repetitive tasks, and use conditional logic and dynamic arrays to construct and apply elaborate formulas and functions will put the full power of Excel right at your fingertips. The Excel 2021: Level 3 course provides you skills to work with additional Excel features including: macros, advanced conditional formatting, digital signatures, power view and consolidating data.

The more you learn about how to get Excel to do the hard work for you, the more you will be able to focus on getting the answers you need from the vast amounts of data your organization generates.

Microsoft Exchange Server

MS-220T00: Troubleshoot Microsoft Exchange Online

24 Hours | \$2,195

Schedules

03/27/2023 – 03/29/2023
04/24/2023 – 04/26/2023
06/12/2023 – 06/14/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/25/2023 – 09/27/2023
10/30/2023 – 11/01/2023

MS-220T00: Troubleshoot Microsoft Exchange Online course teaches you how to solve a broad range of problems that can arise in organizations using Microsoft Exchange Online. In MS-220T00: Troubleshoot Microsoft Exchange Online training, you - I troubleshoot many aspects of Microsoft Exchange Online, including mail flow, compliance, recipient problems, and cloud/on-premises hybrid configurations.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Project 2019: Level 1

8 Hours | \$395

Schedules

04/17/2023 – 04/17/2023
06/12/2023 – 06/12/2023
08/17/2023 – 08/17/2023
10/19/2023 – 10/19/2023

Microsoft Project 2019: Level 1 course is designed to familiarize you with the basic features and functions of Microsoft Project so you can use it effectively and efficiently in a real-world environment.

This course covers the critical knowledge and skills a project manager needs to create a project plan with Project during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project and share it with your supervisor (and others) for review and approval.

Note: This course is for anyone who has Project on the desktop, regardless of whether they purchased an “on-premise” edition or subscribed to a “cloud-based” (online) edition. Most project managers and project team members use the desktop application, so that is the main focus of this course. The main features of the online app are presented in Additional Read section.

Microsoft Project 2019: Level 2

8 Hours | \$395

Schedules

04/18/2023 – 04/18/2023
06/13/2023 – 06/13/2023
08/18/2023 – 08/18/2023
10/20/2023 – 10/20/2023

Microsoft Project 2019: Level 2 course is designed to familiarize you with some of the advanced features and functions of Microsoft Project so you can use it effectively and efficiently in a real-world environment.

In Microsoft Project 2019: Level 1 you learned the basic features of Microsoft Project during the planning phase of a project. This course covers the advanced knowledge and skills a project manager needs to update a project plan in Project during the execution, monitoring, and controlling phases of a project. In other words, once your project plan is approved by the project sponsor, this course will enable you to manage the project so that it is completed on time, within budget, and according to scope.

Note: This course is for anyone who has Project on the desktop, regardless of whether they purchased an “on-premise” edition or subscribed to a “cloud-based” (online) edition. Most project managers and project team members use the desktop application, so that is the main focus of this course. The main features of the online app are presented in Additional Read section.

Outlook 2021-2019: Level 1

8 Hours | \$295

Schedules

03/20/2023 – 03/20/2023
06/05/2023 – 06/05/2023
08/07/2023 – 08/07/2023
10/16/2023 – 10/16/2023

This course is suited for those using Microsoft Outlook Level 1 (2021-2019). This training will be taught using Microsoft Outlook. Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in

popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook 2021-2019 courses. It will provide you with the basic skills you need to start using Outlook 2021-2019 to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook 2021-2019: Level 2

8 Hours | \$295

Schedules

03/21/2023 – 03/21/2023
06/06/2023 – 06/06/2023
08/08/2023 – 08/08/2023
10/17/2023 – 10/17/2023

Every day, millions of email messages are exchanged among people within and between organizations. Email has a ubiquitous presence in the lives of many, and it's likely that email technologies will continue to evolve with the changing needs of workplaces. After all, email communication has not been replaced, or its growth slowed, as many predicted with the rise of social media and the widespread adoption of mobile technologies. Many organizations have implemented mail management systems that combine the back-end power of Microsoft Exchange Server and the front-end intuitive user interface of Microsoft Office Outlook 2019.

In this course, you will customize command sets, configure mail accounts, set global options, perform

advanced searches, apply filters to intercept mail and control spam, create rules to automate mail management tasks, work with calendars and contacts, manage tasks, preserve data with archives and data files, as well as share and delegate access to your Outlook items. In short, you'll work with a wide range of features and options and, in so doing, understand why Outlook is a leading personal management system.

This course builds upon the foundational knowledge presented in the Microsoft Office Outlook 2021-2019: Part 1 course and will help you customize a communication system well-suited to your work style.

PowerPoint 2021: Level 1

8 Hours | \$295

Schedules

03/09/2023 – 03/09/2023
05/11/2023 – 05/11/2023
07/20/2023 – 07/20/2023
09/21/2023 – 09/21/2023
11/16/2023 – 11/16/2023

How do you grab and maintain an audience's focus when you're asked to present important information? By being clear, organized, and engaging. And, that is exactly what Microsoft Office PowerPoint 2021 can help you do.

Today's audiences are tech savvy, accustomed to high-impact multimedia content, and stretched for time. By learning how to use the vast array of features and functionality contained within PowerPoint 2021, you will gain the ability to organize your content, enhance it with high-impact visuals, and deliver it with a punch. In this course, you will use PowerPoint to begin creating engaging, dynamic multimedia presentations.

PowerPoint 2021: Level 2

8 Hours | \$295

Schedules

03/10/2023 – 03/10/2023
05/12/2023 – 05/12/2023
07/21/2023 – 07/21/2023
09/22/2023 – 09/22/2023
11/17/2023 – 11/17/2023

Meetings, instruction, training, and pitches are all part of our daily lives. We are often called upon to deliver presentations with little notice, at multiple venues, and with varying requirements. And, some of these presentations include sensitive information that needs to be guarded. Given all the variables, it may seem an overwhelming task to deliver your content on time, to all audiences, and to only those who need to see it. Oh, and by the way, you need to make it interesting, informative, and memorable. So, how do you do it? Without the help of a robust set of tools, it would be nearly impossible.

But Microsoft PowerPoint 2021 provides you with a variety of such tools that can help you deliver content in nearly any situation while saving time and effort. By taking advantage of these tools, you will be creating presentations that not only stand out from the crowd but also don't consume all your available time.

Word 2021: Level 1

8 Hours | \$295

Schedules

03/13/2023 – 03/13/2023
05/08/2023 – 05/08/2023
07/10/2023 – 07/10/2023
09/06/2023 – 09/06/2023
11/27/2023 – 11/27/2023

Microsoft Word 2021 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful

tools can make your work easy, and even fun. In this course, you'll learn how to use Word 2021 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options, and proof documents.

Word 2021: Level 2

8 Hours | \$295

Schedules

03/14/2023 – 03/14/2023
05/09/2023 – 05/09/2023
07/11/2023 – 07/11/2023
09/07/2023 – 09/07/2023
11/28/2023 – 11/28/2023

After you master the basics of creating, editing, and printing Microsoft Word documents, you're ready to move on to tackling the more advanced features. In this course, you will work with features such as formats, styles, and templates to create professional documents with a consistent look and feel. You will add visual interest to your documents by using the tables and charts features. Quick Parts and templates provide efficiency and consistency when adding content, and long complex documents can be simplified and managed in Master documents. Finally, you will use the mail merge feature to automate sending individual letters to customers.

Creating professional-looking documents can give you and your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings can help reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Word 2021: Level 3

8 Hours | \$295

Schedules

03/15/2023 – 03/15/2023
05/10/2023 – 05/10/2023
07/12/2023 – 07/12/2023
09/08/2023 – 09/08/2023
11/29/2023 – 11/29/2023

Microsoft Word enables you to do far more than simple word processing. Word includes advanced image manipulation tools, collaboration features, cross-referencing and linking tools, entry forms and data collection, security features, and tools to automate document production.

Microsoft Office 365

55354: Administering Office 365

40 Hours | \$3,195

Schedules

03/06/2023 – 03/10/2023
05/08/2023 – 05/12/2023
07/24/2023 – 07/28/2023
09/18/2023 – 09/22/2023

Note: This is a replacement course for MS-030T00: Office 365 Administrator.

This five-day course describes how to set up, configure and manage an Office 365 tenant including identities, and the core services of Microsoft 365. In this five-day course, you will learn how to plan the configuration of an Office 365 tenant including integration with existing user identities; plan, configure and manage core services; and report on key metrics.

Although this course and the associated labs are written for Office 365 with Windows 11, the skills taught will also be backwards compatible with Windows 10.

Microsoft Outlook

Outlook 2021-2019: Level 1

8 Hours | \$295

Schedules

03/20/2023 – 03/20/2023
06/05/2023 – 06/05/2023
08/07/2023 – 08/07/2023
10/16/2023 – 10/16/2023

This course is suited for those using Microsoft Outlook Level 1 (2021-2019). This training will be taught using Microsoft Outlook. Email has become one of the most widely used methods of communication, whether for personal or business communications. In most organizations, large or small, email is the preferred form of communicating information amongst employees. As email grows in popularity and use, most organizations have found the need to implement a corporate mail management system such as Microsoft Office Outlook to handle the messages and meeting invitations sent among employees.

In this course, you will use Outlook to send, receive, and manage email messages, manage your contact information, schedule appointments and meetings, create tasks and notes for yourself, and customize the Outlook interface to suit your working style.

This course is the first in a series of two Microsoft Office Outlook 2021-2019 courses. It will provide you with the basic skills you need to start using Outlook 2021-2019 to manage your email communications, contact information, calendar events, tasks, and notes.

Outlook 2021-2019: Level 2

8 Hours | \$295

Schedules

03/21/2023 – 03/21/2023
06/06/2023 – 06/06/2023
08/08/2023 – 08/08/2023
10/17/2023 – 10/17/2023

Every day, millions of email messages are exchanged among people within and between organizations. Email has a ubiquitous presence in the lives of many, and it's likely that email technologies will continue to evolve with the changing needs of workplaces. After all, email communication has not been replaced, or its growth slowed, as many predicted with the rise of social media and the widespread adoption of mobile technologies. Many organizations have implemented mail management systems that combine the back-end power of Microsoft Exchange Server and the front-end intuitive user interface of Microsoft Office Outlook 2019.

In this course, you will customize command sets, configure mail accounts, set global options, perform advanced searches, apply filters to intercept mail and control spam, create rules to automate mail management tasks, work with calendars and contacts, manage tasks, preserve data with archives and data files, as well as share and delegate access to your Outlook items. In short, you'll work with a wide range of features and options and, in so doing, understand why Outlook is a leading personal management system.

This course builds upon the foundational knowledge presented in the Microsoft Office Outlook 2021-2019: Part 1 course and will help you customize a communication system well-suited to your work style.

Microsoft Power BI

DP-500T00: Designing and Implementing Enterprise-Scale Analytics Solutions Using Microsoft Azure and Microsoft Power BI

32 Hours | \$2,695

Schedules

03/21/2023 – 03/24/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This DP-500T00: Designing and Implementing Enterprise-Scale Analytics Solutions Using Microsoft Azure and Microsoft Power BI course covers methods and practices for performing advanced data analytics at scale. Students will build on existing analytics experience and will learn to implement and manage a data analytics environment, query and transform data, implement and manage data models, and explore and visualize data. In this DP-500 training, students will use Microsoft Purview, Azure Synapse Analytics, and Power BI to build analytics solutions.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-300T00: Power BI Data Analyst
24 Hours | \$2,195

Schedules

03/13/2023 – 03/15/2023
04/12/2023 – 04/14/2023
05/10/2023 – 05/12/2023
06/12/2023 – 06/14/2023
07/10/2023 – 07/12/2023
08/07/2023 – 08/09/2023
09/11/2023 – 09/13/2023
10/10/2023 – 10/12/2023
11/06/2023 – 11/08/2023

Microsoft Power BI Data Analyst Course: Deliver actionable insights by leveraging data

PL-300: Microsoft Power BI Data Analyst course is designed for learners who enjoy analyzing data and using Power BI to unlock meaningful data insights. This course covers Microsoft PL-300 exam objectives and offers the best practices that are in line with business and technical requirements for modeling, visualizing, and analyzing data with Power BI. The training provides access and process data from a range of data sources, including both relational and non-relational data.

PL-300: Microsoft Power BI Data Analyst course also teaches you how to implement proper security standards and policies across the Power BI spectrum, including datasets and groups. The course will discuss managing and deploying reports and dashboards for sharing and distributing content. Finally, this course will also guide you on how to build paginated reports within the Power BI service and publish them to a workspace for inclusion within Power BI.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Power Platform

55268: Microsoft Power Automate for End Users

8 Hours | \$595

Schedules

03/13/2023 – 03/13/2023
05/19/2023 – 05/19/2023
07/07/2023 – 07/07/2023
09/06/2023 – 09/06/2023
11/09/2023 – 11/09/2023

This course delivers an instructor-led product showcase for Microsoft Power Automate from start to finish in an engaging and practical way. Power Automate is a diverse product, turning business processes into automated, consistent and visual workPower Automates. Power Automate is designed to interweave the various products in Office 365 as well as connect to other on-premises and web-based solutions. This course will give you the confidence to select the right actions and workPower Automate logic for your business workPower Automates.

This course is based on the objectives of the course version 55268A.

PL-100T00: Microsoft Power Platform App Maker

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/06/2023 – 06/09/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/06/2023 – 11/09/2023

This Power Platform App Maker course will teach you how to build apps with low-code techniques to simplify, automate, and transform business tasks and processes using Microsoft Power Platform.

Note:

- The aligned Microsoft Certified Power Platform App Maker Associate certification is approved by Army Credentialing Assistance (CA).

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-200T00: Microsoft Power Platform Functional Consultant

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/09/2023 – 05/12/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

The Power Platform empowers organizations to automate business processes, develop their own rich app experiences, and connect with customers better and faster. In this course, students will learn to perform discovery, capture requirements, engage subject matter experts and stakeholders, translate requirements, and configure Power Platform solutions and apps. They will supplement their learnings with hands-on labs to create application enhancements, custom user experiences, system integrations, data conversions, custom process automation, and custom visualizations. Power Platform is comprised of four key products: Power Apps, Power Automate, Power BI, and Power Virtual

Agents. In this course, we will cover these four applications in-depth, with additional focus on the Common Data Service, AI Builder, connectors, and portals.

This course prepares you for the PL-200T00: Microsoft Power Platform Functional Consultant.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-400T00: Microsoft Power Platform Developer

40 Hours | \$3,190

Schedules

03/20/2023 – 03/24/2023
04/17/2023 – 04/21/2023
05/15/2023 – 05/19/2023
06/12/2023 – 06/16/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/18/2023 – 09/22/2023
10/16/2023 – 10/20/2023
11/13/2023 – 11/17/2023

The Microsoft Power Platform helps organizations optimize their operations by simplifying, automating and transforming business tasks and processes. In this PL-400 course, students will learn how to build Power Apps, Automate Flows and extend the platform to complete business requirements and solve complex business problems.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-500T00: Microsoft Power Automate RPA Developer

32 Hours | \$2,695

Schedules

03/21/2023 – 03/24/2023
04/18/2023 – 04/21/2023
05/16/2023 – 05/19/2023
06/13/2023 – 06/16/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/06/2023 – 11/09/2023

Be a certified Microsoft Power Automate RPA Developer!

PL-500T00: Microsoft Power Automate RPA Developer course is targeted at developers with a keen interest in providing automated solutions for their organization.

This course provides hands-on training for Microsoft PL-500 exam prep and provides skills to automate time-consuming and repetitive tasks by using Microsoft Power Automate. The candidates for PL-500 certification work with business stakeholders to improve and automate business workflows. They collaborate with administrators to deploy solutions to production environments and support solutions.

The PL-500T00: Microsoft Power Automate RPA Developer training teaches how to review solution requirements, create process documentation, troubleshoot, and evaluate solutions. It also provides knowledge to design, develop, deploy, and manage solutions.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-600T00: Microsoft Power Platform Solution Architect

24 Hours | \$2,195

Schedules

03/27/2023 – 03/29/2023
04/24/2023 – 04/26/2023
05/22/2023 – 05/24/2023
06/21/2023 – 06/23/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/25/2023 – 09/27/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

The Microsoft Power Platform Solution Architect course is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer - needs now and in the future.

In this PL-600 exam training, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. The Microsoft Power Platform Solution Architect course is designed to give you an introduction to the Solution Architect role.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

PL-900T00: Microsoft Power Platform Fundamentals

8 Hours | \$750

Schedules

03/08/2023 – 03/08/2023
03/17/2023 – 03/17/2023
03/31/2023 – 03/31/2023
04/05/2023 – 04/05/2023

AZ-040T00: Automating Administration with PowerShell

40 Hours | \$3,190

Schedules

04/03/2023 – 04/07/2023
05/08/2023 – 05/12/2023
06/12/2023 – 06/16/2023
07/24/2023 – 07/28/2023
08/21/2023 – 08/25/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023

Note: This is a replacement course for 10961: Automating Administration with Windows PowerShell.

This Automating Administration with PowerShell course provides students with the fundamental knowledge and skills to use Windows PowerShell for administering and automating administration of Windows servers. This course provides students the skills to identify and build the command they require to perform a specific task. In addition, students learn how to build scripts to accomplish advanced tasks such as automating repetitive tasks and generating reports.

This Automating Administration with PowerShell training provides prerequisite skills supporting a broad range of Microsoft products, including Windows Server, Windows Client, Microsoft Exchange Server, Microsoft SharePoint Server, Microsoft SQL Server, and Microsoft System Center. In keeping with that goal, this course will not focus on any one of those products, although Windows Server, which is the common platform for all of those products, will serve as the example for the techniques this course teaches.

Microsoft Project

55205: Mastering Microsoft Project 2016

24 Hours | \$1,195

Schedules

04/17/2023 – 04/19/2023

Mastering Microsoft Project 2016 course is intended for individuals who are interested in expanding their knowledge base and technical skills about Microsoft Project. The course begins with the basic concepts and leads aspirants through all the functions they'll need to plan and manage a small to medium-size project, including how to level resources and capture both cost and schedule progress.

This course will also help aspirants prepare for Microsoft Project Exam 74-343 Managing Projects with Microsoft Project

Microsoft Project 2019: Level 1

8 Hours | \$395

Schedules

04/17/2023 – 04/17/2023
06/12/2023 – 06/12/2023
08/17/2023 – 08/17/2023
10/19/2023 – 10/19/2023

Microsoft Project 2019: Level 1 course is designed to familiarize you with the basic features and functions of Microsoft Project so you can use it effectively and efficiently in a real-world environment.

This course covers the critical knowledge and skills a project manager needs to create a project plan with Project during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project and share it with your supervisor (and others) for review and approval.

Note: This course is for anyone who has Project on the desktop, regardless of whether they purchased an “on-premise” edition or subscribed to a “cloud-based” (online) edition. Most project managers and project team members use the desktop application, so that is the main focus of this course. The main features of the online app are presented in Additional Read section.

Microsoft Project 2019: Level 2

8 Hours | \$395

Schedules

04/18/2023 – 04/18/2023
06/13/2023 – 06/13/2023
08/18/2023 – 08/18/2023
10/20/2023 – 10/20/2023

Microsoft Project 2019: Level 2 course is designed to familiarize you with some of the advanced features and functions of Microsoft Project so you can use it effectively and efficiently in a real-world environment.

In Microsoft Project 2019: Level 1 you learned the basic features of Microsoft Project during the planning phase of a project. This course covers the advanced knowledge and skills a project manager needs to update a project plan in Project during the execution, monitoring, and controlling phases of a project. In other words, once your project plan is approved by the project sponsor, this course will enable you to manage the project so that it is completed on time, within budget, and according to scope.

Note: This course is for anyone who has Project on the desktop, regardless of whether they purchased an “on-premise” edition or subscribed to a “cloud-based” (online) edition. Most project managers and project team members use the desktop application, so that is the main focus of this course. The main features of the online app are presented in Additional Read section.

Microsoft Security Compliance and Identity

AZ-500T00: Microsoft Azure Security Technologies

32 Hours | \$2,695

Schedules

03/07/2023 – 03/10/2023
04/04/2023 – 04/07/2023
05/09/2023 – 05/12/2023
06/06/2023 – 06/09/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/27/2023 – 11/30/2023

The AZ-500 training course provides students with the key knowledge to help prepare for Exam AZ-500: Microsoft Azure Security Technologies. Passing this exam is required to earn Microsoft Certified Azure Security Engineer Associate certification.

Microsoft Azure AZ-500 course provides IT Security Professionals with the knowledge and skills needed to implement security controls, maintain an organization - security posture, and identify and remediate security vulnerabilities. Microsoft Azure Security Technologies Associate (Security Engineer) or AZ500 training course includes security for identity and access, platform protection, data and applications, and security operations.

This AZ-500 course is based on the objectives of the course version AZ-500T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-500T00: Microsoft 365 (M365) Security Administration

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/13/2023 – 11/16/2023

Microsoft 365 (M365) Security Administration course prepares candidates for the MS-500 exam and offers skills to secure user access to their organization's resources. The course covers user password protection, multi-factor authentication, how to enable Azure Identity Protection, how to set up and use Azure AD Connect, and introducing conditional access in Microsoft 365. Candidates will learn about threat protection technologies that help protect your Microsoft 365 environment. Specifically, you will learn about threat vectors and Microsoft's security solutions to mitigate threats. You will learn about Secure Score, Exchange Online Protection, Azure Advanced Threat Protection, Windows Defender Advanced Threat Protection, and threat management.

This MS-500 online training covers information protection technologies that help secure Microsoft 365 environments. The course discusses information rights managed content, message encryption, as well as labels, policies, and rules that support data loss prevention and information protection. Lastly, it provides knowledge about archiving and retention in Microsoft 365, data governance, and how to conduct content searches and investigations. This course covers data retention policies and tags, in-place records management for SharePoint, email retention, and how to conduct content searches that support eDiscovery investigations.

Candidates for MS-500 exam implement, manage, and monitor security and compliance solutions for Microsoft 365 and hybrid environments.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

SC-100T00: Microsoft Cybersecurity Architect

32 Hours | \$2,695

Schedules

03/27/2023 – 03/30/2023
04/24/2023 – 04/27/2023
05/30/2023 – 06/02/2023
06/27/2023 – 06/30/2023
07/31/2023 – 08/03/2023
08/28/2023 – 08/31/2023
09/25/2023 – 09/28/2023
10/30/2023 – 11/02/2023

Microsoft Cybersecurity Architect course prepares candidates for the Microsoft SC-100 certification exam. SC-100 provides knowledge to design a Zero Trust strategy and architecture, evaluate Governance Risk Compliance (GRC) technical strategies and security operations strategies, design security for infrastructure, and data and applications strategy.

The successful candidates of the SC-100 exam acquire expertise in designing and evolving the cybersecurity strategy to protect the organization. With this SC-100 they also learn to collaborate with leaders and practitioners in IT security, privacy, and other roles across an organization to plan and implement a cybersecurity strategy that meets the business needs of an organization.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

SC-200T00: Microsoft Security Operations Analyst

32 Hours | \$2,695

Schedules

03/07/2023 – 03/10/2023
04/04/2023 – 04/07/2023
05/09/2023 – 05/12/2023
06/06/2023 – 06/09/2023
07/10/2023 – 07/13/2023
08/07/2023 – 08/10/2023
09/11/2023 – 09/14/2023
10/10/2023 – 10/13/2023
11/13/2023 – 11/16/2023

The SC-200 Microsoft Security Operations Analyst training course provides expertise in threat management, monitoring, and response by using a variety of security solutions. The candidates will also know how to investigate, respond to, and hunt for threats using Microsoft Sentinel, Microsoft Defender for Cloud, Microsoft 365 Defender, and third-party security products. Overall, the course offers complete coverage of the Microsoft SC-200 exam objectives.

Microsoft-certified Security Operations Analyst works with organizational stakeholders to secure information technology systems for the organization. Their goal is to reduce organizational risk by rapidly remediating active attacks in the environment, advising on improvements to threat protection practices, and referring violations of organizational policies to appropriate stakeholders.

Candidates for the SC-200 exam must be familiar with attack vectors, cyber threats, incident management, Kusto Query Language (KQL), Microsoft 365, and Azure services.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

SC-300T00: Microsoft Identity and Access Administrator

32 Hours | \$2,695

Schedules

03/14/2023 – 03/17/2023
04/11/2023 – 04/14/2023
05/15/2023 – 05/18/2023
06/12/2023 – 06/15/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/27/2023 – 11/30/2023

Gain the knowledge to implement an identity management solution, implement authentication and access management, and plan and implement an identity governance strategy with SC-300, Microsoft Identity Training. The SC-300: Microsoft Identity and Access Administrator course provides candidates with the skills to drive strategic identity projects to modernize identity solutions, implement hybrid identity solutions, and implement identity governance.

Microsoft-certified Identity and Access Administrator, commonly referred to as SC300, designs, implements, and operates an organization - identity and access management systems by using Azure Active Directory (Azure AD). They oversee operations, including securing authentication and authorizing access to business apps, whereas troubleshooting, monitoring, and reporting for the identity and access environment are additional responsibilities that come in handy with this role.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

SC-400T00: Microsoft Information Protection Administrator

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/19/2023 – 04/21/2023
05/24/2023 – 05/26/2023
06/21/2023 – 06/23/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/20/2023 – 09/22/2023
10/25/2023 – 10/27/2023
11/20/2023 – 11/22/2023

Learn how to protect the information in your Microsoft 365 deployment.

SC-400T00: Microsoft Information Protection Administrator course focuses on data governance and information protection within your organization. SC-400T00: Microsoft Information Protection Administrator training covers the implementation of data loss prevention policies, sensitive information types, sensitivity labels, data retention policies, and Microsoft Purview message encryption, among other related topics.

The course helps learners prepare for the Microsoft Information Protection Administrator exam (SC-400).

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

SC-900T00: Microsoft Security, Compliance, and Identity Fundamentals

8 Hours | \$750

Schedules

03/06/2023 – 03/06/2023
03/11/2023 – 03/11/2023
03/31/2023 – 03/31/2023
04/03/2023 – 04/03/2023
05/08/2023 – 05/08/2023
06/05/2023 – 06/05/2023
07/07/2023 – 07/07/2023
08/04/2023 – 08/04/2023
09/08/2023 – 09/08/2023
10/06/2023 – 10/06/2023
11/03/2023 – 11/03/2023

Learn the fundamentals of SCI concepts and get Microsoft SC-900 certified!

Microsoft Security, Compliance, and Identity Fundamentals course prepares students for the SC-900 exam and provides knowledge in the fundamentals of security, compliance, and identity (SCI) across cloud-based and related Microsoft services.

The SC-900 exam prep course also provides skills to describe the capabilities of Microsoft identity and access management solutions, Microsoft Security solutions, and Microsoft compliance solutions. It gives an all-around understanding of the solutions that Microsoft Azure and Microsoft 365 offer that is related to security.

The Microsoft SC-900 exam training helps candidates interact with clients and stakeholders effectively. Candidates also learn how to collaborate with security solutions architects and security operations analysts to maintain their organization's security posture.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft SharePoint

55199: SharePoint 2016 End User Training

24 Hours | \$1,775

Schedules

03/27/2023 – 03/29/2023

05/08/2023 – 05/10/2023

This SharePoint 2016 End User class is for end users working in a SharePoint 2016 environment. The course teaches SharePoint basics such as working with lists and libraries as well as basic page customizations.

55200: SharePoint 2016 Power User Training

16 Hours | \$1,195

Schedules

03/09/2023 – 03/10/2023

05/22/2023 – 05/23/2023

This SharePoint 2016 Power User training class is designed for individuals who need to learn the fundamentals of managing SharePoint sites.

55215: SharePoint Online Power User

32 Hours | \$2,375

Schedules

03/14/2023 – 03/17/2023

05/22/2023 – 05/25/2023

This course delivers the complete site owner story from start to finish in an engaging and practical way to ensure you have the confidence to plan and create new sites or manage your existing sites in SharePoint Online. Your goal is to learn how to make SharePoint online relevant to your team by using a

sites functionality to help you share information and collaborate with your colleagues. During the class, you will also learn best practices and ‘what not to do’ as you watch live, interactive demonstrations and put theory into practice with hands-on exercises in SharePoint Online.

55234: SharePoint 2016 Site Collections and Site Owner Administration

40 Hours | \$2,975

Schedules

03/13/2023 – 03/17/2023

06/12/2023 – 06/16/2023

08/07/2023 – 08/11/2023

10/02/2023 – 10/06/2023

55234: SharePoint 2016 Site Collections and Site Owner Administration course is intended for power users, who are tasked with working within the SharePoint 2016 environment. This course will provide a deeper, narrowly-focused training on the important and popular skills needed to be an administrator for SharePoint site collections and sites. SharePoint deployment or farm administration skills and tasks, which are required for IT professionals to manage SharePoint 2016.

This course is designed to complement skills learned in other Microsoft courses, which focus on overall SharePoint 2016 server administration and deployment as well as overall Office 365 management:

20339-1, Planning and Administering SharePoint 2016

20339-2, Advanced Technologies of SharePoint 2016

20347, Enabling and Managing Office 365

55238: SharePoint Online for Administrators

24 Hours | \$1,795

Schedules

03/20/2023 – 03/22/2023
05/15/2023 – 05/17/2023
07/10/2023 – 07/12/2023
09/11/2023 – 09/13/2023
11/06/2023 – 11/08/2023

This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on-premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

55293: SharePoint End User 2019

24 Hours | \$1,795

Schedules

03/20/2023 – 03/22/2023
05/17/2023 – 05/19/2023
07/12/2023 – 07/14/2023
09/13/2023 – 09/15/2023
11/15/2023 – 11/17/2023

The three-day beginner-level SharePoint End User training is appropriate for end users, site owners, and managers new to working in a SharePoint 2019 environment. The SharePoint End User training course explains how to work with lists and libraries, carry out basic page customization, work with forms, and manage site permissions and users.

Using SharePoint with Teams

8 Hours | \$695

Schedules

03/20/2023 – 03/20/2023
06/02/2023 – 06/02/2023

Microsoft Teams is built with the purpose of enabling collaboration. SharePoint is used with MS Teams to provide storage for the files that are used in a Team. This course will take you into the backend of your MS Team and show you how to extended features that you can utilize to maximize the capabilities of your MS Team.

Microsoft SQL Server

55315: Introduction to SQL Databases

24 Hours | \$2,195

Schedules

04/24/2023 – 04/26/2023
06/26/2023 – 06/28/2023
08/21/2023 – 08/23/2023
10/23/2023 – 10/25/2023

Note: This is a replacement course for 10985: Introduction to SQL Databases.

This three-day instructor-led course is aimed at people looking to move into a database professional role or whose job role is expanding to encompass database elements. The course describes fundamental database concepts including database types, database languages, and database designs.

55316: Administering a SQL Database

40 Hours | \$3,195

Schedules

04/03/2023 – 04/07/2023
06/12/2023 – 06/16/2023
08/14/2023 – 08/18/2023
10/16/2023 – 10/20/2023

Note: This is a replacement course for 20764: Administering a SQL Database Infrastructure (SQL Server 2017).

This five-day instructor-led course provides students who manage SQL Server and Azure SQL databases with the knowledge and skills needed to administer a SQL server database infrastructure. The training will also be useful to individuals who develop applications that deliver content from SQL Server databases.

DP-080T00: Transact SQL-Querying

16 Hours | \$1,695

Schedules

03/20/2023 – 03/21/2023
04/24/2023 – 04/25/2023
06/01/2023 – 06/02/2023
07/24/2023 – 07/25/2023
08/21/2023 – 08/22/2023
09/25/2023 – 09/26/2023
10/26/2023 – 10/27/2023
11/16/2023 – 11/17/2023

Note: This is a replacement course for 20761: Querying Data with Transact-SQL (SQL Server 2017).

Transact SQL-Querying course will teach the basics of Microsoft’s dialect of the standard SQL language: Transact-SQL. Topics include both querying and modifying data in relational databases that are hosted in Microsoft SQL Server-based database systems, including: Microsoft SQL Server, Azure SQL Database and, Azure Synapse Analytics.

DP-300T00: Administering Microsoft Azure SQL Solutions

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/16/2023 – 10/19/2023
11/13/2023 – 11/16/2023

This course provides students with the knowledge and skills to administer a SQL Server database infrastructure for cloud, on-premises and hybrid relational databases and who work with the Microsoft PaaS relational database offerings.

Additionally, it will be of use to individuals who develop applications that deliver content from SQL-based relational databases.

This course is based on the objectives of the course version DP-300T00-A.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft System Center Manager

55348: Administering Microsoft Endpoint Configuration Manager

40 Hours | \$3,195

Schedules

03/27/2023 – 03/31/2023
06/05/2023 – 06/09/2023
08/14/2023 – 08/18/2023
10/30/2023 – 11/03/2023

Note: This is a replacement course for 20703-1: Administering System Center Configuration Manager.

This five-day course describes how to use Configuration Manager and its associated site systems to efficiently manage network resources. In this five-day course, you will learn day-to-day management tasks, including how to manage applications, client health, hardware and software inventory, operating system deployment, and software updates by using Configuration Manager. You also will learn how to optimize Endpoint Protection, manage compliance, and create management queries and reports.

Microsoft Teams

MS-700T00: Managing Microsoft Teams (Teams Administrator)

32 Hours | \$2,695

Schedules

03/14/2023 – 03/17/2023
04/18/2023 – 04/21/2023
05/22/2023 – 05/25/2023
06/20/2023 – 06/23/2023
07/17/2023 – 07/20/2023
08/14/2023 – 08/17/2023
09/18/2023 – 09/21/2023
10/23/2023 – 10/26/2023
11/27/2023 – 11/30/2023

The Managing Microsoft Teams training course covers the Microsoft MS-700 objectives and provides knowledge of various Teams management tools, security and compliance features, network requirements for Teams deployment, Teams settings, and policies for managing collaboration and communication. With MS-700 course, you will learn about security and compliance features for Teams, including conditional access, MFA, Threat, alerts, DLP policies, eDiscovery, and information barrier policies. Lastly with the MS-700 course you will also learn about how to create and manage teams, manage membership, including internal and external users. Candidates for the MS-700 exam are Microsoft Teams administrators who manage Microsoft Teams to facilitate efficient collaboration and communication in a Microsoft 365 environment.

Note:

- The aligned Microsoft 365 (M365) Certified Teams Administrator Associate certification is approved by Army Credentialing Assistance (CA).

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-720T00: Microsoft Teams Voice Engineer

24 Hours | \$2,195

Schedules

03/22/2023 – 03/24/2023
04/24/2023 – 04/26/2023
05/31/2023 – 06/02/2023
07/24/2023 – 07/26/2023
08/21/2023 – 08/23/2023
09/25/2023 – 09/27/2023
11/01/2023 – 11/03/2023

Microsoft Teams Voice Engineer course has been designed for candidates preparing for the MS-720 exam. This course provides skills to plan and configure Microsoft Teams Phone, Direct Routing, Microsoft Teams clients and devices;; optimize network performance;; configure and manage Microsoft Teams Phone for voice users;; and monitor and troubleshoot Microsoft Teams Phone.

Candidates for the MS-720 Microsoft Teams Voice Engineer exam must be familiar with telecommunication technologies and have experience with Microsoft Teams, Microsoft 365, and PowerShell. They should ideally have the ability to deploy and configure Microsoft Teams Phone with PSTN connectivity through Direct Routing, Operator Connect, and Microsoft Teams Calling Plans. Candidates also manage devices for Microsoft Teams, audio/video conferencing, and voice migration.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

MS-740T00: Troubleshooting Microsoft Teams

24 Hours | \$2,195

Schedules

04/3/2023 – 04/5/2023
05/22/2023 – 05/24/2023
07/12/2023 – 07/14/2023
08/30/2023 – 09/1/2023
10/16/2023 – 10/18/2023
12/4/2023 – 12/6/2023

MS-740T00: Troubleshooting Microsoft Teams course teaches you how to troubleshoot Microsoft Teams, including voice issues, live events, and messaging. In MS-740T00: Troubleshooting Microsoft Teams training, you'll explore how to configure and troubleshoot client and services issues.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Windows

55342: Supporting and Troubleshooting Windows 11

32 Hours | \$2,695

Schedules

04/10/2023 – 04/13/2023
06/12/2023 – 06/15/2023
08/21/2023 – 08/24/2023
10/23/2023 – 10/26/2023

Note: This is a replacement course for 10982: Supporting and Troubleshooting Windows 10.

55342: Supporting and Troubleshooting Windows 11 course is designed to provide students with the knowledge and skills required to support and troubleshoot Windows 11 PCs and devices in an on-premises Windows Server Active Directory domain environment.

Microsoft Windows Server

55324: Installation, Storage and Compute with Windows Server 2016

40 Hours | \$3,195

Schedules

03/27/2023 – 03/31/2023
06/05/2023 – 06/09/2023

Note: This is a replacement course for 20740: Installation, Storage, and Compute with Windows Server 2016.

This five-day course is intended for information technology (IT) professionals who have a basic knowledge of Windows Server. It is designed for professionals who have the primary responsibility of managing storage and computing with Windows Server 2016, and who need to understand the scenarios, requirements, and storage and compute options that are available in and applicable to Windows Server 2016.

55343: Networking with Windows Server

40 Hours | \$3,195

Schedules

04/17/2023 – 04/21/2023
06/12/2023 – 06/16/2023

Note: This is a replacement course for 20741: Networking with Windows Server 2016.

This 5-day training provides the fundamental networking skills required to deploy and support Windows Server in most organizations. It covers IP fundamentals, remote access technologies, and more advanced content including Software Defined Networking.

Although this course and the associated labs are written for Windows Server 2022, the skills taught will also be backward compatible with Server 2016 and Server 2019. The course and labs also focus on how to administer Windows Server using not only the traditional tools such as PowerShell and Server manager but also Windows Admin Center.

AZ-800T00: Administering Windows Server Hybrid Core Infrastructure

32 Hours | \$2,695

Schedules

03/13/2023 – 03/16/2023
04/11/2023 – 04/14/2023
05/08/2023 – 05/11/2023
06/12/2023 – 06/15/2023
07/18/2023 – 07/21/2023
08/15/2023 – 08/18/2023
09/19/2023 – 09/22/2023
10/16/2023 – 10/19/2023
11/14/2023 – 11/17/2023

AZ-800T00: Administering Windows Server Hybrid Core Infrastructure course teaches IT Professionals how to manage core Windows Server workloads and

services using on-premises, hybrid, and cloud technologies. AZ-800T00: Administering Windows Server Hybrid Core Infrastructure training teaches IT Professionals how to implement and manage on-premises and hybrid solutions such as identity, management, computing, networking, and storage in a Windows Server hybrid environment.

Explore New Possibilities with Windows Server and Azure

Hybrid is the buzzword for many firms that focus on building cloud-native applications and, at the same time, support their existing on-premises apps. This is exactly where Windows Server Administrators play a key role in managing both environments.

Since every organization has a unique set of technical requirements and hence, they need a well-structured server infrastructure to manage and store their apps and communication. The AZ-800T00: Administering Windows Server Hybrid Core Infrastructure helps you learn to integrate Windows Server environments with Azure services and manage and deploy apps in the new hybrid future.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

AZ-801T00: Configuring Windows Server Hybrid Advanced Services

32 Hours | \$2,695

Schedules

03/20/2023 – 03/23/2023
04/17/2023 – 04/20/2023
05/15/2023 – 05/18/2023
06/20/2023 – 06/23/2023
07/24/2023 – 07/27/2023
08/21/2023 – 08/24/2023
09/25/2023 – 09/28/2023
10/24/2023 – 10/27/2023

AZ-801T00: Configuring Windows Server Hybrid Advanced Services course is designed for IT professionals who configure advanced Windows Server services using on-premises, hybrid, and cloud technologies. These professionals manage and support an infrastructure that includes on-premises and Azure IaaS-hosted Windows Server-based workloads.

AZ-801T00: Configuring Windows Server Hybrid Advanced Services training teaches IT professionals, how to leverage the hybrid capabilities of Azure, how to migrate virtual and physical server workloads to Azure IaaS, and how to manage and secure Azure VMs running Windows Server. The course also covers how to perform tasks related to high availability, troubleshooting, and disaster recovery. The course highlights various administrative tools and technologies, including Windows Admin Center, PowerShell, Azure Arc, Azure Automation Update Management, Microsoft Defender for Identity, Azure Security Center, Azure Migrate, and Azure Monitor.

The associated Microsoft exam voucher and Practice Test are included with this class. This cannot be combined with other promotions.

Microsoft Word

Word 2021: Level 1

8 Hours | \$295

Schedules

03/13/2023 – 03/13/2023
05/08/2023 – 05/08/2023
07/10/2023 – 07/10/2023
09/06/2023 – 09/06/2023
11/27/2023 – 11/27/2023

Microsoft Word 2021 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you'll learn how to use Word 2021 to create

and edit simple documents; format documents; add tables and lists; add design elements and layout options, and proof documents.

Word 2021: Level 2

8 Hours | \$295

Schedules

03/14/2023 – 03/14/2023
05/09/2023 – 05/09/2023
07/11/2023 – 07/11/2023
09/07/2023 – 09/07/2023
11/28/2023 – 11/28/2023

After you master the basics of creating, editing, and printing Microsoft Word documents, you're ready to move on to tackling the more advanced features. In this course, you will work with features such as formats, styles, and templates to create professional documents with a consistent look and feel. You will add visual interest to your documents by using the tables and charts features. Quick Parts and templates provide efficiency and consistency when adding content, and long complex documents can be simplified and managed in Master documents. Finally, you will use the mail merge feature to automate sending individual letters to customers.

Creating professional-looking documents can give you and your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings can help reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Word 2021: Level 3

8 Hours | \$295

Schedules

03/15/2023 – 03/15/2023
05/10/2023 – 05/10/2023
07/12/2023 – 07/12/2023
09/08/2023 – 09/08/2023
11/29/2023 – 11/29/2023

Microsoft Word enables you to do far more than simple word processing. Word includes advanced image manipulation tools, collaboration features, cross-referencing and linking tools, entry forms and data collection, security features, and tools to automate document production.

PMI Agile Certified Practitioner (PMI-ACP)

PMI Agile Certified Practitioner (PMI-ACP)

24 Hours | \$1,795

Schedules

03/08/2023 – 03/10/2023
04/10/2023 – 04/12/2023
05/10/2023 – 05/12/2023
06/12/2023 – 06/14/2023
07/17/2023 – 07/19/2023
08/14/2023 – 08/16/2023
09/18/2023 – 09/20/2023
10/23/2023 – 10/25/2023
11/20/2023 – 11/22/2023

If you're experienced using agile approaches, have good collaboration skills, eagerly embrace complexity and thrive on rapid response times, then your talents are in demand.

The Project Management Institute Agile Certified Practitioner (PMI-ACP) formally recognizes your

knowledge of agile principles and your skill with agile techniques. It will make you shine even brighter to your employers, stakeholders, and peers. The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you. Check out more PMI Courses

What you will receive:

- Expert-led lectures
- Real-life examples
- 24 PMI PDUs (Based on course delivery & assignment hours)
- Tips and tricks to conquer the exam
- Assistance with the PMI application process.

PMI Professional in Business Analysis (PMI-PBA)

PMI Professional in Business Analysis (PMI-PBA)

40 Hours | \$2,995

Schedules

03/27/2023 – 03/31/2023
04/24/2023 – 04/28/2023
05/22/2023 – 05/26/2023
06/26/2023 – 06/30/2023
07/24/2023 – 07/28/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Gain expertise in business analysis for making better-informed decisions, and ensure your organization’s project success!

The five-day course focuses on specific knowledge areas, and PMI-published material describing the value of business analysis to projects. It demonstrates your skills in business analysis and abilities to competently utilize BA tools and techniques. The PMI Business Analyst training helps you in identifying problems and opportunities, eliciting information from stakeholders, generating and analyzing data, discovering and recommending solutions, and developing consensus for action.

PMI Business Analyst course also prepares you for earning the PMI Professional in Business Analysis (PMI-PBA) certification.

PMI Risk Management Professional (PMI-RMP)

PMI Risk Management Professional (PMI-RMP)

24 Hours | \$2,295

Schedules

03/29/2023 – 03/31/2023
04/26/2023 – 04/28/2023
05/24/2023 – 05/26/2023
06/28/2023 – 06/30/2023
07/12/2023 – 07/14/2023
08/09/2023 – 08/11/2023
09/13/2023 – 09/15/2023
10/11/2023 – 10/13/2023
11/15/2023 – 11/17/2023

PMI Risk Management Professional (PMI-RMP) course is designed for project managers who want to proactively reduce the probability of project failure. In this course, you will learn to use proven approaches and techniques specific to risk management. You will learn to plan and analyze projects so as to minimize risk in a formal environment. You will identify, analyze, and address uncertainty throughout the project lifecycle and incorporate lessons learned and industry best practices related to risk management. You will apply (PMI) risk management processes in a practical way to eliminate, mitigate, and minimize threats while maximizing and optimizing opportunities.

Programming Languages

CVPD- Java Development for Call Studio

40 Hours | \$4,995

Schedules

05/15/2023 – 05/19/2023

CVPD-Java is a hands-on programming course teaching participants to extend the functionality of CVP Call Studio using the CVP Java API. Participants will learn to write, compile, deploy and maintain custom elements, say it smarts, and other components for Call Studio and VXML Server in the CVP environment. Participants must be familiar with Call Studio and know a small amount of Java or similar programming language.

Salesforce: Certification Preparation for Salesforce JavaScript Developer I (CRT-600)

8 Hours | \$900

Schedules

03/16/2023 – 03/16/2023

This course will help hone your problem-solving skills and reinforce your knowledge of key features and concepts of the JavaScript programming language.

Project Management Professional (PMP)

Earned Value Management (EVM)

32 Hours | \$2,295

Schedules

03/27/2023 – 03/30/2023
05/01/2023 – 05/04/2023
06/05/2023 – 06/08/2023
08/15/2023 – 08/18/2023
09/12/2023 – 09/15/2023
11/14/2023 – 11/17/2023

This course teaches you the fundamentals of EVM so you can understand how to establish an effective project baseline and monitor project progress against known expectations.

Learn how EVM is integrated throughout the project life cycle. Practice the activities you go through to establish an effective baseline. Identify the critical data points that must be collected to analyze project progress. Learn to conduct trend analysis, calculate actual cost, and accurately project final cost, schedule, and performance variances. Understand how change impacts EVM and how approved changes can impact your original baseline. Identify the stakeholders who would benefit from EVM data and learn effective communication methods. Finally, review the differences of EVM in a corporate and federal environment.

Students pursuing a university-recognized and/or accredited certificate in Canada or continuing education units in the US must attend at least 90% of class time, participate in class exercises and section-knowledge checks, and score at least 70% on an end-of-class, multiple-choice assessment.

PMI Authorized PMP Exam Prep

40 Hours | \$2,995

Schedules

03/13/2023 – 03/17/2023
03/27/2023 – 03/31/2023
04/10/2023 – 04/14/2023
04/24/2023 – 04/28/2023
05/15/2023 – 05/19/2023
06/05/2023 – 06/09/2023
06/26/2023 – 06/30/2023
07/17/2023 – 07/21/2023
08/14/2023 – 08/18/2023
09/25/2023 – 09/29/2023
10/23/2023 – 10/27/2023
11/13/2023 – 11/17/2023

Project Management Professional (PMP) is the most sought-after project management credential offered by the Project Management Institute (PMI). The PMP Certification validates valuable experience, training, skill, and competency required to lead and direct projects. This PMP exam prep course shall prepare your teams to gain excellence in project management like never before. PMP is perfect for teams in governments and private organizations as well as individuals.

NetCom Learning is a preferred PMI Authorized Training Partner, and our PMP training consists of expert-crafted solutions that deliver the required expertise for gaining competent project management skills. Our best PMP prep courses are provided through highly engaging, unique blended learning delivery solutions by certified instructors.

In this new Project Management Professional (PMP) course, you will get to apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI) to manage projects successfully. This PMP exam prep course will immerse you in real-world settings, representing various industries and project management situations to help your teams practice applying principles and concepts at work. In this 4-day class, our Commerce Cloud experts will walk you through how to use Salesforce B2B Commerce to set up and configure the essential elements required to manage a store on Lightning Experience, so you can deliver a buyer experience that satisfies your organization - unique requirements.

Salesforce Sales Cloud

Salesforce Certification Preparation for Advanced Administrator (CRT-211)

8 Hours | \$900

Schedules

04/14/2023 – 04/14/2023

Are you ready to be recognized for your mastery of Salesforce administration by becoming a Salesforce Certified Advanced Administrator? By covering the details around the exam objectives, this course will help hone your knowledge of next-level techniques to administer and manage Salesforce's CRM capabilities through guided scenarios, lecture, and discussion.

Salesforce: Certification Preparation for Administrator (CRT-101)

8 Hours | \$900

Schedules

03/15/2023 – 03/15/2023

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Administrator? Instructors will present real-world business scenarios that will help hone your problem-solving skills and reinforce your knowledge of key topics covered on the Certified Administrator exam. You will complete practice questions related to these scenarios to help prepare you for your exam.

Salesforce: Certification Preparation for Sales Cloud Consultant (CRT-251)

8 Hours | \$900

Schedules

04/25/2023 – 04/25/2023

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Sales Cloud Consultant? Instructors will present scenarios that will help reinforce your knowledge of Sales Cloud functionality by thinking through requirements design considerations. The course provides an overview of the exam objectives to help you focus your efforts to prepare for the Salesforce.com Sales Cloud Consultant Certification exam.

Salesforce: Marketing Cloud Connect Essentials (MCC-201)

32 Hours | \$2,400

Schedules

03/06/2023 – 03/09/2023

The Marketing Cloud Connect Essentials course is designed to give you in-depth knowledge of the functionality available when you connect your Salesforce org to your Marketing Cloud account. In this interactive course, you will gain hands-on experience connecting the Clouds, personalizing your emails by leveraging your Salesforce CRM data from the Sales / Service Clouds, sending emails to a Contact / Lead, Report, or Campaign, synchronizing your Salesforce CRM data in the Marketing Cloud, segmenting your data to send targeted and relevant emails, creating 1:1 journeys based on your Salesforce CRM data, and tracking and reporting capabilities in the Marketing Cloud and Sales /Service Clouds.

Salesforce Service Cloud

Salesforce: Certification Preparation for Service Cloud Consultant (CRT-261)
8 Hours | \$900

Schedules

04/20/2023 – 04/20/2023

Are you ready to take the next step in your career by becoming a Salesforce.com Certified Service Cloud Consultant? Instructors will present scenarios that will help reinforce your knowledge of Service Cloud functionality by thinking through requirements design considerations. The course provides an overview of the exam objectives to help you focus your efforts to prepare for the Salesforce.com Service Cloud Consultant Certification exam.

Salesforce1 Platform and Salesforce1 Mobile App

Salesforce: Certification Preparation for Platform App Builder (CRT-403)
8 Hours | \$900

Schedules

05/30/2023 – 05/30/2023

This course will help hone your knowledge of Salesforce application lifecycle management and the declarative and programmatic solutions available to you through guided scenarios, lecture, and discussion.

Salesforce: Design and Build Integration Solutions (ARC-101)
24 Hours | \$2,700

Schedules

03/06/2023 – 03/08/2023

11/06/2023 – 11/08/2023

Design and Build Integration Solutions (ARC101) course helps to explore architectural concepts and the big picture thinking of how to integrate on the Salesforce Platform. In this 3-day class, our Salesforce integration experts will demonstrate how to build solutions that provide a single view of your customers. You - I learn about integration capabilities and the considerations that should be made when architecting an integration solution. Through a combination of demos, discussions, and hands-on exercises, you - I design and build secure, scalable, and high-performing integration solutions that seamlessly surface the information that matters most.

Salesforce: Programming Lightning Web Components (DEX-602)

40 Hours | \$4,500

Schedules

05/08/2023 – 05/12/2023

If your responsibilities include developing custom applications running in Lightning Experience and Salesforce mobile that support multiple devices and screen sizes from a single codebase, taking this class will boost your skills to the next level.

In this course, you'll learn how to program Lightning Web Components with markup, JavaScript, CSS, Apex, and the Salesforce Lightning Design System (SLDS), and make them available to Salesforce end users.

ServiceNow

ServiceNow CSM (Customer Service Management)

24 Hours | \$3,190

Schedules

03/15/2023 – 03/22/2023

This is a 3-day custom course on ServiceNow CSM (Customer Service Management).

ServiceNow Performance Analytics

40 Hours | \$4,625

Schedules

03/01/2023 – 03/01/2023

03/06/2023 – 03/13/2023

This is a 5-day custom course on ServiceNow Performance Analytics.

SSCP - Systems Security Certified Practitioner

SSCP – Systems Security Certified Practitioner Certification Prep.

40 Hours | \$3,995

Schedules

03/27/2023 – 03/31/2023

04/03/2023 – 04/07/2023

05/01/2023 – 05/05/2023

06/05/2023 – 06/09/2023

07/10/2023 – 07/14/2023

07/31/2023 – 08/04/2023

09/11/2023 – 09/15/2023

10/02/2023 – 10/06/2023

The best way to combat an attack on an organization's information assets is to have qualified information security professionals with the appropriate practices and controls to implement, monitor and administer IT infrastructure to ensure data confidentiality, integrity and availability. This official SSCP course validates student's ability to identify, evaluate, and prioritize potential threats, manage and mitigate threats through risk management concepts, assessment activities, and monitoring terminology, techniques and systems. Gain skills to properly and promptly respond to a security incident or forensic investigation with incident handling processes and procedures such as Business Continuity Planning (BCP) and Disaster Recovery Planning (DRP). The SSCP certification course from NetCom Learning, the official (ISC) training partner, provides foundational knowledge to employ risk management principles, assess suspicious activities, and monitor systems and technologies to avoid malicious attackers. Enroll in this SSCP training course to prepare and earn the SSCP – Systems Security Certified Practitioner certification.

What's Included -

- 5 days instructor-led training
- (ISC)2 Official SSCP e-Book
- (ISC)2 Official SSCP Assessments
- Quizzes after each chapter
- (ISC)2 Official Authorized SSCP Instructor
- (ISC)2 Official SSCP Certificate of completion
- (ISC)2 Official SSCP Exam Voucher

Note: This is to declare that it is a DoD approved course.

Tableau Desktop

Tableau Desktop I & II: Accelerated

24 Hours | \$2,100

Schedules

03/13/2023 – 03/15/2023
04/10/2023 – 04/12/2023
05/08/2023 – 05/10/2023
06/12/2023 – 06/14/2023

A fast-paced three day course covering fundamental and intermediate Tableau topics. This course provides comprehensive Tableau training for students who thrive in a swiftly moving class and prefer to come up to speed on new technology quickly. Desktop I & II: Accelerated teaches concepts, techniques, and shortcuts to create Tableau data visualization competency in the shortest amount of time possible.

Tableau Desktop I: Fundamentals

16 Hours | \$1,400

Schedules

03/06/2023 – 03/07/2023
04/03/2023 – 04/04/2023
05/01/2023 – 05/02/2023
06/05/2023 – 06/06/2023

This course is designed for beginner Tableau users. It is for anyone who works with data - regardless of technical or analytical background. This training is designed to help you understand and use the important concepts and techniques in Tableau to move from simple to complex visualizations and learn how to combine them in interactive dashboards.

Tableau Desktop II: Intermediate

16 Hours | \$1,400

Schedules

03/08/2023 – 03/09/2023
04/05/2023 – 04/06/2023
05/03/2023 – 05/04/2023
06/07/2023 – 06/08/2023

Tableau Desktop 2: Intermediate course is designed to expand your skills and distinguish yourself as a Tableau power user. It's structured for those who have a working experience with Tableau and want to take it to the next level. You should understand how to build basic worksheets and dashboards, but may scratch your head when working with more complex issues.

Tableau Desktop III: Advanced

16 Hours | \$1,400

Schedules

03/20/2023 – 03/21/2023
04/17/2023 – 04/18/2023
05/22/2023 – 05/23/2023
06/26/2023 – 06/27/2023

Explore complex data visualization challenges and dig deeper into your data. You'll learn advanced uses for calculations by applying them to real world scenarios. Get a better understanding of how to artfully prepare and organize your data and walk away having a better grasp of advanced building techniques for creating innovative analysis and dashboards.
